PREFACE

I INTRODUCTION ................................................................. 1

1. Subsurface Water Responses to Land Cover/Use Changes: An Overview .... 1
   Makoto Taniguchi

II CHANGE OF WATER BALANCE ............................................. 21

2. Land Management Impacts on Evaporation from Shallow, Saline
   Water Tables ................................................................. 21
   Peter J. Thorburn

   Jun Shimada, Tsutomu Yamanaka, Tadashi Tanaka and V. Nandakumar

4. Using Heat Pulse and Deuterium Tracing Techniques to Estimate Tree
   Water Use ................................................................. 47
   S.J. Kalma, P.J. Thorburn and G.M. Dunn

5. Response of Simulated Upflow from Shallow Water Tables to Variations in
   Model Parameter Values .................................................. 61
   Peter J. Thorburn and Wayne S. Meyer

III CHANGE OF SOLUTE AND HEAT BALANCES ............................ 73

6. Anthropogenic Impacts on the Distribution of Playa Lake Salinity ......... 73
   Scott W. Tyler, Ian A. White and Robin A. Wooding

7. Hydrology and Geochemistry of Coal Spoil and Final Voids ................ 87
   David A. Ellerbroek, David R. Jones, Lloyd R. Townley and John C. Eames

8. Comparison of the pH Determining Factor of the Streamwater in World
   Forest Watershed ......................................................... 105
   Nobuhito Ohte and Yuko Asano

9. Streamflow and Salinity Response to Agricultural Clearing at the Warren
   River Basin, Western Australia ......................................... 121
   M. A. Bari
10. Changes in Surface and Subsurface Temperatures after Clearing Forest in Western Australia .......................................................... 139
   Makoto Taniguchi, David R. Williamson and Adrian J. Peck

IV MODELING AND REMOTE SENSING ............................................. 153

11. Hydrogeological Characterisation of Catchments Using Hydrogeomorphic Analysis of Regional Spatial Data (HARSD): Characterisation of Axe Creek Catchment, Victoria, Australia ........................................... 153
    R. B. Salama and T. Hatton, G.M. Elder and L. Ye

12. Hydrological/Environmental Impacts of Tree Harvesting within Flatwood Pine Forests upon Local Wetlands ............................................... 167
    Ali Fares, Robert S. Mansell and Stephen A. Bloom

13. Simulated Impacts of Climate Change on Groundwater Recharge in the Subtropics of Queensland, Australia ........................................ 187
    Timothy R. Green, Bryson C. Bate, P. Mick Fleming and Stephen P. Charles

14. Remotely Sensed Vegetation Data for Hydrological Applications: Calibrating Airborne and Satellite Data with Biomass ......................... 205
    Geraldine A. Cusack, Michael F. Hutchinson and Jetse D. Kalma

AUTHOR INDEX .................................................................................. 221

SUBJECT INDEX ............................................................................... 225
