Forestry Serving Urbanised Societies

Selected papers from the conference held in Copenhagen, Denmark, from 27 to 30 August 2002

Jointly organised by

IUFRO
(as the first European Regional Conference),
EFI (European Forest Institute),
Danish Centre for Forest, Landscape and Planning - KVL

Editors
Cecil C. Konijnendijk, Jasper Schipperijn, Karen K. Hoyer

Typesetting
Nelly Leth and Jette Alsing Larsen (Danish Centre for Forest, Landscape and Planning - KVL)
Table of contents

Preface 3

Table of contents 5

Introduction

- Forestry serving urbanised societies - Cecil C. Konijnendijk, Karen K. Hoyer & Jasper Schipperijn 7

Plenary Session I: The development of urban forestry - a people-based approach

- Urban forestry: History and introduction - Robert W. Miller 17
- Urban forestry in Asia: State of the art - Armando M. Palijon 25

Plenary Session II: The environmental functions and benefits of forests and trees in urban societies

- Sustainable and green: ECOPOLIS and urban planning - Sybrand P. Tjallingii 43

Plenary Session III: Socio-economic aspects of forests and trees in urban societies

- Marketing of forest products serving urbanised societies - Heikki Juslin 67
- Task-oriented comprehensive urban forestry - A strategy for forestry institutions - Max Krott 79

Plenary Session IV: Degraded land areas in urban societies and the need for innovative forest management

- Ecology of disturbed landscapes - A case study from Germany - Reinhard F. Hüttl & Werner Gerwin 93
- Urban forestry for land regeneration - The UK example - Nerys Jones 105

Plenary Session V: Threats to forests and their sustainability in urban societies

- Sustainable forest management in National Forest Programmes - A European perspective - Piotr Paschalis-Jakubowicz 121
- Urban trees and air pollution - Elena Paoletti, David F. Karnosky & Kevin E. Percy 129
- Forest fires in urbanised societies: Status and management - Francisco Rego & Helena Martins 155

Plenary Session VI: Forests and trees in urban societies - The social agenda

- The social values of forests and trees in urbanised societies - Rachel Kaplan 167
- Health benefits of a more natural living environment - Sjerp de Vries 179
Working group 4.01: Mensuration and modelling in the context of urban forestry
- The application of GIS to the management of parks
  - Ramon Fernández, Mercedes Hernández, Antonio Prieto, Santiago Soria & José A. Sáiz de Omeñaca

Working group 6.03.02: Trends in forest terminology - Urban forestry
- A collaborative approach to developing a multilingual forestry thesaurus
  - Gillian Petrokofsky, Barbara Richards & Niels Bruun de Neergaard

Working group 6.14.00(1): Urban forestry - Advances in social and health aspects
- Some hidden benefits of the urban forest - Stephen Kaplan
- What do urbanised and rural societies in Europe expect from their forests - Birgit H.M. Elands, Tomás N. O'Leary & K. Freerk Wiersum
- Children and the urban landscape - Neighbourhood as setting of children's everyday life - Susanne Guldager & Trine A. Jensen

Working group 6.14.00(2): Urban forest resources and advances in ecological research
- History and age of old limes (Tilia spp.) in Tallinn, Estonia - Alar Läänelaid & Heldur Sander
- The comparison of various methods in urban forestry mensuration in Iran - Parisa Panahi, Mahmoud Zobeiri, Mehdi Pourhashemi, Seyyed Mohsen Hoseini & Majid Mahdoum
- Quantitative and qualitative study of afforestations in Chitgar forest park in Iran - Mehdi Pourhashemi, Mohammad Reza Marvi Mohajer & Mahmoud Zobeiri
- Tree conditions and soil properties of Moscow sites - Olga V. Makarova & A. Jos Koolen
- Reverting urban exotic pine forests to Macchia and indigenous forest vegetation using cable-yarders on the slopes of Table Mountain, South Africa - Pierre Ackerman & Bruce Talbot
- Fire in the wildland-urban interface in the USA South - Annie Hermansen, Wayne H. Smith, Alan J. Long, K. Randall, Anna L. Behm & Douglas Doran
- Application of biowaste compost in urban forests - Chances and risks - Michael Stockinger & Monika Sieghardt

Working group 6.14.00 (3): Urban forestry as a development tool
- Successful urban forestry in the city centre - Is it all about image? - Alan Simson
- Urban forestry in Curitiba - A model for Latin-American cities? - Peter Spathelf & Leif Nutto

Working group 6.18.00: Gender issues in forestry serving urbanised societies
- Local Agenda 21 - A key to gender and forestry? - Renate Späth
- Women and agriculture - Lessons for forestry? - Helene Oldrup
- Evaluation of the book <<Kvinna och skogsägare>> (Woman and forest owner) - Malin Nilsson
- Ways and examples of implementing gender issues into forestry curricula - Siegfried Lewark
- Careers of female forest engineers in Germany - Example of graduates from the University for Applied Sciences and Arts Hildesheim/Holz-minden/Göttingen - Sigrid Schmaltz
