

The Systematics Association Special Volume Series 63

Brachiopods Past and Present

Edited by

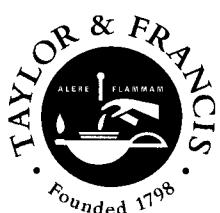

C. Howard C. Brunton,

L. Robin M. Cocks and Sarah L. Long

Department of Palaeontology

The Natural History Museum

London

London and New York

Contents

<i>Contributors</i>	ix
<i>Editors' Foreword</i>	xiii
1 Introduction	1
ALWYN WILLIAMS	
PART I	
Living brachiopods and palaeobiology	5
Introduction – C. Howard C. Brunton	5
2 Apatite varieties in Recent and fossil linguloid brachiopod shells	7
IVAR PUURA AND JÜRI NEMLIHER	
3 Chemico-structural differentiation of the organocalcitic shells of rhynchonellate brachiopods	17
MAGGIE CUSACK AND ALWYN WILLIAMS	
4 A TEM investigation of modulated microstructure in Recent and fossil articulate brachiopod shells from New Zealand	28
NANCY BUENING	
5 The acrosome reaction of the spermatozoa of the inarticulate brachiopod <i>Lingula anatina</i>	40
MAKOTO FUKUMOTO	
6 Brachiopod larval setae – a key to the phylum's ancestral life cycle?	46
CARSTEN LÜTER	
7 Variation in the loops of two Recent species of <i>Liothyrella</i> (Brachiopoda; Terebratuloidea) from New Zealand and South Orkney Islands	56
DAPHNE E. LEE, SANDRA J. CARLSON, NANCY BUENING AND CATHERINE R. SAMSON	
8 Shell morphology and geographical distribution of <i>Neocrania</i> (Brachiopoda, Recent) in the eastern North Atlantic and Mediterranean Sea	71
ALAN LOGAN AND SARAH L. LONG	

9 Developmental and settlement characteristics of the Antarctic brachiopod <i>Liothyrella uva</i> (Broderip 1833)	80
LLOYD S. PECK, KAREN MEIDLINGER AND PAUL A. TYLER	
10 Embryonic shells of Devonian linguloid brachiopods	91
ANDRZEJ BALINSKI	
11 Global surface-water circulation and the main features of brachiopod biogeography	102
O.N. ZEZINA	
12 Fundamental differences in external spine growth in brachiopods	108
FERNANDO ALVAREZ AND C. HOWARD C. BRUNTON	
PART II	
Advances in molecular studies	119
Introduction – Bernard L. Cohen	119
13 Brachiopod molecular phylogeny advances	121
BERNARD L. COHEN	
14 Molecular phylogenetics and evolution of long-looped brachiopods	129
MICHIKO SAITO, KAZUYOSHI ENDO AND BERNARD L. COHEN	
15 Phylogenetic relationships of brachiopods within the Metazoa based on mitochondrial amino acid sequence analyses	138
ALEXANDRA STECHMANN	
16 The phylogenetic position of brachiopods inferred from mitochondrial gene orders	142
KAZUYOSHI ENDO	
17 Genetic differentiation of <i>Terebratella sanguinea</i> in the New Zealand fiords: a dispersal barrier in the marine environment?	150
D.G. OSTROW, S.R. WING, P.V. MLADEVON AND M.S. ROY	
PART III	
Evolution and phylogeny	161
Introduction – Sandra J. Carlson	161
18 Functional morphology of articulatory structures and implications for patterns of musculature in Cambrian rhynchonelliform brachiopods	163
MICHAEL G. BASSETT, LEONID E. POPOV AND LARS E. HOLMER	
19 Early Silurian stricklandiid brachiopod evolution in eastern North America	177
JISUO JIN	
20 Post-Palaeozoic Rhynchonellida (Brachiopoda): classification and evolutionary background	189
MIGUEL O. MANCENIDO AND ELLIS F. OWEN	

21 Radiations and extinctions of atrypide brachiopods: Ordovician–Devonian	201
PAUL COPPER	
22 Trends in athyridide diversity dynamics	212
FERNANDO ALVAREZ AND T.L. MODZALEVSKAYA	
23 The systematic position of some Upper Permian terebratulide genera	224
T.N. SMIRNOVA AND T.A. GRUNT	
24 Ancestry and heterochronic origin of brachiopods of the Superfamily Megathyridoidea (Order Terebratulida): a case of natural selection for equatorial dwarfism?	229
DAVID I. MACKINNON	
25 Thecideide phylogeny, heterochrony, and the gradual acquisition of characters	240
GLENN S. JAECKS	
26 Incorporating stratigraphic data in the phylogenetic analysis of the Rhynchonelliformea	248
SANDRA J. CARLSON AND LINDSEY R. LEIGHTON	

PART IV

Palaeoecology and ecology	259
Introduction – C. Howard C. Brunton	259
27 Brachiopods of the Isca submarine cave: observations during ten years	261
EMMA TADDEI RUGGIERO	
28 Brachiopod/crinoid associations in the late Cenozoic of the Antillean region	268
STEPHEN K. DONOVAN AND DAVID A.T. HARPER	
29 Pragian–Emsian brachiopod communities of the Faou Formation (Massif Armorican, France)	275
RÉMY GOURVENNEC	
30 Palaeoecological interpretation of the brachiopod faunas of the Bardahessiagh Formation (middle Caradoc), Pomeroy, Co. Tyrone, N. Ireland	285
YVES CANDELA	

PART V

Palaeobiogeography and biostratigraphy	297
Introduction – L. Robin M. Cocks	297

31	Palaeolatitudinal distribution patterns of higher rhynchonelliform brachiopods in the early Ordovician JUAN L. BENEDETTO	299
32	Distribution and diversity of Ordovician articulated brachiopods in the East Baltic DAVID A.T. HARPER AND LINDA HINTS	315
33	The orthide <i>Platystrophia</i> in the Ordovician and Early Silurian of the East Baltic MICHAEL A. ZUYKOV	327
34	Silurian–Devonian biogeography A.J. BOUCOT AND ROBERT B. BLODGETT	335
35	Extinction of some lingulate brachiopod families: new stratigraphical data from the Silurian and Devonian of Central Bohemia MICHAL MERGL	345
36	Lower and Middle Permian brachiopods from Oman and Peri-Gondwanan palaeogeographical reconstructions LUCIA ANGIOLINI	352
37	Permian Productida of Australasia: palaeobiogeographical and palaeoclimatological implications N. ARCHBOLD	363
38	A Permian Boreal brachiopod fauna from Okutadami, central Japan, and its tectonic implication J. TAZAWA	373
39	Brachiopod biostratigraphy of the Middle Triassic in Bulgaria and comparison with elsewhere in Europe SAMUIL BENATOV	384
40	Mesozoic articulated brachiopods from the Western Cordillera of North America: their significance for palaeogeographic and tectonic reconstruction, palaeobiogeography and palaeoecology MICHAEL R. SANDY	394
41	Diversification of Mediterranean Early Jurassic brachiopods after the end-Triassic mass extinction – new results from Hungary ALFRÉD DULAI	411
42	Stratigraphic distribution of brachiopods – a new method of storing and querying loosely-structured biodiversity information GORDON B. CURRY, RICHARD CONNOR AND FABIO SIMEONI	424
