CONTENTS

Preface ix

Tribute to Professor Dr Heinz Bernhardt xi

Water Treatment – Microorganisms and Particles

J. K. EDZWALD and M. B. KELLEY: Control of Cryptosporidium: from reservoirs to clarifiers to filters 1

P. KARANIS, D. SCHOENEN and H. M. SEITZ: Distribution and removing of Giardia and Cryptosporidium in water supplies in Germany 9

J. CLASEN: Efficiency control of particle removal by rapid sand filters in treatment plants fed with reservoir water: a survey of different methods 19

C. T. TA and C. A. WOODWARD: A treatability index for reservoir water 27

O. HOYER and H. SCHELL: Monitoring raw water quality and adjustment of treatment processes – experiences at the Wahnbach reservoir 43

J. D. PLUMMER and J. K. EDZWALD: Effect of ozone on disinfection by-product formation of algae 49

A. MONTIEL and B. WELTÉ: Preozonation coupled with flotation filtration: successful removal of algae 65

G. D. E. GLASGOW and A. D. WHEATLEY: The effect of surges on the performance of rapid gravity filtration 75

N. J. D. GRAHAM, V. E. WARDLAW, R. PERRY and J.-Q. JIANG: The significance of algae as trihalomethane precursors 83

W. SCHMIDT, B. HAMBSCH and H. PETZOLDT: Classification of algogenic organic matter concerning its contribution to bacterial regrowth potential and by-products formation 91
Water Treatment – Organic Substances

F. H. FRIMMEL, J. JAHNEL and S. HESSE: Characterization of biogenic organic matter (BOM) 97

J. HEJZLAR, P. DOLEJŠ, J. KOMÁRKOVA, J. SED'A, K. ŠIMEK and V. VYHNÁLEK: Effect of biomanipulation on the structuring of the planktonic food web and water treatability by coagulation 105

F. RECKNAGEL, M. BURCH, G. JABLONSKAS, J. MINNEY and S. SCHOOFS: Combined effects of organic pollution and eutrophication in the South Para Reservoirs, South Australia 113

J.-Q. JIANG and N. J. D. GRAHAM: Preliminary evaluation of the performance of new pre-polymerised inorganic coagulants for lowland surface water treatment 121

Reservoir Water–Treatment Interactions

C. R. O'MELIA: Coagulation and sedimentation in lakes, reservoirs and water treatment plants 129

E. GARVEY, J. E. TOBIASON, M. HAYNES, E. WOLFRAM, D. A. RECKHOW and J. W. MALE: Coliform transport in a pristine reservoir: modeling and field studies 137

A. E. NIENHÜSER and P. BRACHES: Problems and practical experiences during refilling of the Kerpse-Talsperre under unfavourable climatic conditions 145

M. C. STEYENBERG, K. ADAM and A. J. H. PIETERSE: An algal monitoring protocol: the strategic link between reservoir and treatment process 153

G. J. JONES and W. POPLAWSKI: Understanding and management of cyanobacterial blooms in sub-tropical reservoirs of Queensland, Australia 161

L. J. KORS, J. H. N. MOORMAN, A. P. M. WIND and J. P. VAN DER HOEK: Nitrification and low temperature in a raw water reservoir and rapid sand filters 169

H. HASSAN, K. HANAKAI and T. MATSUO: A modeling approach to simulate impact of climate change in lake water quality: phytoplankton growth rate assessment 177

T. IORIYA, S. INOUE, M. HAGA and N. YOGO: Change of chemical and biological water environment at a newly constructed reservoir 187

Eutrophication

A. SLÁDECKOVÁ and L. ŽÁCEK: Technological and hygienic consequences of reservoir eutrophication in the Czech Republic 195

S. FUKUJU, T. TAKAHASHI and T. KAWAYOKE: Statistical analysis of freshwater red tide in Japanese reservoirs 203

M. YAMADA, Y. ONO and I. SOMIYA: Accumulation of freshwater red tide in a dam reservoir 211

Reservoir Hydrodynamics

C. T. TA and W. J. BRIGNAL: Application of computational fluid dynamics technique to storage reservoir studies 219
J. D. COX, M. B. PADLEY and J. HANNON: Use of computational fluid dynamics to model reservoir mixing and destratification 227

L. PAUL, K. SCHRÜTER and J. LABAHN: Phosphorous elimination by longitudinal subdivision of reservoirs and lakes 235

O. KAWARA, E. YURA, S. FUJII and T. MATSUMOTO: A study on the role of hydraulic retention time in eutrophication of the Asahi River Dam reservoir 245

Processes in Reservoirs

G. C. BERTOLUCCI, G. GILLI, E. CARRARO, D. GIACOSA and M. PUPPO: Influence of raw water storage on Giardia, Cryptosporidium and nematodes 261

A. P. BENOIST, A. G. BRINKMAN, P. M. J. A. VAN DIEPENBEEK and J. M. J. WAALS: BEKWAAM, a model fit for reservoir design and management 269

J. DE MAESENEER, L. GILLE and J. MEHEUS: The influence of bioregulation on water quality of the prefiltered stagnant water reservoir Eekhoven (Flanders, Belgium) 277

Reservoir Aeration and Destratification

D. F. McGINNIS and J. C. LITTLE: Bubble dynamics and oxygen transfer in a Speece Cone 285

V. L. BURRIS and J. C. LITTLE: Bubble dynamics and oxygen transfer in a hypolimnetic aerator 293

F. L. BURNS: Case study: automatic reservoir aeration to control manganese in raw water Maryborough Town water supply, Queensland, Australia 301

J. SIMMONS: Algal control and destratification at Hanningfield reservoir 309

Pre-reservoirs and monitoring

K. PÜTZ and J. BENNDORF: The importance of pre-reservoirs for the control of eutrophication of reservoirs 317

S.-P. CHANG and C.-G. WEN: Nutrient release from inundated land of a tropical reservoir (Nanhua reservoir, Taiwan) 325

Watershed and Water Resources Management

G. BJØRNESEN, R. GIMBEL and H.-D. SPANGENBERG: A concept for an integrative consideration of drinking water and wastewater/sewage management 333

R. G. HEATH, M. C. STEYNBERG, R. GUGLIELMI and A. L. MARITZ: The implications of point source phosphorus management to potable water treatment 343

W. SCHARF: Integrated water quality management of the Große Dhünn Reservoir 351
C. STRETTON: Managing the threats of afforestation in reservoir catchments 361

O. GUNDUZ, S. SOYUPAK and C. YURTERI: Development of water quality management strategies for the proposed Isikili Reservoir 369

Keyword Index 377
