## Contents

1. **Status of ADSW 2005**  
   H. Hartmann and B.K. Ahring

7. **Strategies for the anaerobic digestion of the organic fraction of municipal solid waste: an overview**  
   H. Hartmann and B.K. Ahring

23. **Dry anaerobic digestion of differently sorted organic municipal solid waste: a full-scale experience**  
   D. Bolzonella, P. Pavan, S. Mace and F. Cecchi

33. **Methane production and solids destruction in an anaerobic solid waste reactor due to post-reactor caustic and heat treatment**  
   T.D. DiStefano and A. Ambulkar

43. **Enhancing hydrolysis with microaeration**  
   J.-E. Johansen and R. Bakke

51. **Alkaline and acid hydrolytic processes in aerobic and anaerobic sludges: effect on total EPS and fractions**  
   S.T. Cassini, M.C.E. Andrade, T.A. Abreu, R. Keller and R.F. Gonçalves

59. **Thermal pretreatment of the solid fraction of manure: impact on the biogas reactor performance and microbial community**  
   Z. Mladenovska, H. Hartmann, T. Kvist, M. Sales-Cruz, R. Gani and B.K. Ahring

69. **Fertilizer potential of liquid and solid effluent from thermophilic anaerobic digestion of poultry waste**  
   B.E. Liedl, J. Bombardiere and J.M. Chatfield

81. **Evaluating the stabilisation degree of digested sewage sludge: investigations at four municipal wastewater treatment plants**  
   V. Parravicini, E. Smidt, K. Svardal and H. Kroiss

91. **Prion protein: detection in ‘spiked’ anaerobic sludge and degradation experiments under anaerobic conditions**  
   R. Kirchmayr, H.E. Reichl, H. Schildorfer, R. Braun and R.A. Somerville

99. **Biodegradation of PAH and DEHP micro-pollutants in mesophilic and thermophilic anaerobic sewage sludge digestion**  
   T. Benabdallah El-Hadj, J. Dosta and J. Mata-Alvarez

109. **Comparison between the conventional anaerobic digestion of sewage sludge and its combination with a chemical or thermal pre-treatment concerning the removal of pharmaceuticals and personal care products**  
   M. Carballa, F. Omil, A.C. Alder and J.M. Lema

119. **Phthalate hydrolysis under landfill conditions**  
   S. Jonsson, V.A. Vavilin and B.H. Svensson

129. **ADM1 simulations of hydrogen production**  

139. **Identification of prevalent microbial communities in a municipal solid waste landfill**  
   B. Calli, S. Durmaz and B. Mertoglu

149. **Two-stage thermophilic-mesophilic anaerobic digestion of waste activated sludge from a biological nutrient removal plant**  
   S. Watts, G. Hamilton and J. Keller

159. **Self-heating of anaerobic digesters using energy crops**  
   H. Lindorfer, R. Braun and R. Kirchmayr

167. **Anaerobic biodegradability and digestion in accumulation systems for concentrated black water and kitchen organic-wastes**  
   T.A. Elmitwalli, M. van Leeuwen, K. Kujawa-Roeleveld, W. Sanders and G. Zeeman

177. **Anaerobic digestion of space mission wastes**  
   D.P. Chynoweth, J.M. Owens, A.A. Teixeira, P. Pullammanappallil and S.S. Luniya

187. **Will anaerobic digestion of solid waste survive in the future?**  
   L. De Baere
Quantification of Cryptosporidium parvum in anaerobic digesters treating manure by (reverse-transcription) quantitative real-time PCR, infectivity and excystation tests  G. Garcés, M. Effenberger, M. Najdrowski, C. Wackwitz, A. Gronauer, P.A. Wilderer and M. Lebuhn

Anaerobic codigestion of waste activated sludge and OFMSW: the experiences of Viareggio and Treviso plants (Italy)  D. Bolzonella, P. Battistoni, C. Susini and F. Cecchi

Optimised anaerobic treatment of house-sorted biodegradable waste and slaughterhouse waste in a high loaded half technical scale digester  C. Resch, M. Grasmug, W. Smeets, R. Braun and R. Kirchmayr

Co-digestion of manure and biowaste according to the EC Animal By-Products Regulation and Finnish national regulations  T. Paavola, E. Syväsalo and J. Rintala

Towards new indicators for the prediction of solid waste anaerobic digestion properties  P. Buffiere, D. Loisel, N. Bernet and J.-P. Delgenes

Enhancing waste decomposition and methane production in simulated landfill using combined anaerobic reactors  N. Sanphoti, S. Towprayoon, P. Chaiprasert and A. Nopharatana

Effects of solids concentration, pH and carbon addition on the production rate and composition of volatile fatty acids in prefermenters using primary sewage sludge  R.J. Zeng, Z. Yuan and J. Keller

Thermophilic anaerobic fermentation of olive pulp for hydrogen and methane production: modelling of the anaerobic digestion process  H.N. Gavala, I.V. Skiadas, B.K. Ahring and G. Lyberatos

Ultrasonic treatment to improve anaerobic digestibility of dairy waste streams  L. Palmowski, L. Simons and R. Brooks
