

LAKE BAIKAL

A Mirror in Time and Space
for Understanding Global Change Processes

Edited by
Koji Minoura

The 1998 BBD Baikal Symposium of
the Japanese Association for Baikal International Research Program
(JABIRP), Yokohama, November 5th - 8th, 1998

2000

ELSEVIER

Amsterdam - London - New York - Oxford - Paris - Shannon - Tokyo

Table of Contents

Preface	v
Introduction	vii

Part 1

Paleoenvironment and Rift Basin History

1. Baikal drilling project		
	Kuzumin, M. I., Williams, D. F., and Kawai, T.	1
2. Changes in the Lake Baikal levels and runoff direction in the Quaternary period		
	Mats, V. D., Fujii, S., Mashiko, K., Osipov, E. Yu., Yefimova, I. M., and Klimansky, A. V.	15
3. Paleomagnetic and rock-magnetic studies on Lake Baikal sediments: BDP 96 borehole at Academician Ridge		
	Sakai, H., Nomura, S., Horii, M., Kashiwaya, K., Tanaka, A., Kawai, T., Kravchinsky, V., Peck, J., and King, J.	35
4. Paleoclimatic signals printed in Lake Baikal sediments		
	Kashiwaya, K., Tanaka, A., Sakai, H., and Kawai, T.	53
5. Glaciations of central Asia in the late Cenozoic according to the sedimentary record from Lake Baikal		
	Karabanov, E. B., Kuzmin, M. I., Prokopenko, A. A., Williams, D. F., Khursevich, G. K., Bezrukova, E. V., Kerber, E. V., Gvozdkov, A. N., Geletiy, V. F., Weil, D., and Schwab, M.	71
6. Palaeoclimatic changes from 3.6 to 2.2 Ma B. P.		

- derived from palynological studies on Lake Baikal sediments.**
 Demske, D., Mohr, B., and Oberhänsli, H.85
7. **TEM analysis of smectite-illite mixed-layer minerals of core BDP 96 Hole 1 : Preliminary results**
 Müller, J., Kasbohm, J., Oberhänsli, H., Melles, M., and Hubberten, H. W.90
8. **Forest-desert alternation history revealed by pollen-record in Lake Baikal over the past 5 million years**
 Kawamuro, K., Shichi, K., Hase, Y., Iwauchi, A., Minoura, K., Oda, T., Takahara, H., Sakai, H., Morita, Y., Miyoshi, N., and Kuzmin, M. I.101
9. **Vegetation history of the southeastern and eastern coasts of Lake Baikal from bog sediments since the last interstade**
 Takahara, H., Krivonogov, S. K., Bezrukova, E. V., Miyoshi, N., Morita, Y., Nakamura, T., Hase, Y., Shinomiya, Y., and Kawamuro, K.108
10. **Estimation of paleoenvironmental changes in the Eurasian continental interior during the past 5 million years inferred from organic components in the BDP 96 Hole 1 sediment core from Lake Baikal**
 Matsumoto, G. I., Kosaku, S., Takamatsu, N., Akagi, T., Kawai, T., and Ambe, Y.119
11. **Paleoenvironmental change in the Eurasian continent interior inferred from chemical elements in sediment cores (BDP96/1, BDP96/2) from Lake Baikal**
 Takamatsu, N., Matsumoto, I. G., Kato, N., and Kawai, T.127

12. **A new preparation method for qualitative and quantitative analysis of fossil sponge spicules by light microscope**
Eckert, C., Veinberg, E. V., Kienel, U.,
and Oberhänsli, H.136
13. **Evolution of freshwater centric diatoms within the Baikal rift zone during the late Cenozoic**
Khursevich, G. K., Karabanov, E. B., Williams, D. F.,
Kuzmin, M. I., and Prokopenko, A. A.146

Part 2

Physicochemical Limnology

14. **Elemental composition of short sediment cores and ferromanganese concretions from Lake Baikal**
Takamatsu, T., Kawai, T., and Nishikawa, M.155
15. **Mercury distribution in the bottom and stream sediments of Lake Baikal, water reservoirs of the Angara river cascade, and the adjacent drainage basins**
Koval, P. V., Kalmychkov, G. V., Geletyi, V. F.,
and Andrulaitis, L. D.165
16. **Correlation between geochemical features of recent bottom and stream sediments in the Baikal geocological polygon**
Koval, P. V., Gvozdkov, A. N., and Romanov, V. A.176
17. **Remote sensing methods in studies of Lake Baikal environment**
Semovski, S. V.186
18. **Environmental impact on the dynamics of Lake Baikal phytoplankton taxonomic groups:**

modelling attempt	
Semovski, S. V.	200
19. Nonlinear stability near the temperature of maximum density and thermobaric instability in Lake Baikal during summer stratification	
Granin, N. G., Gnatovsky R. Yu., Kay, A., and Galkin, L. M.	214
20. Study of the elemental composition of suspended particles in large continental lakes (Baikal and Khubsgul)	
Potyomkina, T. G. and Potyomkin, V. L.	229
21. Atmospheric and riverine input of nutrients and organic matter into Lake Baikal	
Sorokovikova, L. M., Khodzher, T. V., Sinyukovich, V. N., Golobokova, L. P., Bashenkhaeva, N. D., and Netavetaeva, O. G.	236
22. Comparison of persistent organochlorine pollutant behavior in the food webs of Lakes Baikal and Superior	
Kucklick, J. R. and Baker, J. E.	247
23. Carbon and nitrogen isotope studies of pelagic ecosystem and environmental fluctuations of Lake Baikal	
Ogawa, N. O., Yoshii, K., Melnik, N. G., Bondarenko, N. A., Timoshkin, O. A., Smirnova-Zalumi, N. S., Smirnov, V. V., and Wada, E.	262
24. Some speculations on the possibility of changes in deep-water renewal in Lake Baikal and their	

consequences

Kipfer, R. and Peeters, F.273

**25. Contamination of the ecosystems of Lake Baikal
by persistent organochlorines**Nakata, H., Tanabe, S., Iwata, H., Amano, M.,
Miyazaki, N., Petrov, E. A., and Tatsukawa, R.281Part 3

Evolution and Biodiversity

**26. Genetic differentiation of gammarid (*Eulimnogammarus
cyaneus*) populations in relation to past environmental
changes in Lake Baikal**Mashiko, K., Kamaltynov, R., Morino, H.,
and Sherbakov, D. Yu.299**27. Myological peculiarities of the comephoridae:
an endemic fish taxon of Lake Baikal (Pisces: Teleostei)**

Yabe, M. and Sideleva, V. G.306

**28. Morphometric comparison of skulls of seals
of the subgenus *Pusa***Amano, M., Koyama, Y., Petrov, E. A.,
Hayano, A., and Miyazaki, N.315**29. The importance of habitat stability for the
prevalence of sexual reproduction**

Martens, K., and Schön, I.324
