1.   Origins of New World populations
    1.1  Introduction .......................... 1
    1.2  Early theories of origin .............. 2
    1.3  Scientific evidence for Amerindian origins .......................... 3
    1.4  Ecological background .................. 11
    1.5  Siberian chronology and New World peopling .................. 14
    1.6  Archeological evidence ................ 16
    1.7  The new synthesis? ...................... 21
    1.8  Siberian founders ...................... 27
    1.9  Settlement of North America .......... 28
    1.10 Peopling of South America ............ 30

2.   Population size and the effects of European contact .............. 32
    2.1  Introduction .......................... 32
    2.2  Methods of estimation ................ 32
    2.3  Estimates of regional population size .................. 33
    2.4  Regional variation in depopulation .......... 41
    2.5  Evolutionary consequences of population reduction ........ 49
    2.6  Impact of Old World diseases .......... 50
    2.7  Aboriginal New World diseases .......... 53
    2.8  Old World disease imports ............ 61
    2.9  Conclusion ............................ 62
