Contents

Abstract 3
Foreword 5

Introductory and invited papers

*Virgin and natural forests in the temperate zone of Europe 11
Parviainen, J.

Virgin and natural forests in Ukraine: state, diversity and protection 21
Parpan, V.; Shparyk, Y.; Parpan, T.

Carpathian Biosphere Reserve: conservation and sustainable utilisation 30
Hamor, F.

*Virgin forests as a knowledge source for central European silviculture: reality or myth? 37
Brang, P.

*The biodiversity values of European virgin forests 51
Duelli, P.; Chumak, V.; Obrist, M. K.; Wirz, P.

*Socio-economic values of natural forests 61
Slee, B.

Forest influence on runoff generation 72
Hegg, C.; Badoux, A.; Witzig, J.; Lüscher, P.

Structure and dynamics of natural and managed forests

*Gap disturbance patterns of a Fagus sylvatica virgin forest remnant in the mountain vegetation belt of Slovenia 81
Zeibig, A.; Diaci, J.; Wagner, S.

Canopy gaps in virgin beech forest in Havešová Reserve 93
Drössler, L.; Lüpke, B. v.

The dynamics of virgin beech forests in the Ukrainian Carpathians 100
Chernyavskyy, M.

*Structures of virgin and managed beech forests in Uholka (Ukraine) and Sihlwald (Switzerland): a comparative study 109
Commarmot, B.; Bachofen, H.; Bundziak, Y.; Bürgi, A.; Ramp, B.; Shparyk, Y.; Sukhariuk, D.; Viter, R.; Zingg, A.

Computer simulations of natural beech forest dynamics in the Boberka river basin in the Ukrainian Beskids. 121
Kozak, I.; Menshutkin, V.; Parpan, V.; Shparyk, Y.; Parpan, T.; Viter, R.; Kozak, O.; Senko, Z.

Description of the decay stage in a natural oriental beech (Fagus orientalis Lipsky) forest in Iran: preliminary results 130
Sagheb-Talebi, Kh.; Delfan Abazari, B.

Natural Forests of Pedunculate Oak (Quercus robur L.) in Croatia 135
Anic, I.; Matic, S.; Orsanic, M.

*Natural disturbances in Central European forests: approaches and preliminary results from Rothwald, Austria 143
Splechtna, B. E.; Gratzer, G.
Interactions of light and regeneration in Slovenian Dinaric Alps: patterns in virgin and managed forests
Diaci, J.; Rozenbergar, D.; Boncina, A.

General stability of a natural forest reserve, Slatioara, in the northern part of the Eastern Carpathians
Cenușă, R.; Teodosiu, M.

Case study by permanent sample plots in the ‘Bukowa Góra’ Forest Reserve, Roztoczański National Park, Poland
Kweczlich, I.

Monitoring the structure and phytodiversity of a 160-year-old natural Scots pine forest in central Polissia, Ukraine

*Modeling biogeochemical cycles within old-growth forest ecosystems
Hasenauer, H.; Merganicová K.; Pietsch, S. A.

Herb layer dynamics of primeval fir-beech forests in central Slovakia
Ujházy, K.; Krizová, E.; Vančo, M.; Freňáková, E.; Ondruš, M.

The role of ungulates in the vegetation dynamics of pristine temperate forests: a review
Senn, J.

Present state of the upper forest line in the Ukrainian Carpathians
Sukhariuk D., Voloshchuk M.

Biodiversity of natural and managed forests
*Spontaneous re-establishment of natural structure and related biodiversity in a previously managed beech forest in Belgium after 20 years of non intervention
Vandekerkhove, K.; De Keersmaeker, L.; Baeté, H.; Walleyn, R.

Biodiversity in strict forest reserves of Hesse – faunistic and mycological studies
Willig, J.

*The importance of near natural stand structures for the biocoenosis of lowland beech forests
Winter, S.; Flade, M.; Schumacher, H.; Kerstan, E.; Möller, G.

*Arthropod biodiversity in virgin and managed forests in Central Europe
Chumak, V.; Duelli, P., Rizun, V.; Obrist, M.K.; Wirz P.

Coleoptera (Insecta) as a component of the virgin forest ecosystems of the Carpathians (Ukraine)
Mateleshko, A.

Genetic diversity of beetle populations in unmanaged and managed forest stands in Southern Germany
Liepold, K.; Gruppe, A.; Schopf, R.

Pattern of plant diversity in natural and managed mountain forest.
Abs, C.; Fischer, A.; Heinrich, J.; Kugler, F.; Schöffmann, C.; Mayer

*Herb layer species as indicators of biodiversity of forest ecosystems – Examples from forest nature reserves and managed forests with and without large-scale disturbances
Schmidt, W.

Evaluation of effects of forest conversion in Saxony (Germany) on the ground vegetation
Schmidt, P. A.; Denner, M.

Nature conservation evaluation of different silvicultural management systems in the Upper Dniester Region (Ukraine)
Glaser, T.; Chernyavskyy, M.; Henyk, Y.; Schmidt, P. A.; Yashchenko, P.

Spatial interpolation of field data on plant abundance
Mkrtchyan, A.
Patterns of genetic variation among indigenous populations of *Picea abies, Abies alba* and *Fagus sylvatica* in the Carpathians and adjacent regions
Paule, L.; Gómöry, D.; Longauer, R.; Krajmerová, D.

Socio-economic value of natural forests

*Social and cultural values of trees and woodlands in northwest and southeast England*
O'Brien, E.

Native woodlands of Scotland: some implications for sustainable forestry
Nijnik, M.; Hill, G.

Optimisation and monitoring of the recreational use of natural forests: the example of the Alps
Siegrist, D.

*Utilisation of Natural Forests for Ecotourism: Matching the Goals and Reality*
Pichler, V.; Sorokova, M.

PAN Parks’ Sustainable Tourism Development Strategy. Could this approach play a role in the conservation of Europe’s forests?
Beuders, N.

Contemplative tourism in natural forests
Speich, A.

Natural forest ecosystems: significance, protection and management

Analysis of Protected Forest Areas in Europe - Provisional Results of COST Action E27
PROFOR
Frank, G.; Latham, J.; Little, D.; Parviainen, J.; Schuck, A.; Vandekerkhove, K.

The Austrian Natural Forest Reserves Network
Frank, G.; Steiner, H.; Schweinzer, K.-M.

*Network of Strict Forest Reserves as reference system for close to nature forestry in Lower Saxony, Germany*
Meyer, P.

Optimising the conservation of natural forests in Moldova
Postolache, G.; Postolache, D.

Diversity of forests in strict nature reserves in Lithuania
Šaudyté, S.

Characteristics of virgin forests of the Ukrainian Carpathians and their significance as an ecological model for natural forest management
Stoyko, S.

Virgin forest ecosystems of the Uzhansky National Nature Park
Ivanega, I.

Plain forests of Ukraine: unique habitats for rare plant species
Melnik, V.

European floodplain forests: a case study in Transcarpathia (Zakarpattyja), Ukraine
Drescher, A.; Prots, B.

From forest utilization to forest conservation: case study of the historical development of a natural forest reserve in the Southern Limestone Alps of Austria
Johann, E.

History of forest management in the Transcarpathian province
Delehan, I.V.

Forest management in a national park: objectives, realisation and first results from National Park Kalkalpen, Austria
Schön, B.
Conversion of pure spruce stands in the National Park Berchtesgaden
Bauer, M.

Selection management of beech (F. sylvatica L.) stands in protected territories: theoretical approaches to minimise rapid crown growth around canopy gaps
Efremov, R.
