AGN SURVEYS
IAU Colloquium 184

Proceedings of a Colloquium held at
Byurakan, the Republic of Armenia
18-22 June, 2001

Edited by

Richard F. Green
National Optical Astronomy Observatories, Tucson, Arizona, USA

Edward Ye. Khachikian
Byurakan Astrophysical Observatory, Armenian National Academy of
Sciences, Byurakan, The Republic of Armenia

and

David B. Sanders
Institute for Astronomy, University of Hawaii, Honolulu, Hawaii, USA
Contents

Dedication xi
Preface xiii
SOC/LOC xv
List of Participants xvii
Conference Photograph xxii

Part 1. Optical Surveys for AGN

Markarian’s First Survey (FBS) – Some Most Interesting Objects .... 3
   E.Ye. Khachikian
The Population of AGNs in Nearby Galaxies ....................... 13
   L. Ho
The Second Byurakan Survey, The Final Results. The Multiwavelength
   AGN Survey in the SBS Area .................................. 23
   J.A. Stepanian and V.H. Chavushyan
The Hamburg All-Sky Bright QSO Surveys .......................... 33
   D. Reimers and L. Wisotzki
Objective Prism Emission-Line Searches for Active Galactic Nuclei . 43
   C. Gronwell, V.L. Sarajedini and J.J. Salzer
The US and Other Optically Selected Bright QSO Samples .......... 53
   K.J. Mitchell and P.D. Usher
Luminosity Function and Evolution of Optically Selected QSOs .... 59
   L. Wisotzki
QSOs from a Variability-and-Proper Motion Survey .................. 69
   H. Meusinger, J. Brunzendorf, R.-D. Scholz and M. Irwin
Spectroscopic and Variability Surveys for AGN in the Groth Survey Strip
   V. Sarajedini
Spectral Variability of Quasars in the Optical Band ................ 81
   D. Trèvese and F. Vagnetti
AGNs in Shakhbazian Compact Groups .............................. 87
   A.S. Amirkhanian, A.G. Egikian, H. Tiersch and D. Stoll
A Morphological Optical Survey of Nearby AGN ..................... 89
   C.S. Boschetti, S. Ciroi, J. Funes, A. Omizzolo, P. Rafanelli,
   G.M. Richter, A. Rifatto and J. Vennik
Contents

Byurakan Surveys: Density of Bright AGN ............................................. 92
   L.K. Erastova

Comparison of ELG and UV Galaxies from the SBS Survey .................. 94
   M.V. Gyulzadian

Seven Samples of SBS Galaxies in Selected Fields ......................... 97
   S.A. Hakopian and S.K. Balayan

Properties of the Low-z NELGs from the VPM Survey ....................... 99
   H. Meusinger and J. Brunzendorf

The Blue stellar Objects of the First Byurakan Survey .................... 101
   A.M. Mickaelian

The New BL Lac Candidates from the FBS ......................................... 103
   O.Kh. Torosyan

Probable Associations of BL Lac objects with Zwicky and Abell Clusters 106
   O.Kh. Torosyan

Part 2. Infrared and Submillimeter Surveys for AGN

Spectroscopic Diagnostics for AGNs ................................................. 111
   S. Veilleux

The 2MASS Red AGN Survey ............................................................. 127
   R.M. Cutri, B.O. Nelson, P.J. Francis and P.S. Smith

The Optical, Infrared and Radio Properties of Extragalactic Sources Observed by SDSS, 2MASS and FIRST Surveys ......................... 137
   Ž. Ivezić, R.H. Becker, M. Blanton, X. Fan, K. Finlator, J.E. Gunn,
   P. Hall, R.S.J. Kim, G.R. Knapp, J. Loveday, R.H. Lupton, K. Menou,
   V. Narayanan, G.R. Richards, C.M. Rockosi, D. Schlegel, D.P. Schneider,
   I. Strateva, M.A. Strauss, D. Vanden Berk, W. Voges, B. Yanny, for the
   SDSS Collaboration

Dubious Deductions from AGN Survey Data ...................................... 147
   R. Antonucci

Infrared Surveys for AGN .............................................................. 157
   H.E. Smith

Unveiling the Evolution of Type I AGNs in the IR (15μm) – as Seen by ISO in the ELIAS-S1 Region ......................................................... 167
   I. Matute, F. La France, C. Gruppioni, F. Pozzi and C. Lari

Testing the Unified Model with an Infrared Selected Sample of Seyferts 173
   and A.L. Kinney

Results from ISOCAM Deep Surveys: An Answer on the AGN Contribution to the Cosmic Infrared Background ............................. 179
   H. Aussel
Contents

Blazars from the CLASS Survey .................................................. 189
  M.J.M. Marchá and A. Caccianiga

Discovery of Active Galactic Nuclei in Mid- and Far-Infrared Deep Surveys
with ISO ................................................................. 195
  Y. Taniguchi

A New MIR/submm Diagnostic for Dust-Enshrouded AGN ................. 205
  M. Haas

The Nature of the Faint Far-Infrared Extragalactic Source Population:
  Optical/NIR and Radio Follow-up Observations of ISOPHOT Deep-
  Field Sources using the Keck, Subaru, and VLA Telescopes .......... 213
  Y. Kakazu, D.B. Sanders, R.D. Joseph, L.L. Cowie, T. Murayama,
  Y. Taniguchi, S. Veilleux, M.S. Yun, K. Kawara, Y. Sofue, Y. Sato,
  H. Okuda, K. Wakamatsu, T. Matsumoto and H. Matsuhara

IRAS03158+4227 – a ULIRG in a Widely Separated Pair of Galaxies 215
  H. Meusinger, B. Stecklum and J. Brunzendorf

The Byurakan-IRAS galaxy (BIG) Sample: The Redshift Survey ........ 217
  A.M. Mickaelian, S.K. Balayan and S.A. Hakopian

Search for Obscured IRAS Galaxies ........................................ 220
  A.M. Mickaelian, S.A. Hakopian and S.K. Balayan

Part 3. X-Ray Surveys for AGN

The Obscured AGN Population Probed by X-ray Observations .......... 225
  K. Iwasawa

The AGN Content of Hard X-ray Surveys .................................. 235
  A. Comastri, C. Vignali and M. Brusa, on behalf of the HELLAS and
  HELLAS2XMM consortia

AGN Populations from Optical Identification of ASCA Surveys ......... 245
  M. Akiyama, Y. Ueda and K. Ohta

The X-ray Variability of High-Redshift QSOs ............................ 251
  J. Manners, O. Almaini and A. Lawrence

New Results from the REX Survey ......................................... 257
  A. Caccianiga, M.J.M. Marchá, T. Maccacaro, A. Wolter, R. Della Ceca
  and I.M. Gioia

Optical Identification of X-ray Sources in a High X-ray Flux Sensitivity
  Area from the RASS .................................................... 259
  R. Mújica, F.-J. Zickgraf, V. Chavushyan, Y. Juárez, A. Serrano,
  I. Appenzeller and J. Krautler

AGN Search from Multicolor Photometric Observations of Faint ROSAT
  X-ray sources in a One Square Degree Field .......................... 261
  S. Xue, X. Zhou and H. Zhang
# Part 4. Radio Surveys for AGN
