Foreword v  
Preface vii  

Chapter 1  Introduction and overview 1  
Ligia Noronha  

Part I  Tourism driver and coastal ecosystems  

2  Tourism: spatial dimension and driving force 31  
N Lourenço and R Jorge  

3  The Baga-Nerul watersheds: tourism, local stakes, and transformations 61  
K S Nairy, S Kazi, M Abraham, and R Jorge  

4  Resource-use patterns in the tourism accommodation sector 95  
S Kazi and K S Nairy  

5  Land cover patterns 121  
E Feoli and P Giacomich  

6  Coastal vegetation: patterns in a tourist region 131  
T G Jagtap, K Desai, and R Rodrigues  

7  Landform changes from remote sensing data 151  
PV Sathe and K Sawkar  

8  Groundwater vulnerability assessment of the Goa case study area 167  
J P Lobo-Ferreira, A G Chachadi, Manuel M Oliveira, Kai Nagel, and P S Raikar  

9  Measuring, modelling, and grading the health of water bodies 179  
Kalidas Sawkar, PVethamony, M T Babu, Caroline Dias, Analia Mesquita, Blasco Fernandes, Shubha Moses, Padmavati M, and Sushant Naik  

10 Bacteriological quality of creeks and marine water bodies in North Goa: ecosystem upkeep perspectives for tourism-related activities 211  
N Ramaiah, Anita Sadhasivan, and Sumitha R Iyer  

11 Assimilation potential of water column biota: mesocosm-based evaluations 231  
N Ramaiah, Azra Ansari, Anita Sadhasivan, Sushant Naik, and K Sawkar
PART II LINKING SOCIAL AND ECOLOGICAL SYSTEMS

12 Changing uses, ecosystem valuation, and perceptions: the case of *khazans* in Goa 253
   *Ligia Noronha and K S Nairy*

13 Modelling environmental loads from tourism 269
   *Meeta Mehra and Sreekanth Venkataraman*

14 Application of optimization models for satisfaction of water resource demand of tourist infrastructure 305
   *J P Lobo-Ferreira, Maria C Cunha, A G Chachadi, Kai Nagel, Catarina Diamantino, and Manuel M Oliveira*

15 Predicting land cover change due to tourism 321
   *E Feoli and P Giacomich*

16 Spatial integration of environmental and socio-economic data 331
   *Anna Lleopart and Jordi Marturià*

PART III DESIGNING NEW APPROACHES TO MANAGING COASTAL TOURISM

17 Building scenarios to address stakeholder concerns 347
   *Ligia Noronha, S Kazi, and Meeta Mehra*

18 Driving force, pressure, and impact indicators for a tourism destination 367
   *S Sonak, Ligia Noronha, and M Abraham*

19 A new methodology for delineating wellhead protection areas 387
   *J P Lobo-Ferreira, Bas Krijgsman, and A G Chachadi*

20 Sustainability and decision tools for coastal areas 405
   *Jordi Marturià and Anna Lleopart*

21 Managing coastal tourism: perspectives from India and the European Union 419
   *Ligia Noronha, N Lourenço, J P Lobo-Ferreira, E Feoli, A Lleopart, K Sawkar, and A G Chachadi*
