# Table of Contents

Chapter 1 Executive Summaries  
1.1 Non-Specialist  
1.2 Specialist  

Chapter 2 Background to the Study  

Chapter 3 Earthquake Hazard — Preliminaries  
3.1 Active Tectonics of the Levant and Dead Sea Fault Zone  
3.2 Historical Seismicity  
3.3 Estimates of Rates  
3.4 Twentieth Century Seismicity of the Levant and Lebanon  

Chapter 4 Magnitude Recurrence in Lebanon and Adjacent Regions  

Chapter 5 Synthesis of Seismicity and Rate Information  

Chapter 6 Selection of Attenuation Relationship  
6.1 Peak Ground Acceleration (PGA)  
6.2 Peak Ground Displacements (PGD)  
6.3 Acceleration Response Spectra (SA)  
6.4 Displacement Response Spectra (SD)  

Chapter 7 Source Zone Modelling and Recurrence Relationship  
7.1 Completeness Test  
7.2 Source Zone Modelling  
7.3 Dead Sea Rift Zone  
7.4 East Anatolian Fault Zone  
7.5 Yammouneh Fault Zone  
7.6 Maximum Magnitudes  

Chapter 8 Hazard Maps  
8.1 Peak Ground Accelerations (PGA)  
8.2 Peak Ground Displacements (PGD)  
8.3 Spectral Accelerations (SA) and Spectral Displacements (SD)  

Chapter 9 Site-Specific Hazard Assessments  
9.1 City of Beirut  
9.2 City of Tripoli  
9.3 City of Sidon
