# TABLE OF CONTENTS

**Preface**  xi

**Acknowledgements**  xiii

Priorities in Forest Radioecology: Model Developments for Integrated Assessment of Toxic Element Transport  
*W.R. Schell, I. Linkov*

## Part 1. Contaminated Forests: Processes, Measurements and Methods  15

**Dynamics of Radionuclides in Semi-Natural Environments**  17  
*M. Belli, K. Bunzl, B. Delvaux, M. Gerzabeck, B. Rafferty, T. Riesen, G. Shaw, E. Wirth*

**Dynamics of Radionuclide Redistribution and Pathways in Forest Environments: Long-Term Field Research in Different Landscapes**  23  
*A.I. Shcheglov*

**Use of Stable Elements for Predicting Radionuclide Transport**  41  
*S. Yoshida and Y. Muramatsu*

**Radiocapacity of Forest Ecosystems**  51  
*Yu. Kutlakhmedov, V. Davydchuk, G. Arapis, V. Kutlakhmedova-Vyshnyakova*

**Woody Biomass Production and Radiocaesium Accumulation Rate in Pine (Pinus Sylvestris L.) from a Contaminated Forest in the Vetka Area**  63  
*Y. Thiry, T. Riesen, N. Lewyckyj*

**The Direction and Intensity of $^{137}$Cs Fluxes in Forest Ecosystems**  71  
*V.P. Krasnov*

**Peculiarities of $^{137}$Cs Vertical Migration in Pine Ecosystem with Stem Flow, Throughtfall, Litterfall, and Infiltration.**  77  
*A.L. Klyashtorin*

**Preparation of Soil Thin Sections for Contaminant Distribution Studies**  85  
*K.A. Higley, O.G. Povetko*

**Time-dependency of the Bioavailability of Radiocaesium in Lakes and Forests**  95  
*E. Klemt, J. Drissner, S. Kaminski, R. Miller, G. Zibold*
Experimental Study and Prediction of Dissolved Radionuclide Wash-Off by Surface Runoff from Non-Agricultural Watersheds
A.A. Bulgakov, A.V. Konoplev, Yu. V. Shveikin, A.V. Scherbak

Behaviour of 137cs in Sloping Semi-Natural Ecosystems in Greece
G. Arapis, D. Daskalakis, A. Godora

Study of Biodiversity in Natural Ecosystems of South Turkey
A. Everest, A. Ozcimen, O. Balikci, L. Seyhan, A. Ucar

Airborne Heavy Metals Over Europe: Emissions, Long-Range Transport and Deposition Fluxes to Natural Ecosystems
G. Petersen

Perspectives in Forest Radioecology
(Report of the working group on measurement and data)
T. K. Riesen, S. Fessenko, K. Higley

Part 2. Radionuclide Fate and Transport Modeling

Reducing Uncertainty in the Radionuclide Transport Modeling for the Chernobyl Forests Using Bayesian Updating
I Linkov, D. Burmistrov, M. Kandlikar, W.R. Schell

Review of Forest Models Developed after the Chernobyl NPP Accident
T.K. Riesen, R. Avila, L. Moberg, L. Hubbard

The Rife Models of Radionuclide Fluxes in European Forests
G. Shaw, M. Belli

Conceptual Overview of Forestland - A Model to Interpret and Predict Temporal and Spatial Patterns of Radioactively Contaminated Forest Landscapes
R. Avila, L. Moberg, L. Hubbard, S. Fesenko, S. Spiridonov, R. Alexakhin

Model Forestlife and Prediction of Radioactive Contamination of Forests in Belarus
A. Dvornik, T. Zhuchenko

Model for Predicting the Long-Term Radioesium Contamination of Mushrooms
M. Steiner, S. Nalezinski, W. Rühm, E. Wirth
A Model for the Transfer and Recycling of $^{137}$Cs within a Deciduous Forest Ecosystem

E.M. Seymour, P.I. Mitchell, L. León Vintró and D.J. Little

Modelling Radiocaesium Bioavailability in Forest Soils

A.V. Konoplev, A.A. Bulgakov, V.E. Popov, R. Avila, J. Drissner, E. Klemt, R. Miller, G. Zibold, K.-J. Johanson, I.V. Konopleva, I. Nikolova

Modeling Intermittent Processes in Radionuclide Migration in Soil Systems

K.A. Higley

Modelling of $^{137}$Cs Behaviour in Forest Game Food Chains

S. Fesenko, S. Spiridonov, R. Avila

Mapping of Radioactively Contaminated Territories with Geostatistics and Artificial Neural Networks

M.M. Kanevski, R. Arutyunyan, L. Bolshov, V. Demyanov, S. Chernov, E. Savelieva, V. Timonin, M. Maignan, M.F. Maignan

Modeling of Radionuclides and Trace Elements in Forest Ecosystems

(Remark of the Working Group)

W.R. Schell, Y. Thiry, E.M. Seymour

Part 3. Remedial Policies and Risk Assessment

European Community Research Activities on Forest Ecosystems within the 4th Framework of the Nuclear Fission Safety Programme

G. Voigt, G. Desmet

Countermeasures for Radioactively Contaminated Forests in the Russian Federation

A. Panfilov

Forestry Management in Conditions of Radioactive Contamination: Experience and Problems

M.M. Kaletnyk

Biomass-into-Energy Options for Contaminated Forest in Belarus and Relevant Risk Issues

A. J. Grebenkov, V. V. Rymkevich, A. P. Yakushau, J. Roed, K. Andersen, T. M. Sullivan, D. D. Brekke

Contaminated Tree Biomass in Energy Production – Potential Need for Radiation Protection

A. H. Rantavaara, K. M. Moring
Fire and Radioactivity in Contaminated Forests 311
B.D. Amiro, A. Dvornik, Zhuchenko

Contribution of Forest Ecosystem to Dose Formation for Inhabitants of the Ukrainian Polesye 325

Gamma Ray Exposure Due to Sources in the Contaminated Forest 333
V. Golikov, A. Barkovski, V. Kulikov, M. Balonov, A. Rantavaara, V. Vetikko

The Role of the Forest Products in the Formation of Internal Exposure Dose to the Population of Russia after the Chernobyl Accident 343
G.J. Bruk, V.N. Shutov, I.G. Travnikova, M.I. Balonov, M.V. Kaduka, L.N. Basalaeva

Model FORESTDOSE and Evaluation of Exposure Doses of Population from Forest Food Products 353
T. Zhuchenko, A. Dvornik

Reducing the Consumption of $^{137}$Cs via Forest Fungi - Provision of ‘self-help’ advice 359

Radioactively Contaminated Forests: GIS Application for the Remedial Policy Development and Environmental Risk Assessment 369
V. Davydchuk

Evaluation of Short Rotation Coppice as Remediation Option for Contaminated Farmland 377

Risk Assessment Model and Radiation Reserves as a Perspective of Contaminated Forests Management. 385
E.J. Uspenskaya, A.D. Pokarzhevskii

Countermeasures and Risks Associated with Contaminated Forests: (Report of the Working Group) 395
B. Amiro, A. Greben'kov, H. Vandenhove

Conclusion 403

Contaminated Forests: Risk in Perspective 405
R. Wilson
