Preface by Ramon J. Batalla and Celso Garcia v

1 Slope Processes and Impacts

Modelling hillslope connectivity and channel interactions in semiarid areas: implications for hillslope restoration following land abandonment Mike Kirkby & Louise Bracken (keynote lecture) 3

Surface erosion assessment in two Calabrian basins (southern Italy) Loredana Antronico, Roberto Coscarelli & Oreste Terranova 16

Methods for the characterization of areas sensitive to desertification: an application to the Calabrian territory (Italy) Roberto Coscarelli, Ivana Minervino & Marino Sorriso-Valvo 23

Runoff and soil moisture relationships in a small forested basin in the Sistema Central Ranges (Spain) José Martínez-Fernández, Antonio Ceballos, Segismundo Casado, Carlos Morán & Virginia Hernández 31

The effect of wildfire intensity on soil aggregate stability in the Cadiretes Massif, NE Spain Xavier Ubeda & Sara Bernia 37

Sediment delivery from a landslide to a stream in a drainage basin in Hong Kong Mervyn R. Peart, Mark E. Ruse & Lincoln Fok 46

Targeting erosion control in large river systems using spatially distributed sediment budgets Scott N. Wilkinson, Jon M. Olley, Ian P. Prosser & Arthur M. Read 56

2 Catchment Hydrology and Water Quality

The effects over time of an arterial drainage scheme on the flood magnitude-return period relations Keshav P. Bhattarai & Kieran M. O’Connor 67

Modelling the hydraulic regime and the water quality of Sebou River (Morocco): first results Mohammed Igouzal, Jean M. Mouchel, Karim Tamoh & Abdellatif Maslouhi 75

Phosphorus concentrations of brook runoff in a Swiss agricultural catchment: longitudinal variability and subsurface drainage impact Rainer Weisshaidinger, Bernd Hebel, Petra Ogermann, Philipp Schneider, Christian Katterfeld & Randy Koch 81

3 Suspended Sediment Transport and Yield

Comparison of a neural network and a regression model to estimate suspended sediment in a semiarid basin Susanne Schnabel & Marco Maneta 91

Suspended sediment transport and trapping processes in the regulated lower Durance River, southeastern France Emmanuel Ribes & Mireille Provansal 101

Seasonal suspended sediment concentrations and their relationship with discharge in the Anoia river basin, NE Spain Joaquim Farguell & Maria Sala 111
Monitoring suspended sediment fluxes in the Na Borges basin, Mallorca, Spain  
Estrany & Celso Garcia

Assessment of sediment yield of watersheds by means of reservoir survey and simulation modelling in Brazilian semiarid environment  
José C. de Araújo & Donald W. Knight

Patterns of suspended sediment transport in two forested Mediterranean mountainous basins (Ribera Salada, Catalan Pre-Pyrenees, NE Spain)  
J. Carles Balasch, Ramon J. Batalla, Rosa M. Poch & Damia Vericat

4 Bed load Transport and River–Channel Processes

Estimating the transport of bed material at low rate in gravel armoured channels  
Michael Church & Marwan Hassan (keynote lecture)

Geomorphologic units and sediment transport in a very low relief basin: Rio Quequén Grande, Argentina  
Liliana B. Teruggi, Gustavo A. Martinez, Paolo Billi & Emanuele Preciso

Determining the competence of mountainous Mediterranean streams using lichenometric techniques  
Frederic Gob, Nicolas Jacob, Jean-Paul Bravard & Francois Petit

Bed load under low sediment transport in a large regulated river: the lower Ebro, NE Spain  
Damia Vericat & Ramon J. Batalla

A particle-size sediment budget for a Mediterranean river (the lower Tordera, northeastern Spain)  
Albert Rovira

5 River Dynamics and Impacts

Accumulation of sediments within the channelized reach of the Upper Odra River, Poland  
Czajka Agnieszka

Anthropogenic impacts on sediment discharge in the dry-hot valleys of SW China—the example of Longchuanjiang  
Xi Xi Lu, Yunmei M. Zhu & Yue Zhou

The change in flood regime along the Lower Jordan River: its influence on floodplain agricultural land use  
Micha Klein

Downstream effects of river impoundment on hydrological and geomorphological aspects of bedrock rivers (Golan Heights, Israel)  
Nurit Shtober-Zisu & Moshe Inbar

A proposed index of channel sensitivity to riparian disturbance  
Chad E. Bailey, Robert G. Millar & Michael Miles

Channel morphology and sedimentology in mountainous channel: a comparison between disturbed and undisturbed reaches  
Lea Wittenberg & Noam Greenbaum
