Biodiversity and sustainable use of Kyrgyzstan’s walnut-fruit forests

Proceedings of the Seminar
Arslanbob, Dzalal-abab Oblast, Kyrgyzstan
4–8 September 1995

Editors:

Russian version
Bronislav Venglovsky
Irina Yunossova

English version
Jürgen Blaser
Jane Carter
Don Gilmour

Seminar jointly sponsored and hosted by:
State Agency for Forests and Wildlife, Republic of Kyrgyzstan
(GOSLESAGENTSTVO)
IUCN – The World Conservation Union
the Swiss Government through its implementation agency
INTERCOOPERATION

IUCN – The World Conservation Union

1998

COMMUNICATIONS FROM PARTICIPANTS ............................................. 77

Prospects for walnut cultivation in Central Asia
G.M. Chernova, Uzbek Forestry Scientific and Research Institute (FSRI), Uzbekistan ................................................................. 79

Present condition and prospects for the development of walnut-fruit forests in the Republic of Uzbekistan
A. Khonazarov, Chairman of the State Forest Committee of the Republic of Uzbekistan ................................................................. 81

Condition and development of walnut-fruit forests in southern Kazakhstan
J. Turganov, General Director of Southern Kazakhstan Forestry Association, Republic of Kazakhstan ................................................. 85

The condition of and prospects for scientific research in the Kyrgyzstan walnut-fruit forests
K. Ashimov, Director of the Institute of Biosphere, Southern Regional Department, National Academy of Sciences, Kyrgyzstan .................. 87

Experience of commercial walnut growing in Moldavia
V. Salamandyk, Director of National Forest Seed Station, Moldavia .......... 91

Forest health and forest protection measures in walnut-fruit forests of southern Kyrgyzstan
D. J. Alkanov, Head of the Forest Protection Station, Dzalal-abad, Kyrgyzstan .... 97

PRESENTATION OF VOLUNTARY SHORT PAPERS .................................. 99

The silviculture of Juglans regia in Great Britain
P. Savill, Senior Lecturer, Oxford Forestry Institute, University of Oxford, England ................................................................................. 101

The importance of genetic diversity to the world’s walnut nut crop industry
G. McGranahan, Department of Pomology, University of California, Davis, USA ....................................................................................... 105

Characteristics and use of walnut timber
A. Bemmann, Technical University, Dresden, Germany ............................................. 107

The potential and current situation of walnut timber production in Switzerland
P. Rotach, Chair of Silviculture, Swiss Federal Institute of Technology, Zurich, Switzerland .............................................................................. 111

Chestnut cultivation in southern Switzerland: history and prospects
M. Conedera, Institute for Forests, Snow and Landscape, Sub-station, Southern Switzerland ........................................................................ 115

Diversity of walnut in the walnut-fruit forests of Kyrgyzstan and its practical value
S.I. Popov, Institute of Forest and Nut-Farming, National Academy of Sciences, Kyrgyzstan ....................................................................... 117

The water regime of walnut phytocoenosis dominants in the context of natural and anthropogenic dynamics
E.A. Chotbaeva, Institute of Forest and Nut-Farming, National Academy of Sciences, Kyrgyzstan ................................................................ 121
Disturbance of the ecological balance in walnut-fruit forests by human pressure
P.N. Matveev, Institute of Biosphere, National Academy of Sciences, Kyrgyzstan .................................................. 125

Forest entomological monitoring of the walnut-fruit forests of southern Kyrgyzstan
B.A. Toktoraliev, Professor, Doctor of Science (Biology), Osh State University, Kyrgyzstan .................................................. 129

Possibilities for utilizing naturally occurring plants in Kyrgyzstan’s forests for food production
M.B. Batkibekova, T.A. Suponina and B.K. Dzhurupova, Kyrgyz Technical University, Bishkek, Kyrgyzstan .................................................. 133

The development of walnut cultivation in Uzbekistan: present condition and prospects
A.K. Kaiimov, Institute of Biosphere, National Academy of Sciences, Kyrgyzstan .................................................. 137

Walnut selection in southern Kyrgyzstan: results and prospects
V.S. Shevchenko, Head of Laboratory, Institute of Biosphere, National Academy of Sciences, Kyrgyzstan .................................................. 141

Problems of pistachio development in southern Kyrgyzstan
S. Bolotov, Head of Laboratory, Institute of Biosphere, National Academy of Sciences, Kyrgyzstan .................................................. 143

Studies of introduced hybrids and varieties of almond in southern Kyrgyzstan
L.P. Onishchenko and Sh. T. Dzhamankulova, Institute of Forest and Nut-Farming, National Academy of Sciences, Kyrgyzstan .................................................. 145

Archa forests: condition, problems and ways out of the ecological crisis
A.V. Kosmynin, Institute of Forest and Nut-Farming, National Academy of Sciences, Kyrgyzstan .................................................. 149

ADDITIONAL PAPERS .......................................................................................................................... 155

IUCN in Central Asia
F. Parakatil, IUCN Regional Programme Co-ordinator, West/Central Asia and North Africa Programme .................................................. 157

INTERCOOPERATION in Kyrgyzstan: Swiss support programme to the forestry sector of Kyrgyzstan
J. Blaser, Forestry-Environment Section, INTERCOOPERATION, Bern, Switzerland .................................................. 161

Bibliography ........................................................................................................................................... 165

Tree/shrub species occurring in Kyrgyzstan .......................................................................................... 171

Programme of the seminar .................................................................................................................. 175

Directory of participants .................................................................................................................... 177
