Water Resources of Arid Areas

Edited by

D. Stephenson
Civil Engineering Department, University of Botswana, Gaborone, Botswana

E.M. Shemang & T.R. Chaoka
Department of Geology, University of Botswana, Gaborone, Botswana
Table of Contents

Preface XI

Keynote address
Sustainable water management in arid and semi-arid environments
W. Kinzelbach, P. Bauer, P. Brunner & T. Siegfried 03

Theme A: Problems in obtaining hydrological and geo-hydrological data
Slug tests in fractured rock formations: value, pitfalls and misinterpretations
P.D. Vermeulen & G.J. van Tonder 17
Flow simulation model performance assessment using entropy approach
A.M. Ilunga & D. Stephenson 23
Data collection experiences in water level monitoring, borehole archive and research projects in semi arid Botswana
M. Magowe, T. Obakeng & P. Makobo 29
Rainfall characteristics in semi-arid Kitui district of Kenya
Quantification of the impact of irrigation on the aquifer under the Vaalharts Irrigation Scheme
R.G. Ellington, B.H. Usher & G.J. van Tonder 47

Theme B: Groundwater recharge: natural and artificial
Groundwater development - identification of artificial recharge areas in Alla, Eritrea
K.S. Viswanatham, F. Tesfaslasie, M. Asmellash, A. Kumar & S.A. Drury 59
Subterraneous injection of nutrient rich groundwater to the coastal waters
K.K. Balachandran & J.S. Paimpillil 67
A new method for the estimation of episodic recharge
J. Bean, G. van Tonder & I. Dennis 73
Prioritisation of the impacts of pollutants on groundwater flow systems in South Africa
I. Dennis, B. Usher & J. Pretorius 79
Understanding problems of low recharge and low yield in boreholes: an example from Ghana
A.J.E. Cobbing & J. Davies 87
Spatial variation of groundwater recharge in semi-arid environment - Serowe, Botswana
L.M. Magomboedze, B. Frengstad & M.W. Lubczynski 97
Quantification of artificial ground water recharge
G.C. Mishra 105

Remote sensing and electrical resistivity studies on groundwater structure zones in Central Butana (Sudan) 259
K.M. Kheiralla & A.E. Ibrahim

Monitoring and modeling of fluxes on Kalahari – setup and strategy of the Kalahari Monitoring project. Serowe study case, Botswana 271
M.W. Lubczynski & O. Obakeng

Geoelectrical investigation for aquifer delineation in the semi-arid Chad Basin, Nigeria 279
A. Iliya & E.M. Shemang

Monitoring of evapotranspiration on Kalahari, Serowe case study, Botswana 285
O. Obakeng & M.W. Lubczynski

Electro-seismic survey system 297
S.R. Dennis, M. du Preez & G.J. van Tonder

Borehole site investigations in volcanic rocks of Lomolok area, Samburu district, Kenya 303
J.K. Mulwa

Groundwater evaluation in a complex hydrogeological environment – a GIS based approach 315
B. Mudzingwa, J.L. Farr, R. Gumiremhete & T. Kellner

Application of 2-D resistivity imaging combined with time domain electromagnetic survey to map shallower aquifers in Kunyere valley, northwest Botswana 323
E.M. Shemang, H. Kumar & J. Ntsatsi

**Theme E: Climate change and its impact**

Hydraulic studies in the design of sand dams 331
A.S. Nzaba, H.O. Farah, T.C. Sharma & C.W.M. Sitters

Designing and implementing an aircraft survey mission using high-resolution digital multi-spectral camera for vegetation mapping for upscaling transpiration of Serowe, Botswana 341
Y.A. Hussin, M.W. Lubczynski, O. Obakeng & D.C. Chavarro

Relevance of groundwater interaction with surface water to the eco-hydrology of semi-arid regions 347
J.Y. Diiwu

Impacts of climate change in water resources planning and management 357
A. Opere

Turning a liability into an asset: the case for South African coalmine waters 363
B.H. Usher & F.D.I. Hodgson

Environmental hydrogeology of the dolomite aquifer in Ramotswa, Botswana 371
M. Staudt & H. Vogel

Investigation of natural enrichment processes of nitrate in soil and groundwater of semi-arid regions: case study – Botswana 379

Hydroclimatological approach to sustainable water resources management in semi arid regions of Africa 389
U.T. Umoh
Impact of cultivation practices on multiple uses of water in the Alemaya catchment, eastern Ethiopia
Y.E. Woyessa & A.T.P. Bennie

Geochemical evidence and origin of salinity in the shallow basinal brine from the Makgadikgadi Pans Complexes, northeastern Botswana
L.N. Molwalefhe

Theme F: Vulnerability and risk
Decision support for optimal water system planning: a Wadessy case study
A.A. Ilemobade & D. Stephenson

The importance of constructing a correct conceptual model for an aquifer
G. van Tonder, I. Dennis & D. Vermeulen

Water resources development and risk assessment in mountain regions of Africa
H. Scheuerlein

Reliability, resilience and vulnerability for reservoir sizing and operation
J.G. Ndiritu

Hydrological impact of dam construction in an arid area
D. Stephenson & Z. Chengeta

The geochemistry of fresh water supplies in Botswana
L. Molwalefhe & S. Vriend

Groundwater modelling with limited data: a case study of Yobe River Basin, North East Nigeria
M. Hassan, R.C. Carter & K.R. Rushton

Theme G: Water resources management
Apple and grape vinegar application as c-source in water denitrification
S. Aslan & A. Türkman

Water resources management in the Uluru-Kata Tjuta National Park, central Australia
E.R. Rooke

Integrated water resources management and agriculture in southern Africa
M. McCartney, H. Sally & A. Senzanje

Challenges for managing water resources in semi-arid areas: a case study from two rural communities in Zimbabwe
F.T. Mugabe & A. Senzanje

An Integrated Water Resources Management tool for Southern Africa allowing low flow estimation at ungauged sites
M.J. Fry, S.S. Folwell, H.A. Houghton-Carr & Z.B. Uka

Organization of water services in Malawi and strengths and weaknesses in implementing Integrated Water Resources Management (IWRM)
M. Selemani

Towards best water resources management practice in small town water supply system in Tanzania
A. Mvungi & M. Makuya
Water management in the Mauritian textile wet processing industry
N. Kistamah & S. Roseunee

Analysis of the microbiological situation of the quality of domestic water sources and identification of the microorganisms in them, located in the semi-arid regions of the Eastern Cape, South Africa
M. Zamxaka, G. Pironcheva & N.Y.O. Muyima

Dry season Kalahari sap flow measurements for tree transpiration mapping – Serowe study case, Botswana

Heavy metals and radioactivity in the groundwater of Khartoum State, Sudan
A.M. Ahmed

Impediments to the effective implementation of a groundwater quality Protection strategy in Botswana
T.R. Chaoka, E.M. Shemang, B.F. Alemaw & O. Totolo

Spatial assessment of groundwater pollution vulnerability of the Kanye wellfield in SE Botswana
B.F. Alemaw, E.M. Shemang & T.R. Chaoka

The effect of socio-economic activities on watershed management: the case study of Gaborone Dam catchment in Botswana
G.S. Thabeng & D.B. Kemiso

Author index
