The Overstory Book:
Cultivating Connections with Trees
2nd Edition

Craig R. Elevitch
Editor

Permanent Agriculture Resources
www.agroforestry.net
## Contents

### Learning from Traditional Knowledge 1
- Agroforestry 2
- Tropical Homegardens 5
- Introduction to Indigenous Knowledge 8
- Ethnoforestry 13
- Cultural Landscapes 17
- Forest Islands (Kayapo Example) 20
- Complex Agroforests 23
- Trees, Forests and Sacred Groves 30
- Biodiversity and Protected Areas 35
- Traditional Pacific Island Agroforestry Systems 37
- Protecting and Expanding Traditional Agroforests 41
- Wild Foods In Agricultural Systems 44
- Underutilised Indigenous Fruit Trees 49
- Forest Biodiversity 53

### Small and Unseen Allies 59
- Microlife 60
- The Soil Foodweb: It’s Role in Ecosystem Health 62
- Mycorrhizae 66
- Mycorrhizas: Producing and Applying Arbuscular Mycorrhizal Inoculum 68
- The Role of Mushrooms in Nature 74
- Biological Nitrogen Fixation 81
- The Rhizosphere 83
- Microsymbionts 88

### Animal Assistants 95
- Microlivestock 96
- Agroforestry and Biological Diversity 98
- Bees and Agroforestry 100
- Pest Prevention through Ecological Design 103
- Animals in Agroforestry 105
- Silvopasture 107
- Productivity of Animals in Agroforestry Systems 110
- Fodder Tree Establishment 113

### Protecting Land from Wind, Erosion, Intruders, and Noise 129
- Soil and Water Conservation 130
- Buffers: Common Sense Conservation 135
- Vegetative Erosion Barriers 137
- Windbreak Design 141
- Multipurpose Windbreaks 146
- Animal Shelter 149
- Live Fences 152
- Trees as Noise Buffers 155
- Living Snow Fences 157
- Fire 160

### Saving Water, Soil, and Fertility 165
- Microcatchment 166
- Five Fertility Principles 168
- Tropical Green Manures/Cover Crops 171
- Carbon Sequestration: Storing Carbon in Soils and Vegetation 174
- Forests and Water 177
- Effects of Trees on Soils 179
- Greywater for Trees and Landscape 183

### Restoring Land 189
- Tropical Forest Conservation 190
- Foster Ecosystems 200
- Pioneering Difficult Sites 203
- Reforestation of Degraded Lands 205
- Improved Fallow 210
- Direct Seeding 212
- Land Husbandry 217
- Land Management: Caring for Resources 223

### Growing Trees for Forestry 227
- Farm Forestry 228
- Integrating Forestry into Farms 231
- Choosing Species for Timber Production and Multiple Benefits 236
- Coppice-with-Standards: New Forestry with Ancient Roots 240
- Optimizing Commercial Timber Potential from Farm Forestry 245
- Farm Forestry Extension 249

### Tropical Forage Tree Legumes 119
- Animal Tractor Systems 125
### More than Trees: Understory and Nontimber Forest Products 253
- Understory: A Unique Niche for Valuable Crops 254
- Integrating Understory and Tree Crops 256
- Sequential Planting 259
- Nontimber Forest Products: An Introduction 261
- Nontimber Forest Products Enterprises 265
- Nontimber Forest Products (Temperate) 269
- Between Wildcrafting and Monocultures: Agroforestry Options 276
- Medicinal and aromatic plants in agroforestry systems 282
- The Hidden Bounty of the Urban Forest 291
- Urban Forestry 296

### Useful Species 301
- Multipurpose Palms 302
- Perennial Leaf Vegetables 305
- Bamboos in Agroforestry 308
- Bamboos 310
- Mushrooms in Agroforestry 316
- Nitrogen Fixing Trees 320
- Multipurpose Trees 322
- Fast Food (Part 1) 324
- Fast Food (Part 2) 326

### A Great Start 329
- Observation 330
- Microenvironments (Part 1) 332
- Microenvironments (Part 2) 335
- Patchiness: Living in the Real World 339
- Weeds as a Resource 342
- Getting Started: Diversity of Species 344
- Sheet Mulch: Greater Plant and Soil Health with Less Work 346
- Start Small...and Expand on Successes 351
- Getting Started in Farm Forestry 353

### Seeds, Seedlings, and Tree Basics 361
- Selected Tree Seed 362
- Guidelines for Seed Production of Agroforestry Trees 364
- Seed Source Establishment and Management 368
- Seed Sources 373
- Seed Collection 377
- Invasive Woody Plants 383

### Designing with Nature 423
- Integrated Systems Approach 424
- Designing Resource Systems 426
- Observe and Interact 428
- Revegetation Planning for Farm Forestry 433
- Permaculture 437
- Agroecology: principles and strategies 444

### Improving Income 449
- Value-Added Products 450
- The Full Extent of Value Adding: It Starts with Forest Management 452
- Value-Added Enterprises for Small-Scale Farmers 456
- Marketing Principles 459
- Niche Markets 461
- Direct Marketing 464

### Human Connections 471
- Native Intelligence 472
- Human Health and Agroecosystems 475
- Sustaining Physical Health 477
- Cultivating Connections with Other Farmers 480
- Creating an Internship 482
- Giving back: making research results relevant to local groups and conservation 485
- The Contribution of Forestry to Food Security 491

### Learning More (Resources) 495
- The Agroforester’s Library 496
- Glossary for Agroforestry Practices 508

### General Index 511

### Botanical Names Index 521
