Context:
Nature, Impact, and Role

5th International Conference on Conceptions of Library and Information Sciences, CoLIS 2005
Glasgow, UK, June 4-8, 2005
Proceedings
Table of Contents

Invited Papers

Wittgenstein, Language and Information: “Back to the Rough Ground!”
   David C. Blair ................................................................. 1

Text, Co-text, Context and the Documentary Continuum
   Elisabeth Davenport ..................................................... 5

Representing Context

The Sense of Information: Understanding the Cognitive Conditional
   Information Concept in Relation to Information Acquisition
   Peter Ingwersen, Kalervo Järvelin ..................................... 7

Practical Implications of Handling Multiple Contexts in the Principle
   of Polyrepresentation
   Birger Larsen ............................................................... 20

Information Sharing and Timing: Findings from Two Finnish
   Organizations
   Gunilla Widén-Wulff, Elisabeth Davenport .......................... 32

Context and Relevance in Information Seeking

Contexts of Relevance for Information Retrieval System Design
   Erica Cosijn, Theo Bothma ............................................. 47

Searching for Relevance in the Relevance of Search
   Elaine G. Toms, Heather L. O'Brien, Rick Kopak, Luanne Freund .... 59

Information Searching Behaviour: Between Two Principles
   Nick Buzikashvili .......................................................... 79

Context and Information

Bradford’s Law of Scattering: Ambiguities in the Concept of “Subject”
   Birger Hjørland, Jeppe Nicolaisen ................................... 96

The Instrumentality of Information Needs and Relevance
   Olof Sundin, Jenny Johannisson ....................................... 107
