Barbara Pernici  Costantino Thanos (Eds.)

Advanced Information Systems Engineering

10th International Conference, CAiSE’98
Pisa, Italy, June 8-12, 1998
Proceedings

Springer
# Table of Contents

## Invited Speech

A comprehensive view of process engineering  
*C. Rolland*

## Design I

Aligning legacy information systems to business processes  
*P. Kardasis, P. Loucopoulos*

Automated reverse engineering of legacy 4GL information system applications  
using the ITOC workbench  
*J.V. Harrison, W. M. Lim*

Adapting function points to object oriented information systems  
*G. Antoniol, F. Calzolari, L. Cristoforetti, R. Fiutem, G. Caldiera*

## Data Warehouses and Extensible DBMS

Global cache management for multi-class workloads in data warehouses  
*S. Jin, X. Sun*

Architecture and quality in data warehouses  
*M. Jarke, M.A. Jeusfeld, C. Quix, P. Vassiliadis*

OMS/Java: Model extensibility of OODBMS for advanced application domains  
*A. Steiner, A. Kobler, M.C. Norrie*

## Workflow Management and Groupware

An environment for designing exceptions in workflows  
*F. Casati, M.G. Fugini, I. Mirbel*

Automating handover in dynamic workflow environments  
*C. Liu, M.E. Orlowska, H. Li*

Document-centric groupware for distributed governmental agencies  
*D.A. Tietze, A. Bapat, R. Reinema*
### Reuse

Specifying the reuse context of scenario method chunks  
*C. Rolland, V. Plihon, J. Ralyté*  
191

Change analysis and management in a reuse-oriented software development setting  
*W. Lam*  
219

A filter-mechanism for method-driven trace capture  
*R. Dömges, K. Pohl, K. Schreck*  
237

### Application Design and Web

Subject-based organization of the information space in multi-database networks  
*M.P. Papazoglou, S. Milliner*  
251

MUSE - An interactive networked multimedia applications specification environment with E-LOTOS translator  
*L. P. Gaspary, M.J.B. Almeida*  
273

Information extraction and database techniques: A user-oriented approach to querying the Web  
*Z. Lacroix, A. Sahuguet, R. Chandrasekar*  
289

### Industrial Experiences

Goal-driven business process analysis - Application in electricity deregulation  
*V. Kavakli, P. Loucopoulos*  
305

Real-time information system for risk management on motorways  
*T. Tanzi, S. Servigne, R. Guiol*  
325

Describing business processes with a guided use case approach  
*S. Nurcan, G. Grosz, C. Souveyet*  
339

### Design II

Building quality into case-based reasoning systems  
*I. Jurisica, B.A. Nixon*  
363

Assembly techniques for method engineering  
*S. Brinkkemper, M. Saeki, F. Hammsen*  
381

Formalizing materialization using a metaclass approach  
*M. Dahchour*  
401
