CONTENTS

| | |
|--|-----------|
| <i>Foreword by Jim Skea</i> | viii |
| <i>Preface and Acknowledgements</i> | xi |
| <i>Contributors</i> | xiii |
| <i>List of Figures</i> | xiv |
| <i>List of Tables</i> | xv |
| <i>Abbreviations and Acronyms</i> | xvi |
| 1 The Climate Change Challenge | 1 |
| <i>Ute Collier and Ragnar E Löfstedt</i> | |
| Introduction | 1 |
| The Threat of Climate Change | 3 |
| Options for Emission Reductions | 5 |
| Developing Response Strategies | 6 |
| Emerging Policy Responses: The International Level | 8 |
| The EU Response | 10 |
| National and Local Strategies | 11 |
| The Following Chapters | 13 |
| 2 The Energy Dimension | 15 |
| <i>Ute Collier and Ragnar E Löfstedt</i> | |
| Introduction | 15 |
| The Role of CO ₂ -Free Electricity Generating Sources | 17 |
| The Possible Contributions of New and Developing Renewable Energies | 19 |
| Energy Efficiency | 22 |
| Low CO ₂ Fossil Fuel Technologies | 24 |
| New Opportunities in a Liberalized Energy Market? | 25 |
| Conclusions: What Does the Future Hold? | 26 |
| 3 Routes of Reducing Transport-Related Greenhouse Gas Emissions | 30 |
| <i>Jo Smith and Susan Owens</i> | |
| Introduction | 30 |
| The Evolution of Car Dependence | 31 |
| Sustainable Transport Strategies | 32 |
| Traditional Objectives of Land Use Planning | 34 |

| | |
|---|------------|
| Land Use Planning as a Climate Change Policy Instrument | 35 |
| Conclusion: Planning for Access and Real Wealth | 38 |
| 4 The EU and Climate Change Policy: The Struggle over Policy Competences | 43 |
| <i>Ute Collier</i> | |
| Introduction | 43 |
| Emission Characteristics of the EU | 44 |
| Subsidiarity and the Lack of EU Competences in Energy Policy | 47 |
| Attempts at Defining a Common Climate Change Strategy | 50 |
| Reliance on National and Local Action | 58 |
| Conclusions: What Future Role for the EU? | 61 |
| 5 Leadership and Unification: Climate Change Policies in Germany | 65 |
| <i>Michael Huber</i> | |
| Introduction | 65 |
| The German Emission Profile | 66 |
| The Evolution of Climate Change Policy in Germany | 69 |
| Energy Measures | 73 |
| Reducing Emissions from Fossil Fuel Electricity Generation | 74 |
| The Transport Dimension | 78 |
| Local Authorities: the Real Policy Leaders? | 80 |
| Concluding Remarks | 83 |
| 6 'Windfall' Emission Reductions in the UK | 87 |
| <i>Ute Collier</i> | |
| Introduction | 87 |
| Emission Trends in Greenhouse Gases | 88 |
| The UK Climate Change Programme | 90 |
| Changes in Energy Related Emissions: Relying on the 'Dash for Gas' | 92 |
| Developments in Transport Policy | 100 |
| Climate Change and Local Government | 102 |
| Conclusions | 104 |
| 7 Italy: Implementation Gaps and Budget Deficits | 108 |
| <i>Gianni Silvestrini and Ute Collier</i> | |
| Introduction | 108 |
| Greenhouse Gas Emission Trends | 109 |
| The Italian Climate Change Programme | 112 |
| Energy Measures: Reducing Fossil Fuel Dependency | 114 |
| Transport Sector Developments | 120 |
| Local Climate Change Policies | 122 |
| Conclusions | 124 |
| 8 France: Relying on Past Reductions and Nuclear Power | 127 |
| <i>Pierre-Noël Giraud with Ute Collier and Ragnar E. Löfstedt</i> | |
| Introduction | 127 |
| French Greenhouse Gas Emissions: Relying on Past Reductions | 128 |

| | |
|--|------------|
| France's Climate Change Policy | 131 |
| Energy Measures | 134 |
| Transport Policies | 140 |
| Local and Regional Authority Initiatives | 143 |
| Conclusions | 145 |
| 9 Spain: Fast Growth in CO₂ Emissions | 147 |
| <i>Xavier Labandeira Villot</i> | |
| Introduction | 147 |
| Spanish Greenhouse Gas Emissions | 148 |
| The National Programme for Climate Change | 151 |
| Energy Measures | 153 |
| Transport Policies | 157 |
| Regional and Local Authorities and the Private Sector | 158 |
| Conclusions: Assessment of Current Strategies and Feasibility of Further Action | 161 |
| 10 Sweden: The Dilemma of a Proposed Nuclear Phase Out | 165 |
| <i>Ragnar E Löfstedt</i> | |
| Introduction | 165 |
| Sweden's Greenhouse Gas Emissions | 165 |
| Policy Developments in the Area of Climate Change | 168 |
| Current Climate Policy – How to Reduce CO ₂ Emissions | 170 |
| Transport Issues | 175 |
| Actions Implemented at the Local Level | 178 |
| Concluding Comments | 179 |
| 11 Comparative Analysis and Conclusions | 184 |
| <i>Ute Collier and Ragnar E Löfstedt</i> | |
| Introduction | 184 |
| Comparing the National Programmes | 185 |
| The Influence of Emission Characteristics | 187 |
| Political Constraints | 189 |
| Opportunities at the Local Level | 195 |
| Conclusions | 197 |
| <i>Index</i> | 200 |
