MILITARY GEOLOGY IN WAR AND PEACE

Edited by

JAMES R. UNDERWOOD, JR.*
Department of Geology
Kansas State University
Manhattan, Kansas 66506-3201

and

PETER L. GUTH
Department of Oceanography
U.S. Naval Academy
572 Holloway Road
Annapolis, Maryland 21402-5026

The Geological Society of America, Inc.
3300 Penrose Place, P.O. Box 9140
Boulder, Colorado 80301
1998

Contents

| | |
|--|----|
| Foreword | v |
| 1. Military geology in war and peace: An introduction | 1 |
| Peter L. Guth | |
| 2. Geology and military operations, 1800–1960: An overview | 5 |
| George A. Kiersch and James R. Underwood, Jr. | |
| 3. British military geologists through war and peace in the 19th and 20th centuries | 29 |
| Edward P. F. Rose and Michael S. Rosenbaum | |
| 4. American geologists at war: World War I | 41 |
| Walter E. Pittman | |
| 5. Military Geology Unit of the U.S. Geological Survey during World War II | 49 |
| Maurice J. Terman | |
| 6. British applications of military geology for ‘Operation Overlord’ and the battle in Normandy, France, 1944 | 55 |
| Edward P. F. Rose and Claude Pareyn | |
| 7. Engineer intelligence and the Pacific geologic mapping program | 67 |
| Gilbert Corwin | |
| 8. Military Geology Branch of the U.S. Geological Survey from 1945 to 1972 | 75 |
| Maurice J. Terman | |
| 9. Dearly bought ridges, steep access valleys, and staging grounds: The military geology of the eastern DMZ, central Korean Peninsula | 83 |
| C. P. Cameron | |
| 10. Clandestine Tunnel-4, northern Punchbowl, Korean Demilitarized Zone | 99 |
| C. P. Cameron | |

Contents

| | |
|---|-----|
| 11. Swords into plowshares: Military geology and national security projects | 111 |
| James T. Neal | |
| 12. Military geology and the Gulf War | 117 |
| Robert B. Knowles and William K. Wedge | |
| 13. Background and recent applications of military geology in the British armed forces | 125 |
| Michael S. Rosenbaum | |
| 14. Geology education in the U.S. Army | 135 |
| John C. Jens and M. Merrill Stevens | |
| 15. Recent activities in military geology at the U.S. Geological Survey | 139 |
| William Leith and John Rodney Matzko | |
| 16. Remote sensing, terrain analysis, and military operations. | 145 |
| Jack N. Rinker | |
| 17. A proposed method for characterizing fracture patterns in denied areas | 151 |
| Judy Ehlen | |
| 18. Playas and military operations | 165 |
| James T. Neal | |
| 19. Role of geology in assessing vulnerability of underground fortifications to conventional weapons attack. | 173 |
| Thomas E. Eastler, Donald J. Percious, and Paul R. Fisher | |
| 20. Location of sites for airstrips in North Greenland | 189 |
| Daniel B. Krinsley | |
| 21. Selected military geology programs in the Arctic, 1950–1970 | 205 |
| Louis DeGoes and James T. Neal | |
| 22. Hydrogeological assessments of United Nations bases in Bosnia Hercegovina. | 211 |
| C. Paul Nathanail | |
| 23. Military geology in support of nation assistance exercises in Central and South America. | 217 |
| Robert B. Knowles | |
| 24. Potable water well design for Humanitarian Civic Action well drilling missions | 227 |
| John N. Baehr | |
| 25. Military geology should be upgraded as the U.S. Army stands down | 233 |
| Allen W. Hatheway and M. Merrill Stevens | |
| Index | 239 |
