## Part 1 Foundational issues

1. The mosaic evolution of cognitive and linguistic ontogeny  
   **JONAS LANGER**  
   | 19 |

2. Theories, language, and culture: Whorf without wincing  
   **ALISON GOPNIK**  
   | 45 |

3. Initial knowledge and conceptual change: space and number  
   **ELIZABETH S. SPELKE AND SANNA TSIVKIN**  
   | 70 |

## Part 2 Constraints on word learning?

4. How domain-general processes may create domain-specific biases  
   **LINDA B. SMITH**  
   | 101 |

5. Perceiving intentions and learning words in the second year of life  
   **MICHAEL TOMASELLO**  
   | 132 |

## Part 3 Entities, individuation, and quantification

6. Roots of word learning  
   **PAUL BLOOM**  
   | 159 |

7. Whorf versus continuity theorists: bringing data to bear on the debate  
   **SUSAN CAREY**  
   | 185 |

vii
List of contents

8 Individuation, relativity, and early word learning 215
DEdre Gentner and Lera Boroditsky

9 Grammatical categories and the development of classification preferences: a comparative approach 257
John A. Lucy and Suzanne Gaskins

10 Person in the language of singletons, siblings, and twins 284
Werner Deutsch, Angela Wagner, Renate Burchardt, Nina Schulz, and Jörg Nakath

11 Early representations for all, each, and their counterparts in Mandarin Chinese and Portuguese 316
Patricia J. Brooks, Martin D. S. Braine, Gisela Jia, and Maria da Graca Dias

12 Children's weak interpretations of universally quantified questions 340
Kenneth F. Drozd

Part 4 Relational concepts in form–function mapping

13 Emergent categories in first language acquisition 379
Eve V. Clark

14 Form–function relations: how do children find out what they are? 406
DAN I. SLOBIN

15 Cognitive-conceptual development and the acquisition of grammatical morphemes: the development of time concepts and verb tense 450
Heike Behrens

16 Shaping meanings for language: universal and language-specific in the acquisition of spatial semantic categories 475
Melissa Bowerman and Soonja Choi

17 Learning to talk about motion up and down in Tzeltal: is there a language-specific bias for verb learning? 512
Penelope Brown

18 Finding the richest path: language and cognition in the acquisition of verticality in Tzotzil (Mayan) 544
Lourdes De León
