B.D. Kay

Chapter 14. Dynamics of Soil Aggregation and C Sequestration .................. 199
Denis A. Angers and Claire Chenu

Chapter 15. Soil Aggregate Stabilization and Carbon Sequestration: Feedbacks
Through Organo-Mineral Associations ............................................. 207
J.D. Jastrow and R.M. Miller

Chapter 16. Impact of Variations in Granular Structures on C Sequestration in Two
Alberta Mollisols ................................................................. 225
Z. Chen, S. Pawluk, and N.G. Juma

Chapter 17. A Model Linking Organic Matter Decomposition, Chemistry, and
Aggregate Dynamics ............................................................. 245
J.A. Golchin, J.A. Baldock, and J.M. Oades

Chapter 18. Soil Organic Carbon Dynamics and Land Use in the Colombian Savannas:
Aggregate Size Distribution ....................................................... 267
W. Trujillo, E. Amezquita, M.J. Fisher, and R. Lal

SOIL CHEMICAL PROCESSES

Chapter 19. Dissolved Organic Carbon: Sources, Sinks, and Fluxes and Role in the
Soil Carbon Cycle ............................................................... 281
T.R. Moore

Chapter 20. Geochemical History of Carbon on the Planet: Implications for Soil Carbon
Studies ................................................................. 293
D. Ye. Konyushkov

F.L. Himes

SOIL BIOLOGICAL PROPERTIES

Chapter 22. Management of Soil C by Manipulation of Microbial Metabolism: Daily vs.
Pulsed C Additions ............................................................. 321
D.C. Jans-Hammermeister, W.B. McGill, and R.C. Izaurralde

Chapter 23. Investigations to the Carbon and Nitrogen Dynamics of Different
Long-Term Experiments by Means of Biological Soil Properties .................. 335
A. Weigel, E.-M. Klimanek, M. Körschens, and St. Mercik
Chapter 24. Effect of Corn and Soybean Residues on Earthworm Cast Carbon Content and Natural Abundance Isotope Signature ........................................... 345
Dennis R. Linden and C. Edward Clapp

SOIL EROSION AND C DYNAMICS

Chapter 25. Soil Organic Carbon Distribution in Aggregates and Primary Particle Fractions as Influenced by Erosion Phases and Landscape Position ........................................... 353
R.M. Bajracharya, R. Lal, and J.M. Kimble

Chapter 26. Carbon Storage in Eroded Soils after Five Years of Reclamation Techniques ........................................... 369

SOIL QUALITY AND C SEQUESTRATION

Chapter 27. Quantification of Soil Quality ........................................... 387
C.A. Seybold, M.J. Mausbach, D.L. Karlen, and H.H. Rogers

Jeffrey E. Herrick and Michelle M. Wander

Chapter 29. Soil Quality Indices of Piedmont Sites under Different Management Systems ........................................... 427
Betty F. McQuaid and Gail L. Olson

Chapter 30. Impact of Carbon Sequestration on Functional Indicators of Soil Quality as Influenced by Management in Sustainable Agriculture ........................................... 435
C.M. Monreal, H. Dinel, M. Schnitzer, D.S. Gamble, and V.O. Biederbeck

MODELLING C DYNAMICS

Chapter 31. Modeling Soil Carbon in Relation to Management and Climate Change in Some Agroecosystems in the Central North America ........................................... 459
Keith Paustian, Edward T. Elliott, and Kendrick Killian

Chapter 32. Predicting Soil Carbon in Mollisols Using Neural Networks ........................................... 473
Elissa R. Levine and Daniel Kimes

Chapter 33. A Retrospective Modeling Assessment of Historical Changes in Soil Carbon and Impacts of Agricultural Development in Central U.S.A., 1900 to 1990 ........................................... 485
A.S. Patwardhan, A.S. Donigian Jr., R.V. Chinnaswamy, and T.O. Barnwell

Chapter 34. Modeling Soil Carbon and Agricultural Practices in the Central U.S.: An Update of Preliminary Study Results ........................................... 499
A.S. Donigian, A.S. Patwardhan, R.V. Chinnaswamy, and T.O. Barnwell
Chapter 35. Experimental Verification of Simulated Soil Organic Matter Pools ...... 519
Cynthia A. Cambardella

Chapter 36. Modeling Tillage and Surface Residue Effects on C Storage under
Ambient vs. Elevated CO₂ and Temperature in Ecosys ................................. 527
R.F. Grant, R.C. Izaurrelde, M. Nyborg, S.S. Malhi, E.D. Solberg, and D. Jans Hammermeister

METHODS OF SOC DETERMINATION

Chapter 37. Using Bulk Radiocarbon Measurements to Estimate Soil Organic Matter
Turnover Times ................................................................................................. 549
K.G. Harrison

Chapter 38. Impacts of Climatic Change on Carbon Storage Variations in African and
Asian Deserts ................................................................................................. 561
E. Lioubimtseva

Chapter 39. Carbon Turnover in Different Climates and Environments .................. 577
H.W. Scharpenseel and E.M. Pfeiffer

IMPACT OF CLIMATE ON C DYNAMICS

Chapter 40. Carbon Sequestration in Soil: Knowledge Gaps Indicated by the
Symposium Presentations .............................................................................. 591
D.J. Greenland

Chapter 41. Knowledge Gaps and Researchable Priorities ................................. 595
R. Lal, J. Kimble, and R. Follett

Index ............................................................................................................ 605
