INTRODUCTION: LOCATION AND BOUNDARIES OF THE NEW JERSEY PINE BARRENS xli
   Jack McCormick and Richard T. T. Forman

PART I    PEOPLE

1 HUMAN EXPLOITATION OF THE NEW JERSEY PINE BARRENS BEFORE 1900
   Peter O. Wacker
   Initial Occupancy 3
   European Perceptions of the Region 4
   European Settlement 6
   Lumbering 9
   Fuel Wood 11
   Charcoal 12
   Iron 12
   Glass 13
   The Industrial Legacy 14
   Agriculture 15
   Real Estate Promotion 17
   Fire 18
   Conclusion 20
   Summary 20
   References 21

2 PLANT AND ANIMAL PRODUCTS OF THE PINE BARRENS
   James E. Applegate, Silas Little, and Philip E. Marucci
   Wood Products 25
   Other Plant Products 27
Contents

Wildlife 28
Cultivation of Cranberries and Blueberries 31
Other Crops 34
Future Use of the Barrens 34
Summary 35
References 35

PART II GEOLOGY AND SOILS

3 GEOLOGY OF THE PINE BARRENS OF NEW JERSEY

Edward C. Rhodehamel

Physiography and Geography 39
Outline of Geological History 39
Stratigraphy 42
Tertiary Deposits 43
Quaternary Deposits 55
Summary 57
References 58

4 DEVELOPMENT OF PINE BARRENS SOILS

John C. F. Tedrow

Vegetation 61
Geology 62
Topography 63
Climate 64
Soil Conditions 64
Lakewood Soil 64
Lakewood Soil Variations 68
Aeolian Activity 71
Weathered Tertiary Hilltops 71
Podzol Formation with Ironstone, Sandstone, and/or Iron Bands 72
Podzol Formation over Gleyed Soil 73
Podzol Soil with a Thin Bleached Horizon 73
Local Variations in Soils—the Drainage Catena 73
Sassafras and Related Soils 76
Disturbed Soil Morphology 78
Summary 78
References 78

5 SOIL SERIES OF THE PINE BARRENS

Marco L. Markley

Introduction 81
Soils in Pine Barrens 81
## MINERALOGY OF PINE BARRENS SOILS

*Lowell A. Douglas and John J. Trela*

- Age of Parent Materials 95
- Contributions of Soil Mineralogical Fractions 97
- Mineralogy of the Sand Fractions 98
- Mineralogy of the Silt Fractions 98
- Clay Identification 99
- Clay Mineralogy of Pine Barrens Podzols (Spodosols) 99
- Smectites and Mineral Alteration in Podzol A Horizons 102
- Clay Mineralogy of Gray-Brown Podzolic-Red-Yellow Podzolic Intergrades (Ultisols) 102
- The Effect of Drainage and Topography on Soil Mineralogy 104
- Clay-Sized Minor Minerals in Pine Barrens Soils 105
- Soil Properties Influenced by Mineralogy 106
- Conclusion 107
- Summary 108
- References 108

---

## CLIMATE, WATER, AND AQUATIC ECOSYSTEMS

### CLIMATE AND MICROCLIMATE OF THE NEW JERSEY PINE BARRENS

*A. Vaughn Havens*

- Major Factors Controlling the Macroclimate of the Southern Interior of New Jersey 113
- Sources of Climatic Data in the Pine Barrens 114
- Temperatures in the Pine Barrens 115
- Microclimatic Temperatures in the Pine Barrens 118
- Precipitation in the Pine Barrens 119
- Snowfall in the Pine Barrens 122
- Wind in the Pine Barrens 123
- Humidity in the Pine Barrens 126
- Solar Radiation in the Pine Barrens 127
- Potential Human Impact on the Microclimate of the Pine Barrens 129
- Summary 130
- References 130

### FLUXES OF WATER AND ENERGY THROUGH THE PINE BARRENS ECOSYSTEMS

*John Thomas Ballard*

- Introduction 133
- Energy Flow through an Ecosystem 134
Waterflow through an Ecosystem 137
Measurement of Evapotranspiration 138
Estimated Energy and Water Fluxes in the Pine Barrens 140
Interactions between Ecosystems: Effects of Uplands on Lowlands 143
Conclusions 144
References 145

9 HYDROLOGY OF THE NEW JERSEY PINE BARRENS
Edward C. Rhodehamel

Introduction 147
Surface Water 148
Ground Water 152
Hydrological Characteristics of Geologic Formations 153
Hydrological Budget 157
Quality of Ground Water 162
Summary 164
References 165

10 STREAMS AND LAKES IN THE PINE BARRENS
Ruth Patrick, Barbara Matson, and Lee Anderson

Introduction 169
The River Basins 183
Some General Characteristics of Pine Barrens Surface Waters 190
Summary 191
References 191
Appendix 192

11 NUTRIENT AND HYDROLOGICAL EFFECTS OF THE PINE BARRENS ON NEIGHBORING ESTUARIES
James B. Durand

Introduction 195
Methods 195
Results 199
Discussion 207
Summary 210
References 210
PART IV  VEGETATION PATTERNS

12  VEGETATIONAL HISTORY OF THE PINE BARRENS

Calvin J. Heusser

Perspective 215
Development of the Coastal Plain during Tertiary and Quaternary Time 216
Pre-Quaternary Vegetation 217
Quaternary Vegetation 218
Origin of Modern Communities 221
Loss of Subtropical Taxa and Influx of Temperate Species in the Vegetation during the Late Tertiary and Quaternary 222
The Pine Barrens as a Hypothesized Refugium during the Pleistocene 223
Disjunct Taxa in the Pine Barrens 223
Problems for Future Research 224
Summary 225
References 225

13  THE VEGETATION OF THE NEW JERSEY PINE BARRENS

Jack McCormick

Introduction 229
Vegetation of the Lowlands (Wetlands) 230
Vegetation of the Uplands 235
Pine-Oak Forests 237
Oak-Pine Forests 239
Summary 241
References 242

14  VEGETATION OF THE NEW JERSEY PINE BARRENS:
A PHYTOSOCIOLOGICAL CLASSIFICATION

Hans Olsson

Introduction 245
Methods 246
Vegetation Types 247
Pine-Oak Vegetation Type 250
White Cedar-Red Maple Swamp Vegetation Type 252
Thicket-Bog Vegetation Type 254
Marsh-Sod Vegetation Type 256
Stream-Pond Vegetation Type 257
Old-Field Vegetation Type 258
15 VEGETATIONAL GRADIENTS OF THE PINE PLAINS AND BARRENS OF LONG ISLAND, NEW YORK

Linda S. Olsvig, John F. Cryan, and Robert H. Whittaker

Introduction 265
Description of the Area 265
Methods 268
Results 269
Discussion 279
Summary 280
References 281

16 THE PINE BARREN PLAINS

Ralph E. Good, Norma F. Good, and John W. Andresen

Introduction 283
Plants and Community Structure 284
Possible Causes of the Plains 288
The Adaptive Hypothesis 289
The Plains as a Pygmy Forest 291
Future of the Plains 292
Summary 293
References 293

17 FIRE AND PLANT SUCCESSION IN THE NEW JERSEY PINE BARRENS

Silas Little

Fire History 297
Succession 299
Fire Effects on Composition 303
Other Fire and Successional Effects 310
Summary 312
References 313

18 VEGETATIONAL RELATIONSHIPS OF THE PINE BARRENS

Robert H. Whittaker

Introduction 315
The Pine Barrens Pattern 315
Contents

Distinctiveness of Barrens Vegetation 321
Relations to Other Areas 323
Conclusion 328
Summary 329
References 329

19 LEAKY ECOSYSTEMS: NUTRIENT FLUXES AND SUCCESSION IN THE PINE BARRENS VEGETATION

George M. Woodwell

Introduction 333
The Nutrient Budget 334
Recent Research on Nutrient Cycling 336
Results and Discussion 337
Summary 342
References 342

PART V PLANTS

20 PITCH PINE (PINUS RIGIDA MILL): ECOLOGY, PHYSIOLOGY, AND GENETICS

F. Thomas Ledig and Silas Little

Habitat Conditions 347
Associated Flora and Fauna 349
Life History 350
Physiology 356
Genetics 357
Summary 368
References 368

21 COMMON VASCULAR PLANTS OF THE PINE BARRENS

Wayne R. Ferren, Jr., John W. Braxton, and Louis Hand

Introduction 373
Key to the Trees, Shrubs, and Herbaceous Plants 374
Summary 382
References 383
22 ENDANGERED, THREATENED, AND RARE VASCULAR PLANTS OF THE PINE BARRENS AND THEIR BIOGEOGRAPHY

David E. Fairbrothers

Introduction 395
History 396
Species in Jeopardy 397
Why Do Some Species Become Rare? 400
Biogeography 401
Summary 403
References 404

23 COMMON BRYOPHYTES AND LICHENS OF THE NEW JERSEY PINE BARRENS

Richard T. T. Forman

Introduction 407
Common Bryophytes of the Pine Barrens 409
Bryophyte Community Patterns along Fire Frequency and Soil Moisture Gradients 414
Pine Plains Bryophytes 418
Common Sphagnum Mosses 418
Common Lichens 419
Conclusion 421
Summary 422
References 423

24 ALGAE OF THE PINE BARRENS

Edwin T. Moul and Helen Foot Buell

Habitats and Ecology 425
The Flora 431
Key to Taxa 433
Summary 439
References 440

PART VI ANIMALS AND ANIMAL COMMUNITIES

25 MAMMALS OF THE NEW JERSEY PINE BARRENS

Leonard J. Wolgast

Introduction 443
Order Marsupialia: Pouched Mammals 444
## Contents

| Order Insectivora: Insect Eaters | 445 |
| Order Chiroptera: Bats             | 446 |
| Order Lagomorpha: Rabbits         | 447 |
| Order Rodentia: Rodents           | 447 |
| Order Carnivora: Flesh Eaters     | 452 |
| Order Artiodactyla: Even-Toed Hoofed Mammals | 454 |
| Summary                            | 454 |
| References                         | 454 |

### 26 BIRDS OF THE PINE BARRENS

**Charles F. Leck**

- The Breeding Bird Community 457
- Birdlife in the Nonbreeding Seasons 459
- Population Studies 461
- The Effects of Fire on Pine Barren Birdlife 463
- Conservation 463
- Future Research 465
- Summary 466
- References 466

### 27 A ZOOGEOGRAPHICAL REVIEW OF THE AMPHIBIANS AND REPTILES OF SOUTHERN NEW JERSEY, WITH EMPHASIS ON THE PINE BARRENS

**Roger Conant**

- Introduction 467
- Habitat Destruction 469
- Zoogeographical Comments 470
- Species Confined to the Pine Barrens 475
- Wide-Ranging Species 475
- Border Entrants: Species Entering the Pine Barrens under Exceptional Conditions 479
- Relicts in the Barrens 482
- Peripheral Species 482
- The Introductions 482
- Geographical Origin of the Herpetofauna 484
- Commentary 485
- Summary 486
- References 486

### 28 FISH OF THE PINE BARRENS

**Robert W. Hastings**

- Habitat Characteristics of Pine Barrens Streams 489
- General Nature of the Pine Barrens Fish Fauna 490
- Characteristic Species of the Pine Barrens 490
