Contents

PART A: SOME BACKGROUND ON OBSERVATIONS, DATA ASSIMILATION AND MODELING

1 Energy and Water Cycles in the Climate System: What can we measure from space?
   E. Raschke 3

2 Observational Requirements for Modeling of Global and Regional Climate Change
   A.D. Del Genio 31

3 Surface Fluxes of Momentum, Heat, and Water Vapor
   J.D. Albertson, G. Kiely and M.B. Parlange 59

4 Introduction to Numerical Weather Prediction Data Assimilation
   P. Courtier 83

5 Principles of Active and Passive Remote Measurements of Water in the Atmosphere and at Ground
   Y. Fouquart and M. Vesperini 97

6 Extratropical Cyclones: Their Mesoscale Structure, Precipitation and Role in the Transport of Water
   Ronald E. Stewart 129

PART B: REMOTE SENSING OF CLOUDS, RADIATION AND PRECIPITATION

7 Clouds and the Radiative Heating of the Earth Surface-Atmosphere System
   R. Stuhlmann 151

8 Remote Sensing of Atmospheric Water Vapor
   W.B. Rossow 175

9 Properties of Clouds and Cloud Systems
   W.B. Rossow 193

10 Lidar Measurements: Atmospheric Constituents, Clouds, and Ground Reflectance
    C. Weitkamp 217
11 Retrieval of Precipitation from Satellites
   C. Simmer 249

12 Precipitation at the Ground: Radar Techniques
   P. Joe 277

13 Ground-Based Remote Sensing of Cloud Properties Using Millimeter-
   Wave Radar
   E.E. Clothiaux, T.P. Ackerman, D.M. Babb 323

PART C: PROPERTIES AND PROCESSES AT GROUND

14 Remote Sensing of Soil Moisture
   S. Paloscia 369

15 Remote Sensing Parameterization of Meso-scale Land Surface
   Evaporation
   W.G.M. Bastiaanssen 401

16 Satellite Remote Sensing of Evaporation over Sea
   P. Schlüssel 431

17 Applications of Passive and Active Microwave Sensors to the Study of
   Weather Systems over the Ocean
   K.B. Katsaros 463

18 Physical Basis for Microwave Remote Sensing of Sea Ice and Snow
   M. Hallikainen 489

19 Retrieval of Sea Ice and Snow Parameters from Microwave Radiometer
   and Radar Data
   M. Hallikainen 527

PART D: NEW DEVELOPMENTS

20 TRMM: The Tropical Rainfall Measuring Mission
   A.D. Del Genio 549

21 Model Development for Passive Microwave Remote Sensing at ESA
   ESTEC
   J. Noll 569

PART E: POSTER SESSIONS

22 Poster Summaries 599

Index 609
