Contents

Preface ................................................................. ix
Committees, Reviewers and Sponsors ............................... xiii

Session I: Contracts

1. Contracts in E-Commerce
   Hans Weigand and Lai Xu ........................................ 3

2. The Role of Contract and Component Semantics in Dynamic
   E-Contract Enactment Configuration
   Heiko Ludwig and Yigal Hoffner ............................... 19

3. A Dynamic License Agreement System for Reuse of
   Web Contents
   Michiko Yasukawa ................................................. 35

Session II: Security Issues

4. Secure E-Commerce Transactions, Modeling and
   Implementation Aspects
   Jian Tang and Ada Waichee Fu ................................ 53

5. From Call for Tenders to Sealed-Bid Auction for Mediated
   Ecommerce
   Omid Amirhamzeh Tafreschi and Markus Schneider,
   Peter Fankhauser, Bendick Mahleko, Thomas Tesch ......... 69
6. Web Notary Systems for Privacy Keeping E-Commerce
   Manen Ying, Yahiko Kambayashi, Kai Cheng and
   Yanchun Zhang ................................................................. 87

Session III: Process Interoperability

7. Seamless Integration of Inquiry and Transactional Tasks in
   Web Applications
   Juan J. Rodriguez and Oscar Diaz ........................................ 105

8. An XML-based Interorganizational Knowledge Mediation
   Scheme to Support B2B Solution
   S. Castano, V. De Antonellis and S. De Capitani di Vimercati .... 121

9. Views for Inter-organization Workflow in an E-commerce
   Environment
   Dickson K. W. CHIU, Kamalakar Karlapalem and Qing Li .......... 137

Session IV: Semantics Mining

10. Capturing the Semantics of Web Log Data by Navigation
    Matrices
    Wilfred Ng ........................................................................... 155

11. Discovery of Semantic Relationships among Web Pages
    Based on Web Topic Structures
    Takeshi Matsukura, Hiroyuki Kondo, Yoichi Hirata and
    Katsumi Tanaka ..................................................................... 171

    Anthony Scime and Larry Kerschberg ..................................... 187

Session V: Using Metadata for Integration

13. Infomediation for E-business enabled Supply Chains:
    A Semantics Based Approach
    Sudha Ram, Yousub Hwang and Vijay Khatri ......................... 205

14. An Analysis of Integration Problems of XML-Based
    Catalogs for B2B Electronic Commerce
    Borys Omelayenko and Dieter Fensel ..................................... 221
15. A Model to Support E-Catalog Integration
   Sham Navathe, Helen Thomas, Manit Satitsamitpong,
   Anindya-Datta .......................................................... 237

Session VI: Service Integration

16. The iRules Project – Using Active Rules for the Integration
    of Distributed Software Components
    Susan D. Urban, Suzanne W. Dietrich, Yinghui Na, Ying Jin,
    Amy Sundermier, Akash Saxena .................................... 255

17. Towards A Semantic Framework for Service Description
    Marlon Dumas, Justin O’Sullivan, Mitra Heravizadeh,
    David Edmond, Arthur ter Hofstede ................................ 277

Session VII: Application Modeling

18. A Model-Based Approach to Web-Application Development
    Oscar Diaz, Felipe Ibanez, Jon Iturrioz .............................. 295

19. The Importance of Ownership for E-Commerce
    J. Geller, Y. Perl, L. Liu, C. Rush and M. Halper ............. 311

20. Constraints as Mobile Specifications in E-Commerce Applications
    Kit-ying Hui, Peter M. D. Gray, Graham J. L. Kemp and
    Alun D. Preece .......................................................... 327

Author Index ........................................................................................................ 342
