The Impact of Electronic Publishing on the Academic Community

An International Workshop organized by the Academia Europaea and the Wenner-Gren Foundation

Edited by

I. Butterworth
The present situation and the likely future

I Introduction
I. Butterworth

4 The impact of information technology and networks: new perspectives for scientific, technical and medical publishing
A. de Kemp

10 Electronic publishing and the academic community: a publisher’s perspective
A. Dixon

13 Electronic publishing in astronomy
P.B. Boyce

16 Cutting the pie in a new way: the case of the Electronic Transactions on Artificial Intelligence
E. Sandewall

18 All or none: no stable hybrid or half-way solutions for launching the learned periodical literature into the post-Gutenberg galaxy
S. Harnad and M. Hemus

28 The future of the World Wide Web and its impact on our institutions
D.M. Sendall

32 Electronic research archives for physics
Paul Ginsparg
Legal and political issues

45 Introduction
S. Strömholm

45 Legal and ethical issues; managing legislation
A. Turner QC

48 Copyright principles in a digital scientific world
T. Dreier

52 Managing copyright in a digital environment
J. Bing

The content and quality of academic communication

63 Introduction
M. Jacob

66 The traditional journal
P. Landshoff

69 A system for electronic peer review
A.G. Cohen

71 Peer review and electronic publishing
J. Zinn-Justin

76 The impact of electronic publishing on the physics community: the point of view of a physicist
F. Laloe

81 A blueprint for electronic publishing in physics
J.C. Sens

Social and cultural issues

87 Introduction
P. Zanella

89 Electronic publishing trends and advances
F. Mastroddi
The impact of information technologies on research and development activities in Georgia
P.J. Kervalishvili

Digital libraries and archiving of electronic information

Introduction
J.D. Drenth

Digital library work: meeting user needs
M.G. Lindquist

Scholarly communication and the licensing of electronic publications
A. Okerson

The development of digital libraries
J. Meadows

The future has arrived
R. Peek

Organizing for digital archiving: new distribution models in the scientific information chain
J. Mackenzie Owen

Choices in digital archiving: the American experience
D.J. Waters

Preservation of research materials: a domain crossing national boundaries
Y. de Lusenet

Discussion after Session 5
P.J.D. Drenth

Access to scientific data repositories

Introduction
E.J. Neuhold

Electronic databases and the scientific record
G. Cameron
