Proceedings

DASIA 98
- DAta Systems In Aerospace -

organised by

EUROSPACE

in coordination with

Centre National d’Etudes Spatiales (CNES), Eurocontrol, European Commission, European Space Agency (ESA)

25 - 28 May 1998
Divani Caravel Hotel
Athens, Greece
CONTENTS

Introduction
M. Guérin, ESA/ESTEC, The Netherlands

SESSION 1
S/W Development Environment
Chair : Ph. DAVIES, LOGICA, UK

Cleanroom Approach to Space Software Reliability
F. Battini - Laben, Italy

The Columbus Ground Software as a Development Support System for the ISS Life-Cycle
P. Lux, F.H. Barth & J. Hummel - Daimler-Benz Aerospace, Germany

SESSION 2
S/W Analysis & Design Tools
Chair: P. LUX, DAIMLER-BENZ AEROSPACE, Germany

From HOOD to UML: A Smooth Migration Path
M. Battaglia & G. Savoia - Intecs Sistemi, Italy

Design and Validate Embedded SW with the Formal Language SDL
E. Conquet & G. Touet - Matra Marconi Space, France

AdaBeans: An Architecture for Component-Based Development of Aerospace Applications,
using UML as a Visual Composition Language
J. Favaro, G. Savoia & M. d' Allessandro - Intecs Sistemi, Italy

ESSI Project 23750 – Software Projects Improvement Process
A. Yadin – Onyx Technologies, Israel

SESSION 3
On Board Data Handling Systems
Chair: L. MALTECCA - LABEN, Italy

End to End Approach for Satellite Data Management: Concepts, ASSP Products,
System Integration
M. Pollina & Ph. Mercier – ADV Engineering, France

Spanish Minisat 01 On-Board Data Handling Computer (Design and One Year Operation)
A. Aricha & F. Cerezo - I.N.T.A., Spain
MINISAT01 On-Board Software Maintenance  
65

A Digital Preprocessor for Image Correction and Compression  
C. Schaefer & E. Krahn - Dornier Satellitensysteme, Germany;  
M. Thierschmann & U.E. Martin - LuRaTech Gesellschaft für Luft- und Raumfahrt-technologie & Multimedia mbH, Germany;  
G. Hey - Deutsches Zentrum für Luft- und Raumfahrt e.V., Germany  
71

SESSION 4  
Radiation Hard & Error Correction Components  
Chair: M. LEPERTEL - SEXTANT AVIONIQUE, France

Radiation Hard Standard ASICs for On-Board Applications  
W. Frei - Dornier Satellitensysteme, Germany;  
S. Habinc - ESTEC, The Netherlands  
79

Testing of High Rate Digital Links Under Radiation Environment  
G. Lemoine & J. Nodet - SEXTANT Avionique, France  
R. Ecoffet, CNES, France  
87

Fast Low Complexity Reed Solomon Codec for Space and Avionics Ramdisk Applications  
M.S. Hodgart & H.A.B. Tiggeler - Surrey Space Centre, UK  
95

SESSION 5  
Object Oriented Development  
Chair: C. JOERGENSEN - TERMA ELEKTRONIK, Denmark

Use of Web and Object-Oriented Technologies in Image Processing Centre  
Development: An Example  
A. Ponselet - TRASYS Space, Belgium  
105

Single-Source Object-Oriented Technology in Modeling and Simulation of Spaceborne Systems  
H.J. Herpel, V. Debus & F. Pittermann - Dornier Satellitensysteme, Germany;  
B. Hutter & M. Roux - Object International Software, Germany  
109

Evaluation of the ObjectGEODE Methodology  
P. Kumara & K. Suihkonen - Patria Finavitec Oy Systems, Finland;  
N. Holsti & M. Paakko - Space Systems Finland Ltd., Finland;  
T. Ihme - VTT Electronics, Finland  
115

Case Tool Evaluation  
T. Ihme - VTT Electronics, Finland  
N. Holsti & M. Paakko - Space Systems Finland Ltd., Finland;  
P. Kumara & K. Suihkonen - Patria Finavitec Oy Systems, Finland  
121
SESSION 6
Code Generation Environments
Chair: B. MULLET - EUMETSAT, Germany

Automatic Code Generation for an On-Board Software Using VxWorks Operating System
And MatrixX-AutoCode Tool
A. Villien - Matra Marconi Space, France ;
R. Aitori - SPACEBEL, Belgium

GNU Based Compilation System for Space Embedded Applications
J.P. Blondin - SEXTANT Avionique, France ;
M. Martignano - ESTEC, The Netherlands

Can we Use Commercially Available Software Tools for Space Applications?
The TSC21020E Software Elements Validation Activity
D. Giunta - ESTEC, The Netherlands

On-Board Geometric Corrections for Meteosat Second Generation
P. Bosdogianni & C. Boukouvalas - Hellenic Aerospace Industry, Greece
D. Just – EUMETSAT, Germany

SESSION 7
On Board Terminal Components
Chair: F. CICERI - LABEN, Italy

SMCSlite - An IEEE-1355 Terminal Front-End for Embedded Front-End Interface Solutions
A. Christen, U. Liebstückel, P. Rastetter, K.P. Förster & T. Pike - Dornier
Satellitensysteme, Germany

A New Remote Terminal for 4-255 Data Management System Bus
M.L. Esposti & L. Maltecca - Laben, Italy

A Mixed Signal ASIC for Automatic Retrieval of Essential Spacecraft Status
and Sensor Data
Systems Ltd., Ireland
P. Sinander & C. Smith – ESTEC, The Netherlands

SESSION 8
On Board Data Handling: Adaptable Architecture
Chair: B. LABORDE - CNES, France

A Versatile ERC32 Based Computer Board for Space Applications
L. Maltecca, C. Monteleone & G. Banfi - Laben, Italy

A New Generation of Payload Processors Based on Layered Architecture
and Modular Assembly
E. D'Alba, A. Bonati & G. Saldi - Laben, Italy
Telecommunication Spaceborne Payload Data Handling Architectures
J.-L. Kaced - Alcatel Espace, France

FPGA Based OBDH Bus Controller
J. Sanchez, C. Alcalá & J.R. Alonso - CRISA, Spain

SESSION 9

Computer Program Validation
Chair: M. RICHARD-FOY - AONIX, France

C Code Inspection Tool for Software Quality Assurance
E. Fernandez & P. González - CRISA, Spain

ARIANE 5 - The Software Reliability Verification Process
Ph. Lacan, J.N. Monfort & L.V.Q. Ribal - Aerospatiale, France;
A. Deutsch & G. Gonthier - INRIA, France

Assistance in Software Validation.
A. Arnould, P. Baudin, J.M. Collart, A. Pacalet, J. Raguideau & D. Schoen - CEA, France

SESSION 10

Configuration Management & Traceability
Chair: A. MOYA - EUROPEAN COMMISSION, Belgium

Across Version/Variant Requirement Traceability in Avionics Software Development and Testing
A. Silva - Agusta, Italy

Configuration Control for Embedded Systems
W. Murrach - Daimler-Benz Aerospace, Germany

SESSION 11

On Board Data Handling: Application Dependent Architectures
Chair: H. REFFEL - DORNIER SATELLITENSYSTEME, Germany

Automated Transfer Vehicle - Architecture and Development Facilities of the ATV Software
Ph. Lacan - Aerospatiale, France

MERIS Data Handling Architecture
X. Leyre & C. Moreno - Aerospatiale, France
SESSION 12
Multimission & Multiuse Components
Chair: E. KRAHN - DORNIER SATELLITENSYSTEME, Germany

The Pics System Modularity
G. Guarrera - Alenia Aerospazio Div. Spazio, Italy

A Methodology for Platform Integrated Control System (PICS) S/W Development
A. Lettera & P.D. Resta - Space Software Italia, Italy; G. Campolo & E. Fatighenti - Alenia Aerospazio, Div. Spazio, Italy

A Modular Approach for a Scalable Multi-Mission Equipment
J. Nodet & B. Alison - SEXTANT Avionique, France

SESSION 13
Test Environments
Chair: K. HJORTNAES - ESTEC, The Netherlands

Reusing Software Testing Tools for Operations and Software Maintenance
J. De Miguel, N. Alfaro, B. Garrido & A. Garcia - I.N.T.A., Spain

Test and Verification Equipment for the Attitude and Orbit Control System of the XMM Satellite
H.A. van Ingen Schenau, L.C.J. van Rijn & J. Spaa - National Aerospace Laboratory, The Netherlands

Automated Requirements-Based Testing on Boeing 777 Display
P. Carpenter - Aonix, USA

Automated Validation Process of User Interface Systems
M. Ould - CNES, France; B. d'Ausbourg - ONERA-CERT, France

SESSION 14
Techniques for Ground Operation System
Chair: Ph. LACAN, AEROSPATIALE, France

CORBA Technology for Ground Segment System Software Development
L. Foti - Cap Gemini, Italy

PLUTO, a Procedure Language for Users in Test and Operations
B. Demeuze - SPACEBEL, Belgium; S. Valera - ESTEC, The Netherlands
SESSION 15
Safety Management
Chair: U.K. MORTENSEN - ESTEC, The Netherlands

Avionics Application Development, Coalesce Certifiability with Business Opportunity
E. Kesseler & E. van de Sluis - National Aerospace Laboratory, The Netherlands

ERA Safety Strategy
P.G. Beerthuizen - Fokker Space, The Netherlands
C. Maegaard - TERMA A/S, Denmark
A. Rusconi - Tecnospazio SpA, Italy

Implementing Safety Critical Systems with Multiple Levels of Integrity
E. Totel, Y. Deswarte, D. Powell - LAAS-CNRS, France;
J.P. Blanquart - Matra Marconi Space, France

SESSION 16
Dependable Scheduling
Chair: M. RICHARD-FOY - AONIX, France

Time-Related Dependability Mechanisms in Guards
L. Beus-Dukic & A. Wellings - University of York, UK

P. Coppola & A. Paganone - INTECS Sistemi, Italy

Development of a Safety Critical Hard Real-Time System in a World of Changes
C. Maegaard - TERMA Elektronik, Denmark
P. Beerthuizen - Fokker Space B.V., The Netherlands

Hard Real Time Onboard a Satellite
A. Carlsson - Saab Ericsson Space, Sweden

SESSION 17
Mission Control System
Chair: M. AUSTURY - THOMSON T4S, France

A Standardized Management Information Base for Telecommunication Satellites
E. Flores & M. Gandara - Alcatel Espace, France

The Vegetation Programming Center, a New Subsystem in the Spot4 Ground Segment
H. Pasquier - CNES, France;
A. Verheyden - SPACEBEL, Belgium

Meteosat Second Generation (MSG) Central Facility: a new Mission Control System Architecture
R.S. Thompson - Science Systems, UK;
B. Mullet - Eumetsat, Germany
SESSION 18
Simulators
Chair: G. MACCHIA - SPACE SOFTWARE ITALIA, Italy

Competence Management with EuroSim Centred CACE Working Environments
A.A. ten Dam & R.J.P. Groothuizen - National Aerospace Laboratory, The Netherlands 393

An Advanced Simulation Facility for MSG: how SiMWARE met SSF
F. Pasquier - Matra Marconi Space, France;
B. Mullet - Eumetsat, Germany 399

SINUS: the Software Simulator for the SPOT Satellite Family
P. Viallefont - CNES, France 407

SESSION 19
Fault Tolerance
Chair: R. GERLICH - BSSE SYSTEM & SOFTWARE ENGINEERING, Germany

Are Neural Networks a Fault-Tolerant Solution for Space Missions?
L. Vintenat - CERT-ONERA, France (presented by C. Seguin) 415

A Fault-Tolerant Computer for Space Applications
F. Jernqvist - Saab Ericsson Space, Sweden;
J.M. Pasquet - Aerospatiale, France 421

Module Templates for the Specification of Fault-Tolerant Systems
M. Doche, J. Cazin, D. Le Berre, P. Michel & C. Seguin - ONERA-CERT-DTIM, France;
V. Wiels - NASA/WVU, USA 429

SESSION 20
Requirements Engineering
Chair: J. BLUME - EUROCONTROL, Belgium

Requirements Development for the Tendering Process
R. Simoens - Eurocontrol, Belgium 437

Use of Behavioural Simulation to Improve Complex System Requirements
Capture Using Intranet and JAVA Technologies
Y. Le Tanou, A. Rousseau & V. Motté - Aerospatiale, France 443

Requirements Engineering as a State of Practice for Ground Segment Systems Development
B. Pencole - Thomson-CSF, France 449
SESSION 21
Simulator Based Engineering Environments
Chair: P. MAZAL - CNES, France

Distributed Interactive Simulations on ATM Networks for Space Systems Validation
D. Michel - Aerospatiale, France;
H. Zunker - DLR, Germany;
R. Stoy - Rechenzentrum Universität Stuttgart, Germany

A Simulation-Oriented System Engineering Environment
J.M. Bories - Alcatel Espace, France;
F. Simon - Alcatel Alsthom Recherche, France

System Simulation and Verification Facility
A.N. Pidgeon, M.E. Begin - VEGA, Germany;
J. Eickhoff - Dornier Satellitensysteme, Germany;
J. De Kruijf - ESTEC, The Netherlands

SESSION 22
Ground Data Systems
Chair: P. COPPOLA - INTECS SISTEMI, Italy

Data System in Flight and Emission Modelling
T.D. Witte - National Aerospace Laboratory, The Netherlands

INFEO Search-A
S. Mills - Logica, UK
A. Kjeldsen - Konigsberg Spacetec, Norway

Standard Access to Space Ground Segment Data Processing Applications:
A Java Experiment for Spot4
M. Ould - CNES, France

SESSION 23
SW Reuse
Chair: F. HASS - TERMA ELEKTRONIK, Denmark

Reusing Onboard Data Handling Software
G. Caspersen & J.S. Pedersen - TERMA Elektronik, Denmark

Lessons Learned by Use of (C)OTS
R. Gerlich - BSSE System and Software Engineering, Germany

USOS - A Universal Satellite Operating System well Suited for Reuse
F.P. Zappen & A. Winkler - OHB-System GmbH, Germany
SESSION 24

Communication Management
Chair: Mr TORREA - ALCATEL ESPACE, France

EURIDIS: External Links and Security Aspect
R. Moreno - CNES, France
533

The Application of the Safety Case Methodology to the Inmarsat Aeronautical Services
Ph. Davies - Logica, UK
539

Traffic Management for Broadband Telecommunication Satellite
G. Losquadro - Alenia Aerospazio Div. Spazio, Italy;
F. Fedi - Space Software Italia, Italy
545

List of Participants
553
