The Subseafloor Biosphere at Mid-Ocean Ridges

William S.D. Wilcock
Edward F. DeLong
Deborah S. Kelley
John A. Baross
S. Craig Cary
Editors
# CONTENTS

## Introduction

The Subsurface Biosphere at Mid-Ocean Ridges: Issues and Challenges  
*John A. Baross, William S. D. Wilcock, Deborah S. Kelley, Edward F. DeLong, S. Craig Cary*  

1

## Physical Limits to Subsurface Life

### The Upper Temperature Limit for Life Based on Hyperthermophile Culture Experiments and Field Observations

*James F. Holden and Roy M. Daniel*  

13

### The Stability of Biomolecules and the Implications for Life at High Temperatures

*Roy M. Daniel, James F. Holden, Jolanda Truter, Don A. Cowan, and Renate van Eckert*  

25

### On the Edge of a Deep Biosphere: Real Animals in Extreme Environments

*James J. Childress, Charles R. Fisher, Horst Felbeck, and Peter Girguis*  

41

## The Subseafloor Environment at Mid-Ocean Ridges

### Geophysical Constraints on the Subseafloor Environment Near Mid-Ocean Ridges

*William S. D. Wilcock and Andrew T. Fisher*  

51

### Diking, Event Plumes, and the Subsurface Biosphere at Mid-Ocean Ridge

*Robert W. Embley and John E. Lupton*  

75

### Fluid Flow and Fluid-Rock Interaction Within Ocean Crust: Reconciling Geochemical, Geological, and Geophysical Observations

*Wolfgang Bach, Susan E. Humphris, and Andrew T. Fisher*  

99

### Serpentinization of Oceanic Peridotites: Implications for Geochemical Cycles and Biological Activity

*Gretchen L. Früh-Green, James A. D. Connolly, Alessio Plas, Deborah S. Kelley, and Bernard Grobety*  

119

### Environmental Conditions Within Active Seafloor Vent Structures: Sensitivity to Vent Fluid Composition and Fluid Flow

*Margaret Kingston Tivey*  

137

## Energy Sources and Physiological Diversity

### Geochemical Energy Sources That Support the Subsurface Biosphere

*Everett L. Shock and Melanie E. Holland*  

153

### Volatiles in Submarine Environments: Food for Life

*Deborah S. Kelley, Marvin D. Lilley, and Gretchen L. Früh-Green*  

167

### Activation of Diatomic and Triatomic Molecules for the Synthesis of Organic Compounds: Metal Catalysis at the Subseafloor Biosphere

*George W. Luther, III*  

191
Potential Importance of Dissimilatory Fe(III)-Reducing Microorganisms in Hot Sedimentary Environments
Kazem Kashefi, Dawn. E. Holmes, Derek R. Lovley, and Jason M. Tor………………………………………199

Significance of Polysaccharides in Microbial Physiology and the Ecology of Hydrothermal Vent Environments
Marybeth A. Pysz, Clemente I. Montero, Swapnil R. Chhabra, Robert M. Kelly, and Kristina D. Rinker……………………………………………………………………………………………………213

Environmental Dynamics and Variability

Detection of and Response to Mid-Ocean Ridge Magmatic Events: Implications for the Subsurface Biosphere
James P. Cowen, Edward T. Baker, and Robert W. Embley…………………………………………………227

Diffuse Flow Hydrothermal Fluids From 9°50’N East Pacific Rise: Origin, Evolution and Biogeochemical Controls
Karen L. Von Damm and Marvin D. Lilley ………………………………………………………………………..245

Mixing, Reaction and Microbial Activity in the Sub-seafloor Revealed by Temporal and Spatial Variation in Diffuse Flow Vents at Axial Volcano
David A. Butterfield, Kevin K. Roe, Marvin D. Lilley, Julie A. Huber, John A. Baross, Robert W. Embley, and Gary J. Massoth…………………………………………………………………………………………269

Illuminating Subseafloor Ecosystems Using Microbial Tracers
Melanie E. Holland, John A. Baross, and James F. Holden………………………………………………………291

Sedimented Ridges as a Laboratory for Exploring the Subsurface Biosphere
Robert A. Zierenberg and Melanie E. Holland……………………………………………………………………305

Global Distribution and Comparisons

The Ocean Crust as a Bioreactor
Hubert Staudigel, Bradley Tebo, Art Yayanos, Harald Furnes, Katie Kelley, Terry Plank, and Karlis Muehlenbachs……………………………………………………………………………………………….325

Diversity of Life at the Geothermal Subsurface-Surface Interface: The Yellowstone Example
John. R. Spear and Norman R. Pace……………………………………………………………………………………343

Unifying Principles of the Deep Terrestrial and Deep Marine Biospheres
Frederick S. Colwell and Richard P. Smith…………………………………………………………………………355

Distribution of Unusual Archaea in Subsurface Biosphere
Ken Takai, Fumio Inagaki, and Koki Horikoshi……………………………………………………………………369

Future Directions

Studying the Deep Subsurface Biosphere: Emerging Technologies and Applications
