Impacts of Urban Growth on Surface Water and Groundwater Quality

Edited by

J. BRYAN ELLIS
Urban Pollution Research Centre, Middlesex University, Bounds Green Road, London N11 2NQ, UK

Proceedings of an international symposium held during IUGG 99, the XXII General Assembly of the International Union of Geodesy and Geophysics, at Birmingham, UK, 18–30 July 1999. The symposium was convened jointly by:

- the International Commission on Surface Water,
- the International Commission on Groundwater,
- the International Commission on Water Quality,
- the International Commission on Continental Erosion,

of the International Association of Hydrological Sciences; the International Association of Hydrogeologists and the International Association on Water Quality

IAHS Publication no. 259
in the IAHS Series of Proceedings and Reports
Contents

Preface by J. Bryan Ellis

1 GROUNDWATER: National perspectives
Groundwater in urban development—a review of linkages and concerns
S. S. D. Foster, B. L. Morris & P. J. Chilton 3
Impact of groundwater on urban development in The Netherlands
Frans Van de Ven & Michiel Rijsberman 13
Groundwater contamination by organic chemicals in industrializing countries:
the unseen threat Oliver T. N. Sililo 23
Problems of groundwater quality related to the urban environment in Greater
Cairo Nahed E. El Arabi 29
Deterioration of groundwater quality in the coastal Pingtung Plain, southern
Taiwan Chung-Ho Wang, Chung-Jung Chiang, Tsung-Ren Peng &
Wen-Cheh Liu 39
Groundwater quality management: pollution perspectives R. Ramesh 47

2 GROUNDWATER: Modelling
Modelling of nitrogen dynamics in the subsurface environment
A. Jake Gusman & Miguel A. Mariño 59
Groundwater modelling in urban areas as a tool for local authority
management: Barcelona case study (Spain) E. Vázquez-Suñé & X. Sánchez-Vila 65
Modelling contamination of a drinking water supply well in the Sabarmati
river bed aquifer, Ahmedabad, India V. V. S. Gurunadha Rao & S. K. Gupta 73
Ecological indicators and indices of sustainable development Anna Belousova 83
The vulnerability of the Duplic Tila aquifer of Dhaka, Bangladesh
M. Kamruul Hasan, William Burgess & Jane Dottridge 91
Assessment of groundwater pollution in the Patancheru Industrial
Development Area and its environs, Medak District, Andhra Pradesh, India
V. V. S. Gurunadha Rao, K. Subrahmanyam, P. Yadaiah & R. L. Dhar 99
The use of DRASTIC modelling indices for the assessment of groundwater
pollution potential M. Chandra Sekhar & K. Karuna Kumar 111

3 GROUNDWATER: Methodological approaches
Loadings of non-agricultural nitrogen in urban groundwater David N. Lerner,
Yuesuo Yang, Mike H. Barrett & John H. Tellam 117
Groundwater protection incorporated into land use planning: a study from
Cebu City, the Philippines Ian Holman & Robert Palmer 125
Autopsy of an aquifer: a case study of Al Hayma, Yemen Chris D. Handley 133
Sulphate isotope signatures in borehole waters from three urban Triassic Sandstone aquifers, UK  Anwen J. Hughes, John H. Tellam, John W. Lloyd, Kim A. Stagg, Simon H. Bottrell, Andrew P. Barker & Michael H. Barrett 143

A stable carbon isotope study on direct precipitation recharge to the aquifer in the City of Yamagata, northern Japan  Masaya Yasuhara, Kohei Kazahaya, Hiroyuki Higuchi & Toshifumi Ueda 151

Monitoring solvents in the Birmingham aquifer (UK): 1987, 1998 and on to the next millennium  Lynda Taylor & Michael Rivett 161

Loss of groundwater resources following major quarrying activity in urban areas: the Galeria-Magliana quarry basin (Rome, Italy)  Giuseppe Capelli, Renato Funiciello, Daniela Iorio & Roberto Salvati 169

4  GROUNDWATER: Process and case studies

Evidence for sewage contamination of the Sherwood Sandstone aquifer beneath Liverpool, UK  Emily Whitehead, Kevin Hiscock & Paul Dennis 179

Impact of chemical grout injection on urban groundwater  Matthias Eiswirth, Renke Ohlenbusch & Klaus Schnell 187

Groundwater level evolution in the Milan area: natural and human issues  Tullia Bonomi 195

The impact of urban industrial growth on groundwater quality in Visakhapatnam, India  C. Subba Rao & N. V. Subba Rao 203

Impact of urbanization on the Khash aquifer, an arid region of southeast Iran  E. Khazai & M. G. Riggi 211

Hazards due to migration of septic tank leakages in peri-urban settlements  H. K. Ramaraju, M. Venkatachalappa, G. Ranganna, C. Sadashivaiah & N. Manamohan Rao 219

Urban impacts on groundwater quality in the Delhi region  R. B. Singh 227

5  SURFACE WATER: Hydrology and meteorology inputs

Evapotranspiration rates in urban areas  C. S. B. Grimmond & T. R. Oke 235

Use of weather radar for combined control of an urban drainage system and a sewage treatment plant  Markus Quirmbach, Gert A. Schultz & Torsten Frehmann 245

A model of the flood transformation in the Amudarya River  Victor E. Chub & Sergey V. Myagkov 251

Contemporary status of surface water quality of the Aral Sea basin  E. I. Chembarisov & E. I. Chembarisova 255

6  SURFACE WATER: Methodological and source tracing studies

Identifying major sources of organic micropollutants and heavy metals during flood events in a partly urbanized headwater catchment  Andreas Krein & Reinhard Bierl 263
