# TABLE OF CONTENTS — VOLUME - II

**Water Resources Management — Some Vital Issues**  
(Key Note Paper on Plenary Session)  
*By K S Ramasastri*  
1-5

**International Conference on Hydrology and Watershed Management**  
(Key Note Paper)  
*By V.B. Patel*  
6-11

**Session 10 : Reservoir Sedimentation, Catchments Treatment and EIA**

Summary of Findings, Analysis of Sustainability and Suggestions  
(Key Note Paper)  
*By V.P. Jauhari*  
12-22

A HEC-HMS Based Watershed Model to Develop  
Inflow Hydrographs for a Reservoir  
*By Kalyan Kumar Bhar*  
23-29

Delineation and Conservation of Watershed in the Greater Himalayan Terrain  
*By Rekha Thakre, P. B. Deshbhratar and M. V. Nanoti*  
30-37

Evaluation of Irrigation Projects using Performance Indicators  
*By P S Sowbhagya Rao, Jyothi Prasad and K V Jayakumar*  
38-48

Design of Sluice in Embankment in case of Himalayan Rivers  
*By V. G. Bhave and M. S. Shitole*  
49-54

Strategic Environmental Assessment: A Tool for Sustainable  
Development of Multipurpose Reservoir Project  
*By M.L.Agrawal and A.K.Dikshit*  
55-62

Sediment Yield Analysis and Catchment Area Treatment Plan  
*By M.Anjaneya Prasad, S.Sita Ram Babu*  
63-69

Development of Synthetic Sediment Graph Using Hydrological Data  
*By Seyed Hamidreza Sadeghi and J.K. Singh*  
70-76
Session 11: Irrigation Management

Irrigation Management For Sustainable Agricultural Production In India  
(Key Note Paper)  
By P.B. S. Sarma  
77-91

Domestic Wastewater and Rainwater Harvesting for Lawn Irrigation  
By P. S. Mahar and R. P. Singh  
92-95

Optimal Micro Irrigation System Layout and Design for Lemon  
By D. T. Shete  
96-105

Application of Genetic Algorithms for Optimal Irrigation Reservoir Operation  
By D. Nagesh Kumar, B. Ashok, and K. Srinivasa Raju  
106-112

Estimation of Crop Coefficients for Cotton Grown in South India  
By A. Murugappan, K. Kannappan, N. Manikumari, A. Manoharan  
113-119

Inter-Disciplinary Approach to Irrigation Water Management  
By R. C. Tiwari and Er. P. N. Agrawal  
120-124

Community Participation in Watershed Development  
By A.V. Shivapur, M.N. Shesha Prakash, B.K. Purandara  
125-129

Optimization of Reservoir Operation using Dynamic Programming and Fuzzy Neural Network  
By V. Chandramouli, Manish Kumar, Chandan Mahanta  
130-135

Optimization Model of Gavoshan and Azad Parallel Reservoirs System Management in West of Iran  
By Alireza Mokhtare and Behrooz Jabbari  
136-140

Role of Indian Network for Research in Irrigation and Drainage in Promoting Exchange of Information  
141-145

Participatory Irrigation Management in Waterlogged Area  
By N.Sahoo, H.N. Verma  
146-153
Development of New Sprinkling Device Capable of Operating at Low Pressure

Problems of Water Distribution in Patna Canal Command

By A.Upadhyaya 163-171

Session 12 : Hydrogeochemical Investigations and Isotope Techniques

Role of Isotope Hydrology in India's Water Resources Development and Management (Key Note Paper)

By S.M. Rao 172-180

Hydro Geochemistry Impact on Changing Environment Pennar Delta System – East Coast of India

By CH. Ramakrishna, P. Prasada Rao, KKVS. Raju 181-187

A Study of Hydrochemical Facies with Ground Water Flow, Tupari Halla Basin, Karnataka, India

Application of Isotope Techniques for Groundwater Investigations in the Kolar Semi-Arid Region

By V P. Dinesan, A Shahul Hameed, K Vasu and E J James 193-199

Hydrochemical Study for the Delineation of Fresh Groundwater Resources in the Potharlanka-Krishna Delta, India

Geochemical Studies of Groundwater Majalgaon Taluka, Beed District, Maharashtra

By N. V. Nitnaware, V. W. Khangan, V. D. Bhole, G. Gonnade and M. Sinha 212-216

Hydrogeochemistry of Ground Water in Alluvial Plain of Northern Madhya Pradesh, India

By L. P. Chourasia 217-226
Session 13: Climate Change, Water Scarcity and Environment

The Impact of Climate Change on Water Resources Availability
(Key Note Paper)

By S. Jeevananda Reddy

Glaciers of Very High Mountains:
Water Reservoirs Submitted to the Global Warming

By Pierre Chevallier, Pierre Ribstein, Bernard Francou, Bernard Pouyaud, Yves Arnaud, Kristof Sturm, and Patrick Wagnon

Retrieval of Atmospheric moisture profiles over Indian region with two different approaches using AMSU data from NOAA-16 satellite

By Devendra Singh, R.C.Bhatia and S.K.Srivastav, Birbal Singh

Climate Change Impact on the Rivers Runoff for the Central Asian Rivers

By Victor Chub, Natalya Agaltseva & Sergey Myagkov

Effect of Climate Change on Planning of Urban Water Supply Systems – Streamflow Aspects

By Perera B.J.C. and Maheepala S.

Winter Rainfall in Southern States and its Relation to Cyclonic Storms

By A.Muthuchami, B.Ramakrishnan and RM. A.N.Ramanathan

Developing Scarcity of Water Resources and its Potential Ameliorative Measures

By R. C. Yadav

Characterization of Agricultural Drought for Upland Rainfed Rice Crop

By K. N. Tiwari, D. K. Paul and S. K. Shakya

The Influence of the Caspian Sea SSTs on the Winter and Spring Rainfalls over Northern Parts of Iran

By M.J. Nazemosadat and A.R. Ghasemi
Session 14: Water and Waste Water Treatment Technologies

Recent Advances in Biological Treatment and Environmental Monitoring
(Key Note Paper)
By C.A.Sastry 305-313

Municipal Wastewater Management Through Eco-Friendly Treatment Systems
By M N Dandigi and K V Jayakumar 314-321

Removing dyes from water with a novel adsorbent made from Neem Leaves
By Arunima Sarma, K.G.Bhattacharyya 322-330

Radiation Processing of Sewage Sludge
By M R. Shah, Naresh Kumar and P. G. Benny 331-337

Water, Waste Water Treatment Technologies
By Manashi Bhattacharyya, P.K.Roy, S.Das 338-341

Sprinkler System for Land Application of Liquid Wastes
By R. P. Singh and P. S. Mahar 342-344

Methodology and Planning Issues for Selection of Appropriate Wastewater Treatment Technologies in Developing Countries Using Decision Tree Criteria
By Devesh Sharma and Virendra Kumar 345-353

Physico-chemical Treatment as a Suitable Option for the Treatment of Coke Plant Effluent
By Mrinal K. Ghose 354-360

Safe Effluent Disposal for Patancheru – An Alternative
By SK. Moulana Mohammed, Y.Ellam Raj 361-364

Management of Water Supply to Twin Cities - A Step by Step Approach
By M.V.Vishnu Bhopal Rao and Y.Ellam Raj 365-367

Agricultural By-product as adsorbent for Color Removal from Textile Wastewater
By M.C.Somasekhara Reddy 368-374
Session 15 : Seawater Intrusion, Hydrology of Coasts and their Environment

Environmental Problems in Subsurface Water Systems in Coastal Watersheds due to Anthropogenic Activities
(Key Note Paper)
By A.Ghosh Bobba
375-389

Simulation of Seawater Intrusion in Ernakulam Coast
By Dipanjali D. Bhosale and C. P. Kumar
390-399

A Case Study on Saline Intrusion into Coastal Aquifers using Fuzzy Logic
By C.S.V.Subrahmanya Kumar
400-406

Water Quality Monitoring and Aqua Culture Impact on Coastal Tracts of West Godavari District, Andhra Pradesh.
By A.V.S.S.S. Srinivas, V.S.B.N.L.Narayana and N. Ravi Kiran
407-413

Hydrological feasibility of Chandragiri Estuary for Water Requirement of a 107 MW Thermal Power Plant in North Kerala
By M E Chandrasekharan, S Sreevallbhan and P Jaganathan
414-420

Thermal Mapping in the Kalpakkam Coast (Bay of Bengal) in the Vicinity of Madras Atomic Power Station
By B. Anup Kumar, T.S.Rao V P Venugopalan and S.V.Narasimhan
421-428

Session 16 : Remote Sensing and GIS Applications in Water Resources

Remote Sensing and GIS Applications in Water Resources Development – An Overview
(Key Note Paper)
By R.S. Goel
429-436

Drainage Morphometry to Evaluate the Geomorphic Stage of Kotgir Watershed. A.P. India
By K. Raju, G. Jagmohan Das and M. Anji Reddy
437-446

Watershed Runoff Estimation Using Remote Sensing and GIS Based SCS Method
By P. Suresh Babu, C. Muralidharan, K.Venugopal
447-455
Runoff Estimation Using Distributed Curve Number Technique: A Remote Sensing and GIS Approach

By Susanta Kumar Jena and Kamlesh Narayan Tiwari

Runoff Estimation Using GIS Techniques

By M. K. Nagaraj, Subhash C. Yaragal and G. Rajasekhar

Development of Spatial Decision Support System for Groundwater Using GIS Based Numerical Modelling Technique-Margajo Watershed, Hazaribagh

By Ashok Kumar, Lal Bihari Prasad

Urban Stormwater Management Using GIS

By A.K. Dikshit and V.A. Jain

Integrated Approach for Sakalapally Watershed Management using Remote Sensing and GIS

By Y.Raghava Rani and M.Anji Reddy

Estimation of Runoff Using Remote Sensing and Geographic Information System

By Ashish Pandey and A.K. Sahu

Monitoring of Groundwater Quality of Hyderabad Using GIS

By V.V.Nageswara Rao, Naga Prapoorna and Y. Naveen

Selection of Suitable Sites for Rain Water Harvesting Structures And Runoff Potential Areas Using G.I.S. and R.S.

By M. Anjaneya Prasad, A.Rama Murthy and M.D.N.Kumar

Environmental Studies And Their Effects on Watersheds Using RS/GIS Techniques

By G.Venkata Ramana

Delineation of Recharge Zones for Ground Water Using GIS

By K. Shirish K and Santhosh K Kyatham

Prioritization of Sub Watersheds using Remote Sensing and Physically based Hydrological Model

By V.K.Pandey, S.N.Panda, S.Sudhakar, N.S.Raghuwanshi

Integrated Water Resources Development Using RS,GIS and Information Technology- A Model on Prakasam District, AP

By N.V.Sridhar, K.Suresh Babu, S.Pavani, M.Anji Reddy
Session 17: Water Quality Pollution and Environment

Water Resources, Pollution, Water Quality Management and Monitoring

(Key Note Paper)

By Y.Anjaneyulu

Polydithiocarbamate Resin Based on Macroceticular Styrene-
Divinylbenzene Copolymer for the Removal of Trace and Heavy Metal Ions

Impact of Industrial Waste on Groundwater and Soil Characteristics
at Tuppa Area in Nanded City, Maharashtra, India

Characterization of Pulp and Paper Mill Effluent and its Impact on the
Quality of Ground Water in the Neighbouring Region

By Nikhileswar Sarma and N.D.Rajkhowa

Hydrogeophysical and Hydrogeochemical Investigations in parts of
Musi Catchment to define Ground Water Pollution

By Ch.Prem Chand, Md.Anwar and B.Venkateswara Rao

Impact of Tannery Effluent in Groundwater and Its Control in and
Around Dindigul, Tamilnadu, India

Environmental Explosive Threat to Kolleru Lake and Coastal Tracts of
West Godavari and Krishna Districts, A. P.

In Situ Water Quality Analysis: Seasonal Variations at
Panshet and Ujjani Reservoirs

By R.Dhilipkumar, K.K.Swain, Shanti Vaidya and A.K.Basu
Ground Water Contamination in the Palaeo Channels of Krishna Delta, Guntur District, Andhra Pradesh

By Mahesh B.U.Rao

Municipal Sewage, the Major Cause of Pollution in Hussainsagar Lake

By M. Vikram Reddy and A. Vijay Kumar

Laboratory Cross-checking of Field Arsenic Measurement: Its Importance in Contaminated and Uncontaminated Drinking Water Sources Screening in Bangladesh

By Abul Kalam Azad

Impact of Mining on Water Regime in Jharia Coalfield India its Management

By Mitun Dutta, Rekha Ghosh and Gurdeep Singh

Session 18: Rainwater Harvesting and Drinking Water Supplies

Drinking water supply and water Harvesting

(Key Note Paper)

By V.B. Patel

Sustainability of Groundwater Resources Depends on Rain Water Harvesting To Recharge the Deleted Aquifers

By K.C.B.Raju

Evaluation of Water Supplies in an Urban Environment: Role of Water Budgeting

By S.V.Vijaya Kumar, S.M.Saheb

Hydrological Behaviour of Natural Water Springs and their Utilization for Drinking Water Supply in Garhwal Hills of Uttarakhand

By Anil Kumar, Pravendra Kumar and J. K. Singh

Transportation of Psychrophilic Bacteria in Groundwater

By M. Sridhar Venkatesh

Characterisation of Algal Mat from the Bottom Sediments of Hussainsagar Lake, Guntur, Andhra Pradesh

By S. V. S. R. K. Sai Tej

Combating arsenic in water in rural Andhra Pradesh: A case study of Vizianagaram district

By A. Bhaskara Reddy, A. G. Ramesh Kumar, K. J. Sreyathilak, M. A. Khan and C. Praveen Reddy

Effect of Urbanization on Groundwater Quality in the Haridwar District of Uttarakhand, India

Pollution of Groundwater by Heavy Metals in Some Areas of Haridwar District, Uttarakhand, India

Drinking Water Problem in Anathazhchira – A Tank Site in Thiruvananthapuram Midland Belt

By M. Nazimuddin and S. Sreevallabhan 689-693

Assessment of Rainwater Harvesting Potential and Design of Rainwater Harvesting Structures for Unit Catchment Area Based on Rainfall Time Series Analysis for Arid and Semi-arid Regions in Gujarat

By M. K. Khandelwal 694-703

Policy Issues Related to Rainwater Management in Semi-Arid India

By K.D. Sharma 704-712

Design of Detention and Retention Facilities for Stormwater Management

By T. Brahmachary and K.V. Jaya Kumar 713-717

Design of Water Harvesting System for Dhinikli Watershed in Udaipur District of Rajasthan

By R. K. Sahu and Arun Sharma 718-725
