

BOREAL ODYSSEY:

Proceedings of
the North American Forest
Insect Work Conference
May 14-18, 2001
Edmonton, Alberta, Canada

W.J.A. Volney, J.R. Spence, and E.M. Lefebvre, editors

INFORMATION REPORT NOR-X-381

Canadian Forest Service
Northern Forestry Centre
2001

CONTENTS

PLENARY SESSIONS

PLENARY SESSION 1 INVASION OF NORTH AMERICA BY EXOTIC SPECIES: IS THERE HOPE FOR THE FUTURE?

Moderators: A.M. Liebhold and D.L. Wood	3
Post-Arrival Methods of Managing Invasions and Allee Dynamics	
A.M. Liebhold	5
Present and Future Pathways	
D.L. Wood	9
Implications of International Trade—Modification of Agreed Procedures	
F.T. Campbell	13
The Threat of New Introductions under Current Regulations—a Worldwide Problem	
J. Bell	17
Research and Public Policy: Measuring Hope	
P.N. Windle	19

PLENARY SESSION 2 GLOBAL CLIMATE CHANGE: IMPLICATIONS FOR FOREST INSECTS

Moderators: W.J. Mattson and R.A. Fleming	25
Ghost Forests, Global Warming, and the Mountain Pine Beetle	
J.A. Logan, B.J. Bentz, and J.A. Powell	27
Global Climate Change and Forest Insects: Idiosyncratic Responses by Stem Invasive Insects to Greenhouse Gas Effects on Trembling Aspen	
W.J. Mattson	29
Responses of Insect Disturbance Regimes to Climatic Change in Boreal Forests: Issues and Approaches	
R.A. Fleming and J-N. Candau	31
The Moran Effect, Global Climate Change, and Forest Defoliator Outbreaks	
A. M. Liebhold	33

CONCURRENT PANELS

TREE RESISTANCE TO INSECTS AND DEPLOYMENT IN FOREST MANAGEMENT

Moderators: K.M. Clancy and R. Alfaro	39
Resistance Mechanisms to Shoot Insects	
R. Alfaro, J. King, J.H. Borden, J. Bohlmann, and E. Tomlin	40
Mechanisms of Resistance in Trees to Defoliators	
K.M. Clancy	41
Deployment of Tree Resistance to Insects in Short Rotation Biomass Plantations	
D.R. Coyle, J.D. McMillin, R.B. Hall, and E.R. Hart	42
Deployment of Sitka Spruce Resistant to the Terminal Weevil (<i>Pissodes Strobi</i>)	
J. King and R. Alfaro	45

FIRE-INSECT-TREE INTERACTIONS

Moderators: R.A. Goyer and D.G. McCullough	47
Effects of Fire and Thinning Management Prescription on Ground Beetle Assemblages in Northern Arizona Ponderosa Pine Forests J. Villa-Castillo and M.R. Wagner	48
Bark Beetle Infestations Following Fire in Northern Arizona T.E. Kolb and J. Wilson	49
Bark Beetles and Fire D.L. Six	50
Interaction of Fire and Mountain Pine Beetle B. Hawkes	51
Effects of Fire Regimes in Longleaf Pine Restoration Efforts in the Southeastern US R. A. Goyer, T.A. Bauman, G.J. Lenhard, and L.G. Eckhardt	52

LARGE-SCALE/LONG-TERM EXPERIMENTS AND FOREST INSECT CONCERNS

Moderator: M.R. Wagner	53
Entomological Aspects of Long-Term Large-Scale Forest Health Research at Northern Arizona University M.R. Wagner and J.D. Bailey	54
Seven Habits of Successful Large-Scale Long-Term Research Experiments A.K. Mitchell, G.D. Hogan, and D.G. Maynard	55
A National Study of the Consequences of Fire and Fire Surrogate Treatments: Planning and Implementation of Long-Term Interdisciplinary Forest Ecosystem Studies P.J. Shea	56
Understanding of Spruce Budworm Population Dynamics: Development of Early Intervention Strategies J. Régnière, J. Delisle, E. Bause, A. Dupont, P. Therrien, E. Kettela, L. Cadogan, A. Retnakaran, and K. van Frankenhuyzen	57

WORKSHOPS

WORKSHOP 1.1

TOWARDS AN INTEGRATIVE UNDERSTANDING OF THE POPULATION DYNAMICS OF CONIFER BARK BEETLES: INCORPORATING FACTORS FROM MULTIPLE TROPHIC LEVELS

Moderators: K. Raffa and D.L. Six	71
Integrating Multiple Factors	
L. Safranyik	71
Effects of Defoliation on Host Defenses, Acceptance Behavior and Population Dynamics of Bark Beetles	
K.F. Wallin, T.E. Kolb, K. Skov, and M.R. Wagner	72
Direct Control of Seasonality in <i>Dendrocotonus</i> Species	
J.A. Logan and J.A. Powell	73
Role of Predators and Parasites	
J.D. Reeve and J.E. Macías-Sámano	73
Role of Woodborers and Secondary Bark Beetles on the Population Dynamics of Primary Bark Beetles	
J.H. Borden	73

WORKSHOP 1.2

FOREST HEALTH IMPLICATIONS OF CURRENT MANAGEMENT OF PUBLIC LANDS

Moderators: S. Smith and J. Macías-Sámano	75
Forest Health in Community-Owned Land in Mexico	
J.E. Macías-Sámano	76
Impact of the Northwest Forest Plan on Management of Insects	
D. Schultz	76
Forest Health Implications of Current Management in the Southern Region of the United States Department of Agriculture (USDA) Forest Service	
F.L. Oliveria	77
Forest Health Implications of Management of Public Lands in British Columbia	
P.M. Hall	78
Recent Policy Initiatives in Ontario and Their Implications for Forest Health	
T.A. Scarr and A.A. Hopkin	78

WORKSHOP 1.3

FUTURE OF DIRECT CONTROL IN WORKING FORESTS

Moderator: A. Retnakaran	83
Development of Tebufenozide (Mimic®), a Non-Steroidal Ecdysone Agonist, as a Pest Control Agent for Forest Insects	
A. Retnakaran, B. Tomkins, M. Primavera, T. Ladd, Q. Feng, R. Palli, and B. Arif	83
Blocking Juvenile Hormone Synthesis in Forest Insects: Exploring Novel Approaches to Pest Management	
M. Cusson and C. Béliveau	83
<i>Bacillus thuringiensis</i> Genes and Their Application	
J. L. Gringorten, K. van Frankenhuyzen, and A.S.D. Pang	84
Molecular Modifications of Baculoviruses for the Control of Forest Insect Pests	
Q. Feng, R. Palli, T. Ladd, B. Arif, and A. Retnakaran	85

WORKSHOP 1.4

BIOLOGICAL CONTROL IN PEST MANAGEMENT: NOVEL APPLICATIONS AND CONCERNS

Moderators: D.C. Allen, R.C. Reardon, and D. Dahlsten	87
Biological Control of Forest Insects by the Canadian Forest Service: Does Success Mean Sustainability? V.G. Nealis	88
Current Status of Biological Control Efforts Against Hemlock Woolly Adelgid (<i>Adelges tsugae</i> Annand) M.S. McClure	88

WORKSHOP 1.5

DENDROCHRONOLOGY AND INSECT IMPACTS ON PRODUCTIVITY

Moderator: R. Alfaro	91
Spatio-temporal Dynamics of Eastern Spruce Budworm Outbreaks and Its Impact on the Productivity of Black Spruce Forest H. Morin and Y. Jardon	91
Periodicity of Two-Year Cycle Spruce Budworm Outbreaks in Central British Columbia: a Dendro-Ecological Analysis R. Alfaro and Q-B. Zhang	91
A 250-Year Record of Spruce Bark Beetle Outbreak History on the Kenai Peninsula, Alaska E. Berg	92
White Tree-Rings in Trembling Aspen (<i>Populus Tremuloides</i> Michx.) as an Indicator of Past Insect Defoliation E.H. Hogg	92

WORKSHOP 2.1

HAZARD AND RISK RATING SYSTEMS

Moderators: L. Maclauchlan and T. Shore	93
Developing Hazard Rating Systems for the Mountain Pine Beetle and the Douglas-fir Beetle T. Shore	93
Hazard and Risk Assessment for the Nantucket Pine Tip Moth (<i>Rhyaciona frustrana</i> [Comstock]) in Intensively Managed Stands C.W. Berisford, J.T. Nowak, and C. Asaro	93
Hazard Rating and Outbreak Prediction of <i>Lambdina fuscicornis</i> in British Columbia N. Borecky and I.S. Otvos	94
Building a Hazard Rating System for Western Spruce Budworm L. Maclauchlan	95

WORKSHOP 2.2

PROFESSIONAL ETHICS: FOREST ENTOMOLOGY AND BEYOND

Moderators: B. Strom and L.K. Rieske-Kinney	97
Public-Private Partnerships: Conflict of Interest, Conflict of Conscience, or Symbiosis L.K. Rieske-Kinney, B. Strom, R. Harrison, K.M. Clancy, J.R. Spence, and J. Welchman	97

Development of Environmental Research Collaborations with Industry: an Ounce of Prevention is Worth a Pound of Cure J.R. Spence and W.J.A. Volney	98
---	----

WORKSHOP 2.3

LINKING RESEARCH ON BIOLOGICAL PROCESSES TO POPULATION DYNAMIC STUDIES

Moderators: J. Régnière and V.G. Nealis	99
Measurement and Interpretation of Mortality Factors in Insect Survivorship Studies T. Royama	99
Mortality and Natality in Collapsing Spruce Budworm Outbreaks: Results of Long-Term Survivorship Studies in Ontario And Quebec J. Régnière and V.G. Nealis	100
Modeling a Density-Dependent Ecological Relationship Between Jack Pine Budworm, <i>Choristoneura pinus</i> , and Its Host Tree V.G. Nealis and S. Magnusen	100
Population Dynamics of Browntail Moth in North America J.S. Elkinton, D. Parry, and G. Boettner	101
Modeling the Impacts of Temperature on the Population Dynamics of the Mountain Pine Beetle B.J. Bentz, J.A. Logan, J.A. Powell, and E. Hanks	101

WORKSHOP 2.4

RESTORATION ECOLOGY: INCORPORATING INSECTS

Moderators: D.L. Six and K.M. Baker	103
Considering Insect Responses and Biodiversity in Forest Restoration Efforts D.L. Six	103
Ponderosa Pine Restoration Ecology: Paradigm Shift or Uneven-Aged Management Repackaged? M.R. Wagner	103
Forest Soil Microarthropod Responses to Prescribed Fire and Stand Structure Alteration in California's Southern Cascade Range M.A. Camann, K.L. Lamoncha, N. Plant, and N. Rappaport	104
Prioritizing Restoration in Forests Adversely Affected by an Exotic Pest K.M. Baker and K.L. O'Hara	104

WORKSHOP 2.5

CONE AND SEED INSECT RESEARCH IN NORTH AMERICA: NEVER HAS SO MUCH BEEN
OWED BY SO MANY TO SO FEW

Moderators: P. de Groot and N. Rappaport	107
Cone and Seed Insect Research in the United States and Mexico N. Rappaport and J. Stein	108
Cone and Seed Pest Research in Canada W. Strong	108
Development of Molecular Methods for Predicting Cone Insect Response to Pheromones A.I. Cognato	108

Control of Cone and Seed Insects with Systemic Injections in a Southern Pine Seed Orchard D.M. Grosman, W.W. Upton, F.A. McCook, and R.F. Billings	109
Stem Injection and Foliar Application of Neem for Control of Seed and Cone Insects in Spruce J. Sweeney, B. Helson, and G. Gesner	109
Development of Pheromones for Control of Cone Beetles in Mexican Pines A.A. del Rio Mora	109
Cone and Seed Insects of World Conifers: Patterns in Species Richness of Parasitoids J.J. Turgeon, M. Kenis, and E.G. Brockerhoff	110

WORKSHOP 3.1

HIGH ELEVATION FOREST INSECTS AND THEIR MANAGEMENT

Moderators: J. Wilson and J. Villa-Castillo	111
Whitebark Pine Forest Health Concerns and Management in the Selkirk Mountains of Northern Idaho S.J. Kegley	111
Bark Beetle Management on High Elevation Forest Ecosystems of Mexico and Its Importance in Understanding Short- and Long-Term Dynamics R. Gutierrez-Rodriguez, J. Bocanegra-Gallegos, and J. Villa-Castillo	111
Spruce Aphid in the Southwest A.M. Lynch and B. Fitzgibbon	112

WORKSHOP 3.2

AERIAL SURVEYS – 20TH CENTURY METHODS IN THE 21ST CENTURY

Moderators: T. McConnell and G.M. Howse	113
Accuracy of Aerial Sketch-Mapping Estimates of Defoliation D.A. MacLean and W. MacKinnon	113
Aerial Surveys for Detection and Damage Assessment of Major Forest Disturbances in Ontario G.M. Howse	113
Changing of the Guard: the Trials and Tribulations of Taking Over Aerial Surveys from the Federal Government T. Ebata	114
Aerial Surveys in the United States—a New Hey-Day T.J. McConnell	114

WORKSHOP 3.3

IMPACTS OF EXOTIC PESTS ON FOREST ECOSYSTEMS AND WORLD TRADE

Moderators: M. Ostry and S. Katovich	117
Butternut Canker and Sudden Oak Death: Current and Potential Threats to Eastern Hardwood Forests M.E. Ostry, J. Juzwik, and S.D. Cohen	117
The Threat of <i>Sirex noctilio</i> to North America D.A. Haugen	118
Assessing the Impact of Exotic Pests on Management of Michigan Forests D.G. McCullough and R.L. Heyd	118

WORKSHOP 3.4

INSECT/PLANT INTERACTIONS: BRIDGING THE GAP BETWEEN INDIVIDUAL AND POPULATION-LEVEL STUDIES

Moderator: D. Quiring	119
Seeing the Forest from the Trees: the Role of the Host in the Spatial Dynamics of Conifer Folivores	
A.L. Carroll	120
The Role of the Host Plant on Population Changes of Herbivores in Young Conifer Stands	
D. Ostaff	120
Re-evaluating the Host Tree as a Factor in the Population Dynamics of Hardwood Defoliators	
D. Parry	121

WORKSHOP 3.5

INFORMATION STRATEGIES FOR INVENTORYING AND MONITORING BIOCONTROL AGENTS

Moderators: R. Beard and A. Mason	123
Biocontrol Inventory and Monitoring Information Standards	
R. Beard	124
General Overview of the Nez Perce Biological Control Center Database	
D. Bruno	124

WORKSHOP 4.1

FOREST PEST SURVEY: HISTORY, PURPOSE, AND POLICY

Moderators: B. Schaupp and H. Ono	127
History of Forest Pest Surveys in Canada	
T.E. Sterner (Presented by E.G. Kettela)	128

WORKSHOP 4.2

EDUCATING RESOURCE MANAGERS AND THE GENERAL PUBLIC

Moderators: R.L. Livingston and E.G. Hebertson	129
Reaching Out, Enhancing Education Efforts	
E.G. Hebertson	129
Management Seminars and Workshops	
R.L. Livingston	130
Teaching Forest Entomology to Future Forest Managers	
S. Lindgren	130
Northern Arizona University School of Forestry Model for Training Forest Managers: Changing with the Times	
M.R. Wagner	130

WORKSHOP 4.3

URBAN FOREST PEST MANAGEMENT

Moderators: S. Wilkins and R.L. McIntosh	131
Chemical Ecology of the Native Elm Bark Beetle <i>Hylurgopinus Rufipes</i> [Coleoptera: Scolytidae]: an Ecological Approach to Beetle Management	
R.L. McIntosh, M. Pryznyk, and G. Gries	132

Recent Research into the Management of Elm Bark Beetles in Urban Forests in Manitoba R. Westwood	133
Managing "Forest" Pests in Urban Areas: Some Experiences in South-Central British Columbia I.M. Wilson	134

WORKSHOP 4.4

SPATIAL DYNAMICS OF FOREST DEFOLIATOR POPULATIONS

Moderator: A.M. Liebhold	135
Space: Not Just a New Frontier; or, Why Changing the Species Composition Doesn't Reduce the Pest Hazard D. Gray	136
Landscape Scale Dynamics of Spruce Budworm Defoliation in Ontario. Analysis of Large-Scale Data from 1967-1998 in Relation to Bioclimatic Variables J-N. Candau and R.A. Fleming	136
The Use of Logistic Regressions to Predict Spruce Budworm, <i>Choristoneura fumiferana</i> , Defoliation Based on Historical Defoliation and Pheromone Trap Data D.B. Lyons, A.M. Liebhold, and G.C. Jones	137
Statistical Modeling of Forest Tent Caterpillar Populations in Dynamics in Time and Space J. Roland, S. Lele, and B. van Hezewijk	137
What Causes Spatial Synchrony of Forest Insect Outbreaks? M. Peltonen	138

WORKSHOP 4.5

ARTHROPOD DIVERSITY AND COARSE WOODY MATERIAL

Moderators: J. Hammond and C.G. Niwa	139
Creation and Utilization of Snags by Arthropods in Mixed-Conifer Forests C.G. Niwa and D.W. Ross	139
Arthropods and Large Woody Debris in Pine Forests of the Southern United States J. Hanula, S. Horn, and D. Wade	140
Ants and Woody Debris in Sub-Boreal Conifer Forests S. Lindgren	141

WORKSHOP 5.1

APPLICATION OF BEHAVIORAL CHEMICALS TO INTEGRATED FOREST PEST MANAGEMENT

Moderators: Bark Beetle Section – R.F. Billings Defoliator Section – J. Wenz	143
Research on the Chemical Ecology Interactions between Bark Beetles and Their Predators in South Mexico J.E. Macías-Sámano	143
Updates on Semiochemical Regulatory Issues S. Burke	143
Southern Pine Beetle Outbreaks in the Southern United States and Central America: Current Status and Potential for Behavioral Chemical Applications R.F. Billings	145
Pheromone Monitoring of Western Budworms C.G. Niwa, G.E. Daterman, C. Sartwell, and J. Wenz	145

Using Mating Disruption to Manage Gypsy Moth, <i>Lymantria dispar</i> (L.): a Review R.C. Reardon	146
Status of Douglas-fir Tussock Moth Mating Disruption I. Ragenovich	147
Pheromone Monitoring of Douglas-fir Tussock Moth Populations J. Wenz, G. Daterman, and K. Sheehan	147

WORKSHOP 5.2

THE MOUNTAIN PINE BEETLE IN NORTH AMERICA: STATUS, TRENDS AND MANAGEMENT

Moderators: L. Safranyik and B. Bentz	149
Current Status of Mountain Pine Beetle Populations in the United States S.J. Kegley	150
Seasonality in the Mountain Pine Beetle: Causes and Effects on Abundance L. Safranyik	150
Mountain Pine Beetle Population Distribution: Influences of an Adaptive Seasonality B.J. Bentz and J.A. Logan, and J.A. Powell	151
Managing Stands to Reduce Mountain Pine Beetle-Caused Mortality in the Western United States K. Gibson	152
Mountain Pine Beetle in British Columbia P.M. Hall	152
Landscape Modeling of Management Scenarios for the Mountain Pine Beetle (<i>Dendroctonus ponderosae</i>): a Case Study T. Shore, B. Riel, L. Safranyik, and A. Fall	153

WORKSHOP 5.3

SHORT ROTATION FOREST ENTOMOLOGY

Moderator: T.E. Nebeker	155
Cottonwood Fiber Farm Pest Management: Emphasis on Cottonwood Leaf Beetle and New Insect Associations T.E. Nebeker, M.D. Warriner, and E.R. Hart	156
Transgenic Hybrid Poplars Exhibit High Levels of Resistance to Chrysomelid Beetles Under Field Conditions R. Meilan, C. Ma, S. DiFazio, P. Payne, T. Agens, L. Miller, and S. Strauss	156
Arthropod Pests in a South Carolina Short Rotation Woody Crop Plantation D.R. Coyle	157
Cottonwood Leaf Beetle Defoliation Impact on Populus Growth and Above-Ground Volume in a Short Rotation Woody Crop Plantation D.R. Coyle, J.D. McMillin, R.B. Hall, and E.R. Hart	157
Loblolly Pine Response to <i>Ophiostoma minus</i> K.D. Klepzig	157

WORKSHOP 5.4

WHY AREN'T MORE DECISION SUPPORT SYSTEMS FOR INSECT MANAGEMENT ACTUALLY BEING USED?

Moderators: D.A. MacLean and R. Coulson	159
Spruce Budworm DSS: Making It an Operational Reality W. MacKinnon, K. Porter, K. Beaton, M. Budd, and D.A. MacLean	160

Decision Support Systems: Where Are the Users? E.L. Smith	160
Pest Management DSS: What Decisions, by Whom, for What? D.A. MacLean	161
Internet Delivery of Smart Maps: The Fire Ant Spatial Information Management System (FASIMS) R. Coulson and D. Wunneburger	161

WORKSHOP 5.5

ECOSYSTEM AND COMMUNITY RESPONSES TO FOREST INSECTS

Moderator: R. Muzika	163
Ecosystem Changing Impact of Southern Pine Beetle and Red Oak Borer in the Southern Region of the USDA Forest Service F.L. Oliveria	163
Ecosystem to Regional Analyses of Hemlock Woolly Adelgid Outbreaks in Southern New England D.A. Orwig and D.R. Foster	164
Responses of Hardwood Forests in the Great Lakes Region to Multiple Disturbances J.A. Witter, J.L. Stoyenoff, and J.L. Yocum	164
Spruce Beetle Outbreaks on Intermountain Region Spruce-Fir Forests E.G. Hebertson	164

WORKSHOP 6.1

EFFECTS OF FORESTRY PRACTICES ON BIODIVERSITY

Moderators: J.C. Miller and J.R. Spence	165
Utility of Documenting Lepidoptera Biodiversity for Environmental Assessment J.C. Miller	166
Effects of Forest Conversion and "Campesino" Forestry on the Ground Beetle Fauna in Central Veracruz, Mexico E. Montes de Oca, J.R. Spence, and G.E. Ball	166
Impact of Harvesting on Native Biodiversity and Ecological Processes T.T. Work	167
Forest Pest Management Effects on Central Appalachian Macrolepidopterans J.S. Strazanac and L. Butler	167
The Effects of Forestry and Urbanisation on Ground Beetles (Coleoptera, Carabidae) in Finland D.J. Kotze, J. Niemelä, and M. Koivula	167

WORKSHOP 6.2

USE OF ECOPHYSIOLOGY TO ASSESS STAND-SITE-INSECT INTERACTIONS

Moderators: E.L. Smith and A. McMahan	169
Estimating Stand Vigor with FVS-BGC: a Process-Model Extension of the Forest Vegetation Simulator A. McMahan and E.L. Smith	170
Linkages between Tree Stress and Defensive Processes in Southwestern Ponderosa Pine T.E. Kolb	171

WORKSHOP 6.3

FOREST INSECT EPIZOOTIOLOGY

Moderators: A. Keddie and J. Elkinton	173
Forest Insect Epizootiology—Vertical Transmission	
A. Keddie and M. Erlandson	174
Impact of <i>Entomophaga Maimaiga</i> on Gypsy Moth Population Dynamics	
J. Elkinton	174
Stability of the Douglas-fir Tussock Moth Viral DNA in Stored TM-Biocontrol-1	
C. Reed, I.S. Otvos, R.C. Reardon, and I. Ragenovich	174
Efficacy of Stored TM-Biocontrol-1	
B. Kukan, I.S. Otvos, R.C. Reardon, and I. Ragenovich	175
Hazard Rating and Outbreak Prediction of <i>Lambdina fiscellaria lugubrosa</i> in British Columbia	
N. Borecky and I.S. Otvos	176
Synergistic Relationship Between Two Baculoviruses of the Eastern Spruce Budworm: Potential in Pest Management Strategies	
B. Arif	176

WORKSHOP 6.4

TEACHING FOREST ENTOMOLOGY

Moderators: J.A. McLean and S.J. Seybold	179
The Status of Education in Forest Entomology in the United States	
S.J. Seybold	180
Teaching Forest Entomology to Foresters in Canada	
J.A. McLean	183

WORKSHOP 6.5

GIS, GPS AND REMOTE SENSING ADVANCES AND APPLICATIONS TO INTEGRATED FOREST PEST MANAGEMENT

Moderators: J. Ellenwood and F.L. Oliveria	185
Digital Aerial Sketchmapping Using a Laptop Computer, GPS and GIS	
F.L. Oliveria	185
Digital Imagery for Mapping Forest Health Concerns	
J. Ellenwood	185
Satellite Remote Sensing for Assessing Insect Defoliation Damage in Canada	
R.J. Hall, J.E. Luther, D.G. Leckie, and G.R. Gerylo	186
Using Landsat Data in a Stand Hazard Rating System for Southern Pine Beetle	
S.P. Cook, S.J. Cherry, K.S. Humes, and J.M. Guldin	187

POSTER ABSTRACTS

Peach Bark Beetle: a Potential Threat to Black Cherry in New York
 K.B. Adams and D.C. Allen 191

Predicting Infestation Levels of the Nantucket Pine Tip Moth (*Rhyacionia frustrana*)
 using Pheromone Traps
 C. Asaro and C.W. Berisford 191

Impacts of the Eastern Spruce Budworm (*Choristoneura fumiferana*)
 on White Spruce (*Picea glauca*) Plantations in Northern Minnesota
 D.C. Blackford, K.J. Puettmann, and S.J. Seybold 192

Success of Pheromone-Induced Attack by Western Balsam Bark Beetle (*Dryocoetes confusus*)
 and the Defense Response of Fast- and Slow-Growing Subalpine Fir (*Abies lasiocarpa*)
 K. Bleiker, S. Lindgren, and L. Maclauchlan 193

Resistance of Elms (*Ulmus* Sp.) and Elm Hybrids to Elm Leaf Beetle (*Pyrrhalta luteola*)
 under Field Conditions in East Central Arizona
 P.P. Bosu, M.R. Wagner, F. Miller, and S. Campbell 193

Allozyme Variation is Associated with Douglas-fir Resistance
 to Western Spruce Budworm Defoliation
 Z. Chen, T.E. Kolb, K.M. Clancy, L.E. DeWald, and V.D. Hipkins 194

The Role of Monoterpenes in Resistance of Douglas-fir to Western Spruce Budworm
 Defoliation
 Z. Chen, T.E. Kolb, and K.M. Clancy 194

Phylogenetic Taxonomy and Nomenclatural Changes of Pine Engraver Bark Beetles
 (Scolytinae: Ipini)
 A.I. Cognato 195

Quasi-Synchronous Outbreaks of Forest Tent Caterpillar in Alberta I:
 Period-Forcing by Non-Linear Perturbation?
 B.J. Cooke 195

Quasi-Synchronous Outbreaks of Forest Tent Caterpillar in Alberta II:
 Population De-Regulation by Forest Fragmentation?
 B.J. Cooke and J. Roland 196

Disturbance Effects on Spruce Beetle (*Dendroctonus rufipennis*) Parasitism
 J. Dunlop, D.W. Langor, and J.R. Spence 196

Strategic Planning Systems for Bark Beetles in British Columbia
 M. Duthie-Holt, J. DeGagne, D. Tolia, N. Powel, J. Wang, and D. Belsham 197

Responses of Sub-Boreal Beetles to a Severe Windstorm Event and Silvicultural Practices
 in Northeastern Minnesota
 K.J.K. Gandhi, P.J. Anderson, D.W. Gilmore, R.A. Haack, W.J. Mattson,
 J.C. Zasada, and S.J. Seybold 198

Volcano®: A New, Effective Control Option for the Texas Leaf-Cutting Ant
 D. Grosman, F. McCook, W. Upton, and R.F. Billings 198

Climate Change Impacts on the Productivity and Health of Aspen
 E.H. Hogg, J.P. Brandt, and B. Kochtubajda 199

Distribution of Ground Beetles (Carabidae) and Rove Beetles (Staphylinidae) in Burned Stands
 J.M. Jacobs 199

Ecology and Management of Exotic Forest Insect Pests in the Patagonia Argentina
 P. Klasmer, E.N. Botto, and J.M. Villacide 200

Aleocharine Rove Beetles of the Ancient Sitka Spruce Forest on Vancouver Island and the Impact of Clear-Cutting on Their Diversity and Abundance (Coleoptera: Staphylinidae) J. Klimaszewski, N. Winchester, and V. Gusarov	200
Suitability of Six Northern Hardwood Species for Larval Development and Host Selection of the Asian Longhorned Beetle (<i>Anoplophora glabripennis</i>) (Motschulsky) and Associated Behaviors L.L. Lazarus and D.G. McCullough	201
Differential Gene Expression in the Spruce Terminal Weevil Feeding on Resistant Versus Susceptible Host Trees I. Leal, E.E. White, T.S. Sahota, and J. Manville	201
Outbreak of an Exotic Defoliator: Pine False Webworm [<i>Acantholyda erythrocephala</i> (L.)] Research in New York A.E. Mayfield, B.J. MacCulloch, and D.C. Allen	202
An Improved Trap for Large Wood-Boring Insects (Cerambycidae, Buprestidae, Siricidae) W.D. Morewood, K.E. Hein, P.J. Katinic, and J.H. Borden	202
Influence of Substrate Water on Carabid Pine-Seed Predation M. Nilson	203
Are Headwater Streams Important to Forest Ecosystems?: Adult Aquatic Insect Communities in Temporary and Perennial Headwater Streams in Western Oregon R.A. Progar and A.R. Moldenke	203
Verbenone Interrupts Attraction of Red Turpentine Beetle (<i>Dendroctonus valens</i>) to Host Volatiles N.G. Rappaport, D.R. Owen, and J.D. Stein	204
Habitat Selection by Douglas-fir Beetles (<i>Dendroctonus pseudotsugae</i>) in Fallen Trees Depends on Beetle Condition M. Reid	204
The Influence of Stand Composition and Stand Structure on the Dispersal of the Striped Ambrosia Beetle [<i>Trypodendron lineatum</i> (Olivier) (Coleoptera: Scolytidae)] J. Park and M. Reid	205
Effects of Wildfire on Oak (<i>Quercus</i>) Growth, Foliar Chemistry, and Herbivory L.K. Rieske-Kinney	205
Temporal Response by Predators to Increasing Scolytid Populations Following the 1998 Ice Storm in Eastern North America K.L. Ryall and S. Smith	206
Boreal Spiders as Indicators of Multi-Scale Forest Structure, Disturbance, and Biodiversity D.P. Shorthouse, J.R. Spence and T.T. Work	206
An Evaluation of the Gypsy Moth Pathogen [(<i>Entomophaga maimaiga</i>) (Zygomycetes: Entomophthorales)] in Michigan Forests N.W. Siegert, D.G. McCullough, A.E. Hajek, and M.M. Wheeler	207
Effects of Restoration Thinning Treatments on Water Relations and Photosynthesis of Four Size-Classes of Ponderosa Pine K.R. Skov, K.F. Wallin, and T.E. Kolb	207
Variation in Response by Pine Engraver Beetles (<i>Ips pini</i>) to Ipsdienol and Lanierone in Western Montana and Northern Arizona B. Steed, M. Wagner, and K.F. Wallin	208

Evaluation of Bait Logs for Containment of the Brown Spruce Longhorn Beetle (<i>Tetropium fuscum</i> Fabr.)	
J. Sweeney, G. Smith, G. Gesner, J.E. Hurley, L. Humble, and E. Allan	208
Ecological Processes	
T.R. Torgersen	209
Recent Invasions of North America Lepidoptera Defoliators in Slovakia (Central Europe)	
M. Turcani	209
Biological Role of Ambrosia Fungi Associated with <i>Trypodendron</i> Spp.	
U. Uzunovic, S. Kühnholz, and J.H. Borden	209
Oviposition Patterns of a Cambium Miner, <i>Phytobia Betulae</i> , within and among Birch Genotypes	
T. Ylioja, S. Hinkkanen, H. Roininen, and M. Rousi	210
FOUNDERS' WESTERN FOREST INSECT WORK CONFERENCE AWARD SPEECH	211
ADDRESSES OF REGISTRANTS	221

NOTE:

The views, conclusions, and recommendations published in this proceedings are those of the authors and do not necessarily imply endorsement by the Canadian Forest Service.

The exclusion of certain manufactured products does not necessarily imply disapproval nor does the mention of other products imply endorsement by the Canadian Forest Service.
