## Contents

1. Preface xv
2. Acknowledgements xvii

### 1 Scientists must write 1

**Writing as part of science** 2
- The scientific method 2
- The publication of research 3
- The popularisation of science 4
- Developing essential skills 5

**Improve your writing** 6
- What scientists and engineers write 6
- Consider any comments on your written work 7
- Write a set of instructions 7

### 2 Personal records 8

**Writing helps you to remember** 8
- Making good notes 8

**Writing helps you to observe** 9
- Keeping a record of practical work 10

**Writing helps you to think** 13
- Essay writing as an aid to thinking 14
- Writing a progress report as an aid to thinking 14
- Capturing your thoughts 14
- Being well organised 15

### 4 How scientists should write

| Characteristics of scientific writing | 30 |
| Explanation | 30 |
| Clarity | 30 |
| Completeness | 30 |
| Impartiality | 31 |
| Order | 31 |
| Accuracy | 32 |
| Objectivity | 32 |
| Simplicity | 34 |
| Scientific writing | 35 |

| Improve your writing | 35 |
| Criticise other people's writing | 35 |
| Criticise your own writing | 37 |
5 Think – plan – write – revise

Thinking and planning
- Collecting information and ideas
- Preparing a topic outline
- Putting your paragraphs in order

Writing

Revising

Improve your writing
- Practise essay writing
- Study the technique of successful essayists
- Prepare a topic outline
- Consider how examination papers are set and marked
- In examinations make things easy for the assessors
- Make good use of your time in examinations

6 Choosing words

The meaning of words
- Some words commonly confused
- Other words commonly misused
- Grandiloquence

Superfluous words

Technical terms

Nomenclature

Trade names

Abbreviations, contractions and acronyms

Improve your writing
- Take an interest in words
- Use your dictionary
- Choose words with care
- Define technical terms
Contents

7 Using words 67

Words in context 67
- The repetition of a word 67
- The position of a word 68
- Idiomatic expressions 69

Circumlocution 70
- Verbosity 70
- Reasons for verbosity 71
- The need for comment words and connecting words 74

Improve your writing 75
- Be clear and concise 75
- Edit the work of others 76
- Write précis and summaries 77
- Write a book review 78

8 Helping your readers 80

Writing for easy reading 80
- How to begin 81
- Control 81
- Emphasis 82
- Sentence length 83
- Rhythm 84
- Style 84

Capturing and holding your readers' interest 85

Using good English 86
- Obstacles to effective communication 87
- Rules for efficient communication 88

Improve your writing 88
- Learn from people who write well 88
- Learn by writing 89
- Check your writing for readability 89
9 Numbers contribute to precision 91

Using numbers and SI units 91
   Numbers 91
   SI units 93

Preparing tables 95

Preparing graphs and charts 97
   Line graphs 98
   Histograms 99
   Bar charts 100
   Pie charts 103

10 Illustrations contribute to clarity 105

Using illustrations as aids to explanation 105
   Photographs 107
   Line drawings 107
   Plans and maps 109
   Diagrams that are not drawn to scale 109

Preparing illustrations 110
   Dimensions 111
   Drawing 113
   Completed illustrations 114

Improve your writing 115
   Writing legends to figures (captions) 115
   Checking your illustrations and legends 116

11 Finding information 117

Reading as part of science 117
   Other people's work 118

Sources of information 119
   Dictionaries 119
   Encyclopaedias 119
   Handbooks 119
   Standards 120
   Directories 120
   Books 120
13 Writing a report on your investigation

Write from the start
Preparation your manuscript (first draft) 150

Improve your writing
Checking your manuscript (first draft) 151
Preparing your typescript 153
Checking your typescript 155
Preparing the index 155
Marking the typescript for the printer 156
Corresponding with an editor 157
A check list for referees (and authors) 158
Checking the proofs 159

Summary
How to prepare a report on an investigation or a paper for publication 160

14 Talking about science

Preparing your talk
Giving a poster presentation 164
Talking to an audience 164
Preparing visual aids 168
Using a blackboard, whiteboard or flip chart 169
Using an overhead projector 170
Using slides 171

Delivering your talk 172

Appendices
A Punctuation 174
B Spelling 181
C Computer appreciation 187
