Table of Contents

Preface XIX
Organizing Committees XXI
Conference Sponsors XXIII
Associate Editor, Review Editors and Reviewers XXV
Acknowledgements XXVII

Volume 1

The burial of drainage waters from the Udachnaya kimberlite pipe into permafrost 1
S.V. Alexeev & L.P. Alexeeva

Relict permafrost in the central part of Western Siberia 5
G.V. Ananjeva (Malkova), E.S. Melnikov & O.E. Ponomareva

GIS assessment of climate-change impacts in permafrost regions 9
O.A. Anisimov & V.Y. Poliakov

Permafrost environment in the Yari-Hotaka Mountains, southern part of the Northern Japanese Alps 15
M. Aoyama

Radiowave pulse refraction and ground wave propagation through permafrost and the active layer 21
S.A. Arcone & A.J. Delaney

Shoreface of the Arctic seas – a natural laboratory for subsea permafrost dynamics 27
F.E. Are

Pressuremeter tests within an active rock glacier in the Swiss Alps 33
L.U. Arenson, S.M. Springman & P.G. Hawkins

Shearing response of ice-rich rock glacier material 39
L.U. Arenson, N. Almasi & S.M. Springman

Hydrological dynamics and retention of water in a permafrost environment, Recherche Fiord, Spitsbergen 45
S.A. Bartoszewski & J. Magierski

Pedogenesis under permafrost and active volcanism in Southern Kamchatka – new aspects about the last glaciation 49
R. Bäumler

Terrestrial laser scanning for rock glacier monitoring 55
A. Bauer, G. Paar & V. Kaufmann

Peatland permafrost thaw and landform type along a climatic gradient 61
D.W. Beilman & S.D. Robinson

Sensitivity and responses to climate change in the Subantarctic periglacial environment 67
J. Boelhouwers
The palaeoenvironmental significance of southern African blockfields and blockstreams
J.C. Boelhouwers & P.D. Sumner

A comparison of snow melt at three circumpolar sites: Spitsbergen, Siberia, Alaska
J. Boike, L.D. Hinzman, P.P. Overduin, V. Romanovsky, O. Ippisch & K. Roth

Climate and cryogenic processes along linear structures
N. Bosikov

Long-term high Arctic ecosystem monitoring in Quttinirpaaq National Park, Ellesmere Island, Canada
G. Broll, C. Tarnocai & J. Gould

Frozen saline soils of the Arctic coast: their distribution and engineering properties
A. Brouchkov

Long-term rates of coastal erosion and carbon input, Elson Lagoon, Barrow, Alaska
J. Brown, M.T. Jorgenson, O.P. Smith & W. Lee

17 years of thaw penetration and surface settlement observations in permafrost terrain along the Norman Wells pipeline, Northwest Territories, Canada
M.M. Burgess & S.L. Smith

Lake-bottom thermal regime in thermokarst terrain near Mayo, Yukon Territory, Canada
C.R. Burn

Thermokarst landforms in the Transantarctic Mountains region of Antarctica
I.B. Campbell & G.G.C. Claridge

The impact of recent glacier fluctuation and human activities on permafrost distribution, Stelvio Pass (Italian Central-Eastern Alps)
N. Cannone, M. Guglielmin, C. Hauck & D. Vonder Mühll

Constructing the Qinghai-Tibet railroad, new challenges to Chinese permafrost scientists
G.-D. Cheng & X. Li

The hydraulic conductivity of freezing saline soils
V.G. Cheverev & I.Y. Vidyapin

The southern boundary of the Northern Hemisphere periglacial zone at the Faroe Islands
H.H. Christiansen & O. Humlum

Experimental investigation of gas hydrate and ice formation in methane-saturated sediments
E.M. Chuvilin, E.V. Kozlova, N.A. Makhonina & V.S. Yakushev

Centrifuge modelling of frost heave of arctic gas pipelines
J.I. Clark & R. Phillips

Thermal erosion in Siberia: Laboratory simulations
F. Costard, L. Dupeyrat, E. Carety-Gailhardis & E. Gautier

Palsa dynamics in a subarctic mountainous environment, Wolf Creek, Yukon Territory, Canada
T.L. Coultish & A.G. Lewkowicz

Physical modelling of permafrost warming in rock slopes
M.C.R. Davies, O. Hamza & C. Harris

Thermal anomaly in a cold scree slope (Creux du Van, Switzerland)
R. Delaloye, E. Reynard, C. Lambiel, L. Marescot & R. Monnet
Numerical simulation of the temperature field of a palsa reveals strong influence of convective heat transport by groundwater
G. Delisle & M. Allard

181

Permafrost in north-central Europe during the Weichselian: how deep?
G. Delisle, G. Caspers & H. Freund

Recent ground ice and its formation on evidence of isotopic analysis

193

Rock glacier distribution and paleoclimate in Italy
F. Dramis, C. Giraudi & M. Guglielmin

199

The set of eco-geologic digital maps of the Timan-Pechora province
D.S. Drozdov, Y.V. Korostelev, G.V. Malkova & E.S. Melnikov

205

Management of the thermo-mechanical response of the building-foundation system
M.M. Dubina, Y.A. Chernyakov & D.K. Teslenko

211

An enhanced vegetation classification for permafrost modelling, NWT, Canada
C. Duchesne, J.F. Wright, M.M. Côté & F.M. Nixon

217

Scaling of supersaturation by a simple test
M. Dysli

223

Late-Quaternary paleoenvironmental record from a palsa-scale frost mound in northern Alaska
W.R. Eisner, K.M. Hinkel, F.E. Nelson & J.G. Bockheim

229

Problems of radioactive waste burial in perennially frozen ground
E.D. Ershov, S.Y. Parmuzin, N.F. Lobanov & V.V. Lopatin

235

Observations of surface dynamics with thermokarst initiation, Yukechi site, Central Yakutia
A. Fedorov & P. Konstantinov

239

Migration of copper ions from an underlying substrate to the snowcover
V.I. Fedoseyeva & N.F. Fedoseyev

245

A mathematical model of differential frost heave
A.C. Fowler

249

Rock glacier occurrence and related terrain parameters in a study area of the Eastern Swiss Alps
R. Frauenfelder, W. Haeberli & M. Hoelzle

253

A physical model of frozen ground considered as a complex macrosystem
A.D. Frolov

259

Permafrost and surface movement of an active protalus rampart in the Kuranosuke Cirque, Northern Japanese Alps
K. Fukui

265

Fluvial dynamics in a deep permafrost zone – the case of the middle Lena river (Central Siberia)
E. Gautier, D. Brunstein, F. Costard & R. Lodina

271

Effects of cryogenic processes on Yakutian landscapes under climate warming
P.P. Gavriliev & P.V. Efremov

277

Quantitative estimation of the thermal conductivity of saturated frozen soils
R.I. Gavriliev

283

Model of mean annual temperature history for the Yakutian coastal lowlands and arctic shelf during the last 400 thousand years
A.V. Gavrilov & V.E. Tumskoy

287
Thermal response of air convection embankments to ambient temperature fluctuations
D.J. Goering

Principles of classification and mapping of permafrost in Central Asia

Geocryological–geoecological problems occurring in urbanised territories in Northern Russia and methods for improvement and restoration of foundations
V.I. Grebenets

Experimental road structures for permafrost regions
S.E. Grechishchev, V.D. Kazarnovsky, Y.S. Pshenichnikova & Y.B. Sheshin

Ice segregation and slope stability in permafrost areas
S. Grechishchev

The degradation of coastal permafrost and the organic carbon balance of the Laptev and East Siberian Seas
M.N. Grigoriev & V. Rachold

Surface temperatures in steep alpine rock faces – A strategy for regional-scale measurement and modelling
S. Gruber, M. Peter, M. Hoelzle, I. Woodhatch & W. Haeberli

Probable occurrence of sporadic permafrost in non-alpine scree slopes in central Europe
M. Gude, S. Dietrich, R. Mäusbacher, C. Hauck, R. Molenda, V. Ruzicka & M. Zacharda

Towards an Antarctic active layer and permafrost monitoring network
M. Guglielmin, M. Balks & R. Paetzold

Methods for absolute and relative age dating of rock-glacier surfaces in alpine permafrost

Micro-transducers and high-frequency rock temperature data: changing our perspectives on rock weathering in cold regions
K. Hall

Modelling gelifluction processes: the significance of frost heave and slope gradient
C. Harris & J.S. Smith

Permafrost monitoring using time-lapse resistivity tomography
C. Hauck & D. Vonder Mühll

Mountain permafrost in the Sølen massif, Central-Eastern Norway – first results
E.S.F. Heggem, H. Juliussen & B. Etzelmüller

High Arctic saline springs as analogues for springs on Mars
J. Heldmann, O. Toon, C. McKay, D. Andersen & W. Pollard

Simulating soil freezing conditions in the laboratory
K.S. Henry & R.D. Holtz

Microclimate within coarse debris of talus slopes in the alpine periglacial belt and its effect on permafrost
T. Herz, L. King & H. Gubler

Postglacial talus-derived rock glaciers in the Gaspé Peninsula, Québec (Canada)
B. Hétu, J.T. Gray, P. Gangloff & B. Archambault
Fossil polygonal periglacial structures in Flanders (Belgium)
I. Heyse & G. Ghysels

Impact of snow fence construction on tundra soil temperatures at Barrow, Alaska
K.M. Hinkle, J.G. Bockheim, K.M. Peterson & D.W. Norton

Hydrological variations among watersheds with varying degrees of permafrost

Debris flows in the mountain permafrost zone: Hohe Tauern national park (Austria)
M. Hirschmugl

Miniature ground temperature data logger measurements 2000-2002 in the Murtel-Corvatsch area, Eastern Swiss Alps
M. Hoelzle, W. Haeberli & C. Stocker-Mittaz

Design, construction and performance of dams in continuous permafrost
I. Holubec, X. Hu, J. Wonnacott, R. Olive & D. Delarosbil

The main features of permafrost in the Laptev Sea region, Russia – a review
H.-W. Hubberten & N.N. Romanovskii

Geomorphological, geotechnical and geothermal conditions at Diavik Mines
X. Hu, I. Holubec, J. Wonnacott, R. Lock & R. Olive

Recognition of subglacial regelation ice near Pangnirtung, Baffin Island, Canada
J.A. Hyatt, F.A. Michel & R. Gilbert

The effect of surface nocturnal cooling on maintaining the mountain permafrost in central Japan
Y. Iijama & K. Fukui

A rapidly moving small rock glacier at the lower limit of the mountain permafrost belt in the Swiss Alps
A. Ikeda, N. Matsuoka & A. Kääb

Climate change and possible impact on Arctic infrastructure
A. Instanes

Mountain permafrost and energy balance on Juvvasshøe, southern Norway
K. Isaksen, E.S.F. Heggem, S. Bakkehøi, R.S. Ødegård, T. Eiken, B. Etzelmüller & J.L. Sollid

Spatial mountain permafrost modelling in the Daisetsu Mountains, northern Japan
M. Ishikawa

Seasonal thawing of soils in the Yana River valley, northern Yakutia
R.N. Ivanova

A comparative study of the surface and active layer conditions at disturbed forest sites near Yakutsk
G. Iwahana, M. Fukuda, Y. Kobayashi, T. Machimura & A.N. Fedorov

Erosion progression and adaptation strategy in a northern coastal community
K. Johnson, S. Solomon, D. Berry & P. Graham

Ground ice and carbon characteristics of eroding coastal permafrost at Beaufort Lagoon, northern Alaska
M. Torre Jorgenson, M. Macander, J.C. Jorgenson, C.-L. Ping & J. Harden

Rock glacier dynamics: implications from high-resolution measurements of surface velocity fields
A. Kääb, V. Kaufmann, R. Ladstädter & T. Eiken

Impacts of surficial permafrost landforms on surface hydrology
D.L. Kane, R.E. Gieck & L.C. Bowling
Cryogenic structure of mountain slope deposits, northeast Russia
M. Kanevskiy

Freezing n-Factors in discontinuous permafrost terrain, Takhini River Valley, Yukon Territory, Canada
K.C. Karunaratne & C.R. Burn

Quantitative analysis of rock glacier creep by means of digital photogrammetry using multi-temporal aerial photographs: two case studies in the Austrian Alps
V. Kaufmann & R. Ladsäder

Enhanced ground cooling in periods with thin snow cover in the Swiss National Park
F. Keller & M. Tamás

Measuring rock glacier surface deformation using SAR interferometry
L.W. Kenyi & V. Kaufmann

Permafrost landform degradation over more than half a century, Macmillan/Caribou Pass region, NWT/Yukon, Canada
G.P. Kershaw

Permafrost engineering problems at the turn of the XXIth century
L.N. Khrustalev

The Barrow Urban Heat Island Study: soil temperatures and active-layer thickness
A.E. Klene, K.M. Hinkel & F.E. Nelson

Sporadic and discontinous mountain permafrost occurrence in the Upper Engadine, eastern Swiss Alps
C. Kneisel

“Drunken forest” and near-surface ground ice in Mackenzie Delta, Northwest Territories, Canada
S.V. Kokelj & C.R. Burn

Water and ice transfer in porous media near the phase transition point
V.S. Kolunin

Effect of microscopic heterogeneities on water transfer in frozen ground
I.A. Komarov

Sublimation from a seasonal snow cover and an isotopic content of ice wedges in the light of a palaeoclimate reconstruction
V.N. Konishchev, V.N. Golubev & S.A. Sokratov

Concept of protection against adverse permafrost-related processes
I.P. Konstantinov

Predicting the extent of discontinuous permafrost and affiliated ground water aquifers
S.E. Kopczynski, D.E. Lawson, S.A. Arcone & C.F. Snyder

Geochemical study of the tundra landscapes in the Yenisey delta and gulfs area
E.M. Korobova, N.G. Ukraintseva, V.V. Surkov & J.B. Brown

Long-time probabilistic forecasting for temperature and phase state of soils in the permafrost zone
A.N. Kozlov, S.Y. Parmuzin & G.P. Pustovoit

Use of the solar compass to estimate the presence of permafrost
B. Krummenacher, R. Affentranger, H. Kienholz, S. Eisenring & W. Haebeli

Operation of air and liquid thermosyphons: experimental comparison
G.P. Kuzmin & R.V. Zhang
Rheology of ice/rock systems and interfaces 621
B. Ladanyi

Weathering rind measurements and relative age dating of rockglacier surfaces in crystalline regions of the Eastern Swiss Alps 627
M. Lausela, M. Egli, R. Frauenfelder, A. Kääb, M. Maisch & W. Haeberli

Seismic cone penetration test and vertical seismic profiling in permafrost 633
A.-M. LeBlanc, R. Fortier & M. Allard

Rock glacier and periglacial processes in the Mongolian Altai 639
F. Lehmkuhl, G. Stauch & O. Batkhishig

Tabular ground ice origin: cryolithological and isotope-geochemical study 645
M.O. Leibman, H.-W. Hubberten, A.Y. Lein, I.D. Streletskaia & B.G. Vanshtein

Dynamics of landslide slopes and their development on Yamal peninsula 651
M.O. Leibman, A.I. Kizyakov, L.D. Sulerzhitsky & N.E. Zaretskaia

Author Index 657
