1. Sustaining the soil: indigenous soil and water conservation in Africa  
   *Ian Scoones, Chris Reij and Camilla Toulmin*  
   1

2. Making the most of local knowledge: water harvesting in the Red Sea Hills of Northern Sudan  
   *Mohamed Osman El Sammani and Sayed Mohamed Ahmed Dabloub*  
   28

3. Drought and the need to change: the expansion of water harvesting in Central Darfur, Sudan  
   *Yagoub Abdalla Mohamed*  
   35

4. The mastery of water: SWC practices in the Atlas Mountains of Morocco  
   *M Ait Hamza*  
   44

5. Mountains, foothills and plains: investing in SWC in Morocco  
   *Miloud Chaker with H El Abbassi and A Laouina*  
   48
6. Improved traditional planting pits in the Tahoua Department (Niger): an example of rapid adoption by farmers
   Abdou Hassan 56

7. Rehabilitating degraded land: zaï in the Djenné Circle of Mali
   Joanne Wedum, Yaya Doumbia, Boubacar Sanogo,
   Gouro Dicko and Oussoumana Cissé 62

8. A measure for every site: traditional SWC techniques on the
   Dogon Plateau, Mali
   Armand Kassogué, Mamadou Momota, Justin Sagara and
   Ferdinand Schutgens 69

9. The zaï: a traditional technique for the rehabilitation of degraded
   land in the Yatenga, Burkina Faso
   Matthieu Ouedraogo and Vincent Kaboré 80

10. Mulching on the Central Plateau of Burkina Faso: widespread
    and well adapted to farmers’ means
    Maja Slingerland and Mouga Masdewel 85

11. Firki-masakwa cultivation in Borno, north-east Nigeria
    Are Kolawole, J K Adewumi and P E Odo 90

12. Indigenous SWC in Southern Zimbabwe: a study of techniques,
    historical changes and recent developments under participatory
    research and extension
    J Hagmann and K Murwirwa 97

13. Environmental change and livelihood responses: shifting
    agricultural practices in the lakes depression zone of
    Northern Zambia
    Patrick M Sikana and Timothy N Mwambazi 107

14. ‘Grandfather’s way of doing’: gender relations and the yaba-itgo
    system in Upper East Region, Ghana
    David Millar with Roy Ayariga and Ben Anamoh 117

15. How rice cultivation became an ‘indigenous’ farming practice in
    Maswa district, Tanzania
    J M Shaka, J A Ngailo and J M Wickama 126

16. Making the most of compost: a look at wafipa mounds
    in Tanzania
    A C Mbegu 134
CONTENTS

17. Cultivating the valleys: vinyungu farming in Tanzania
   Anderson J Lema

18. Pit cultivation in the Matengo Highlands of Tanzania
   A E M Temu and S Bisanda

19. ‘Back to the grass strips’: a history of soil conservation policies
   in Swaziland
   M Osunade and C Reij

20. The ‘flexibility’ of indigenous SWC techniques: a case study
    of the Harerger Highlands, Ethiopia
   Kebede Asrat, Kederalah Idris and Mesfin Semegn

21. Traditional ditches in Northern Shewa, the Ethiopian Highlands
    Million Alemayehu

22. Creating an inventory of indigenous SWC measures in Ethiopia
    Hans-Joachim Krüger, Berhanu Fantaw, Yohannes G Michael
    and Kefeni Kajela

23. Local farming in the former Transkei, South Africa
    Kevin Phillips-Howard and Chris Oche

24. Traditional SWC techniques in the Mandara Mountains,
    Northern Cameroon
    François Hiol Hiol, Dieudonné Ndoum Mbeyo and
    François Tchala Abina

25. New perspectives on local conservation techniques: a case study
    from Malawi
    Julius H Mangisoni and G S Phiri

26. The rapid evolution of small-basin irrigation on the Jos Plateau,
    Nigeria
    Kevin Phillips-Howard

27. A SWC system under threat: a visit to Maku, Nigeria
    E M Igbokwe

28. Evolution of traditional techniques of soil conservation in the
    Bamileke region, West Cameroon
    Paul Tchawa
