## Contents

Preface ix

**Part I  Keynote address**

Recent Advances in Access Control Models 3  
*Sushil Jajodia, Duminda Wijesekera*

**Part II  Role and Constraint-Based Access Control**

Role-based Access Control on the Web Using LDAP 19  
*Joon S. Park, Gail-Joon Ahn, Ravi Sandhu*

Constraints-based Access Control 31  
*Wee Yeh Tan*

Secure Role-Based Workflow Models 45  
*Savith Kandala, Ravi Sandhu*

**Part III  Distributed Systems**

Subject Switching Algorithms for Access Control in Federated Databases 61  
*Jacqueline Yang, Duminda Wijesekera, Sushil Jajodia*

Efficient Damage Assessment and Repair in Resilient Distributed Database Systems 75  
*Peng Liu and Xu Hao*

Administering Permissions for Distributed Data: Factoring and Automated Inference 91  
*Arnon Rosenthal, Edward Sciore*

State-Dependent Security Decisions for Distributed Object-Systems 105  
*Joachim Biskup, Thomas Leineweber*
Part IV Information Warfare and Intrusion Detection

Reorganization of Database Log for Information Warfare Data Recovery 121
*Rumman Sobhan, Brajendra Panda*

Randomly roving agents for intrusion detection 135
*Ira S. Moskowitz, Myong H. Kang, LiWu Chang, Garth E. Longdon*

Public Telephone Network Vulnerabilities 151
*G. Lorenz, J. Keller, G. Manes, J. Hale, S. Shenoi*

Part V Relational Databases

Flexible Security Policies in SQL 167
*Steve Barker, Arnon Rosenthal*

The Inference Problem and Updates in Relational Databases 181
*Csilla Farkas, Tyrone S. Toland, Caroline M. Eastman*

Managing Classified Documents in a Relational Database 195
*Adrian Spalka*

Part VI Implementation Issues

A Comparison Between ConSA and Current Linux Security Implementations 211
*A Alexandre Hardy, Martin S Olivier*

A Novel Approach to Certificate Revocation Management 225
*Ravi Mukkamala, Sushil Jajodia*

ODAR: An On-the-fly Damage Assessment and Repair System for Commercial Database Applications 239
*Pramote Luenam, Peng Liu*

Part VII Multilevel Systems

An Extended Transaction Model Approach for Multilevel Secure Transaction Processing 255
*Vijayalakshmi Atluri, Ravi Mukkamala*

Maintaining the Confidentiality of Interoperable Databases with a Multilevel Federated Security System 269
*Marta Oliva, Felix Saltor*
Contents

Part VIII  New Application Areas

Security Procedures for Classification Mining Algorithms 285
   Tom Johnsten, Vijay V. Raghavan

Regulating Access to XML documents 299
   Alban Gabillon, Emmanuel Bruno

Part IX  Panel and discussion

Panel on XML and Security 317
   Sylvia Osborn, Bhavani Thuraisingham, Pierangela Samarati

Selected Summary of Discussions 325
   David L Spooner, Martin S Olivier
