Sewer Processes and Networks IV

Selected Proceedings of the 4th International Conference on Sewer Processes and Networks, held in Funchal, Madeira, Portugal, 22-24 November 2004

Issue Editor: J Saldanha Matos
Departamento de Engenharia Civil e Arquitectura do Institute Superior Tecnico da Universidade Tecnica de Lisboa, Portugal
Contents

Preface

Integrated approaches
1 Contribution of Geographic Information Systems and location models to planning of wastewater systems  J.P. Leitao, J.S. Matos, A.B. Gongalves and J.L. Matos
9 Wet-weather urban discharges: implications from adopting the revised European Directive concerning the quality of bathing water  L.M. David and J.S. Matos

Water quality, hydraulics and hydrodynamics
29 Computational fluid dynamic prediction of the residence time of a vortex separator applied to disinfection  D. Egarr, M.G. Faram, T. O'Doherty, D. Phipps and N. Syred
37 Air and gas pockets in sewerage pressure mains  C.L. Lubbers and F. Clemens
45 Calibration and validation of multiple regression models for stormwater quality prediction: data partitioning, effect of datasets size and characteristics  M. Mourad, J-L Bertrand-Krajewski and G. Chebbo

Wastewater characteristics and pollution removal
53 Spatial variability of characteristics and origins of urban wet weather pollution in combined sewers  M. Kafi-Benyahia, M.G. Gromaire and G. Chebbo
63 Stormwater quality modelling in combined sewers: calibration and uncertainty analysis  A. Kanso, G. Chebbo and B. Tassin

Sewer solids - characterization, transport and transformations
73 Sewer solids-20 years of investigation  R. Ashley, J.-L. Bertrand-Krajewski and T. Hvitved-Jacobsen
85 Forces on sanitary solids in small sewers  D. Butler, K. Littlewood and N. Oman
93 Suspended solids transport: an analysis based on turbidity measurements and event based fully calibrated hydrodynamic models  J.G. Langeveld, R.G. Veldkamp and F. Clemens
103 Nature and dynamic behaviour of organic surface layer deposits during dry weather  C. Oms, M.C. Gromaire, G. Chebbo
111 Grain size distribution of metals and polycyclic aromatic hydrocarbons in silt trap sediments from the combined sewer network of Paris (France)  R. Moilleron, J. Perez and S. Garnaud
119 Hydrocarbons and heavy metals fixed to the lift station sediment of the Paris combined sewer network  J. Gasperi, V. Rocher, T. Celaudon, R. Moilleron and G. Chebbo
129 Investigating the effect of storm events on the particle size distribution in a combined sewer simulator  C.A. Biggs, C. Prall, S. Tait and R. Ashley
In sewer processes - aerobic, anoxic and anaerobic transformations

137 Detailed observation and measurement of sewer sediment erosion under aerobic and anaerobic conditions  A. Schellart, R. Veldkamp, M. Klootwijk, F. Clemens, S. Tait, R. Ashley and C. Howes

147 Effect of detached/re-suspended solids from sewer sediment on the sewage phase bacterial activity  H. Derek Leung, G. Chen and K. Sharma

153 Identification of overall degradation in sewer systems from long-term measurements and consequences for WWTP simulations  M. Ahnert, V. Kuehn and P. Krebs

163 Aerobic transformations in sewer systems: are they relevant?  C. Flamink, J. Langeveld and F. Clemens

181 Model concept for nitrate and nitrite utilization during anoxic transformation in the bulk water phase of municipal wastewater under sewer conditions  S. Abdul-Talib, Z. Ujang, J. Vollertsen and T. Hvitved-Jacobsen

191 Anoxic sulfide oxidation in wastewater of sewer networks  W. Yang, J. Vollertsen and T. Hvitved-Jacobsen

201 Simulation of sulfide buildup in wastewater and atmosphere of sewer networks  A.H. Nielsen, C. Yongsiri, T. Hvitved-Jacobsen and J. Vollertsen

Infiltration in sewers

209 Quantification of infiltration into sewers based on time series of pollutant loads  O. Kracht and W. Gujer

219 Infiltration in sewer systems: comparison of measurement methods  J. De Benedittis and J.-L. Bertrand-Krajewski

229 Measurement of infiltration rates in urban sewer systems by use of oxygen isotopes  J. De Benedittis and J.-L. Bertrand-Krajewski
