*Accommodation Zones and Transfer Zones:
The Regional Segmentation of the Basin and Range Province*

Edited by

James E. Faulds
Nevada Bureau of Mines and Geology
University of Nevada

Menlo Park, California 94025

SPECIAL PAPER

323

1998

Contents

<i>Preface</i>	v
 <i>1. The role of accommodation zones and transfer zones in the regional segmentation of extended terranes</i>	 1
James E. Faulds and Robert J. Varga	
 <i>2. Regional characteristics, tilt domains, and extensional history of the late Cenozoic Basin and Range province, western North America</i>	 47
John H. Stewart	
 <i>3. Basement-controlled transfer zones in an area of low-magnitude extension, eastern Basin and Range province, Trans-Pecos Texas</i>	 75
Christopher D. Henry	
 <i>4. Seismic reflection evidence for detachment polarity beneath a major accommodation zone, west-central Arizona</i>	 89
Joseph M. Kruger, James E. Faulds, Stephen J. Reynolds, and David A. Okaya	
 <i>5. Structural control of rock-avalanche deposition in the Colorado River extensional corridor, southeastern California–western Arizona</i>	 115
Kathi K. Beratan	
 <i>6. Restoration of Tertiary deformation in the Lake Mead region, southern Nevada: The role of strike-slip transfer zones</i>	 127
Ernest M. Duebendorfer, L. Sue Beard, and Eugene I. Smith	
 <i>7. Paleomagnetic evidence for counterclockwise rotation in a broad sinistral shear zone, Basin and Range province, southeastern Nevada and southwestern Utah</i>	 149
M. R. Hudson, J. G. Rosenbaum, C. S. Grommé, R. B. Scott, and P. D. Rowley	

8. <i>The Caliente-Enterprise zone, southeastern Nevada and southwestern Utah</i>	181
Gary J. Axen	
9. <i>Cenozoic transverse zones and igneous belts in the Great Basin, western United States: Their tectonic and economic implications</i>	195
Peter D. Rowley	
10. <i>Insights from Quaternary relations for segmentation of the Great Basin by regional, transverse accommodation zones</i>	229
Paul C. Thenhaus and Theodore P. Barnhard	
11. <i>Cenozoic tilt domains in southwestern Montana: Interference among three generations of extensional fault systems</i>	241
James W. Sears and William J. Fritz	
<i>Index</i>	249

Plate

(in pocket)

Plate 1. Map showing Cenozoic tilt domains and associated structural features, western North America
