in the IAHS Series of Proceedings and Reports

# Contents

## Preface by Siegfried Demuth

iii

## 1 INTRODUCTION

- FRIEND: key achievements and opportunities in international co-operation  
*Alan Gustard & Mike Bonell*

3

- Human impacts, complexity, variability and non-homogeneity: four dilemmas for the water resources modeller *Trevor M. Daniell & Katherine A. Daniell*

10

## 2 DATA

### Databases

- SIEREM: an environmental information system for water resources *J. F. Boyer, C. Dieulin, N. Rouche, A. Cres, E. Servat, J. E. Paturel & G. Mahé*

19

- Operational management of hydrological extremes using global-scale atmospheric models *Arnold H. Lobbrecht, Schalk Jan Van Andel & Frans Van Kruiningen*

26

- Real-time monitoring and management of point and areal hydrometeorological data in the Athens metropolitan area *Maria Mimikou & Andreas Grammatikogiannis*

31

- Hydrological assessment of Makanya catchment in South Pare Mountains, semiarid northern Tanzania *Marloes L. Mul, Hubert H. G. Savenije, Stefan Uhlenbrook & Maurits P. Voogt*

37

- L'Observatoire de Recherche en Environnement, ORE HYBAM sur les grands fleuves amazoniens / The Environmental Observation and Research project, ORE HYBAM, and the rivers of the Amazon basin

44

- Gérard Cochonneau, Francis Sondag, Jean-Loup Guyot, Boaventura Geraldo, Naziano Filizola, Pascal Fraizy, Alain Laraque, Philippe Magat, Jean-Michel Martinez, Luis Noriega, Eurides Oliveira, Julio Ordonez, Rodrigo Pombosa, Frédérique Seyler, Jonathan Sidgwick & Philippe Vauchel*

### Networks

- The decline of hydrological data collection for development of integrated water resource management tools in Southern Africa *Helen Houghton-Carr & Matt Fry*

51

- The use of spatial information to improve hydrometric network design and evaluation *Cedric Laize & Terry Marsh*

56

- Modelación hidrológica empleando isoyetas de relieve, una aproximación geoestadística / Hydrological modelling using relief-isohyets: a geostatistical approximation

62

- Raúl Becerra-Soriano & Alfonso Gutiérrez-López*

### GIS

- The contribution of GIS to hydrological modelling *C. Dieulin, J. F. Boyer, S. Ardoin-Bardin & A. Dezetter*

68

- An evaluation of the potential use of satellite rainfall data for input to water

75

resource estimation models in southern Africa <i>Denis A. Hughes</i>	
Application of digital terrain analysis to estimate hydrological variables in the Luquillo Mountains of Puerto Rico <i>Andrew S. Pike</i>	81
Submodelo de erosión en laderas para modelo precipitación–escorrentía en SIG / A hillslope erosion submodel for use with rainfall–runoff models in GIS <i>Alejandro Dussaillant J.</i>	86
A European case-based reasoning tool to inter-compare hydrological information on water stress among drainage sub-basins <i>Jasper Griffioen, Sophie Vermooten, Neno Kukuric &amp; Slavek Vasak</i>	91

### **3 HYDROLOGICAL EXTREMES**

---

#### ***Low flow prediction and forecasting***

Stochastic model of flow duration curves for selected rivers in Bangladesh <i>M. F. Bari &amp; Kh. Md. Shaful Islam</i>	99
Regionalization of flow duration curves <i>Irina Krasovskia, Lars Gottschalk, Etienne Leblois &amp; Alexia Pacheco</i>	105
Regionalization of low flow in Costa Rica <i>Alexia Pacheco, Lars Gottschalk &amp; Irina Krasovskia</i>	111
Low flow estimation in Austria <i>Gregor Laaha &amp; Günter Blöschl</i>	117
Drought propagation through the hydrological cycle <i>Henny A. J. Van Lanen</i>	122
Propagation of drought in a groundwater fed catchment, the Pang in the UK <i>Lena M. Tallaksen, Hege Hisdal &amp; Henny A. J. Van Lanen</i>	128
Predicting low flows in ungauged basins: a hydrological response unit approach to continuous simulation <i>Andrew R. Young, Virginie Keller &amp; Jim Griffiths</i>	134
Temporal and spatial variability of drought in mountain catchments of the Nysa Klodzka basin <i>Tamara Tokarczyk &amp; Wojciech Jakubowski</i>	139
Le dispositif PRESAGES: un ensemble d'outils pour la prévision des étiages / PRESAGES: A collection of tools for predicting low flows <i>Claire Lang, Emmanuel Gille, Didier François &amp; Jean-Claude Auer</i>	145
Multi-model technique for low flow forecasting <i>Mary-Jeanne Adler &amp; Valentina Ungureanu</i>	151
Seasonal forecasting of river flows: a review of the state-of-the-art <i>Jennifer Easey, Christel Prudhomme &amp; David M. Hannah</i>	158
Predicting low flows in ungauged catchments <i>Kolbjørn Engeland, Hege Hisdal &amp; Stein Beldring</i>	163
Drought indices suitable to study the linkages to large-scale climate drivers in regions with seasonal frost influence <i>Anne K. Fleig, Lena M. Tallaksen &amp; Hege Hisdal</i>	169

#### ***Flood prediction and forecasting***

Sistema de alerta hidrológico de la cuenca del Río Salado, provincia de Santa Fe, Argentina: avances en su implementación / The Salado River basin (Santa Fe, Argentina) flood warning system: advances in its implementation <i>Gustavo Ferreira</i>	175
---	-----

Impact assessment of measures in the upstream part of Dutch basins to reduce flooding <i>Erik Querner &amp; Menno Rakhorst</i>	180
Propuesta para minimizar el impacto de las inundaciones en una cuenca costera de la costa de Chiapas, Mexico / Proposals for minimizing flooding in the Chiapas coastal river basin, Mexico <i>Martín D. Mundo Molina</i>	186
Numerical estimation of flood zones in the Vistula River valley, Warsaw, Poland <i>Małgorzata Gutry-Korycka, Artur Magnuszewski, Jarosław Suchożebrski, Witold Jaworski, Michał Marcinkowski &amp; Michał Szydłowski</i>	191
Sistema de alerta temprana por inundaciones experiencia en El Salvador / Experience of the Flood Early Warning System in Salvador <i>Ana Deisy Lopez Ramos</i>	196
Pronóstico de lluvia sobre territorio cubano al paso de los huracanes Charley e Iván, usando MM5V3 / Rainfall forecasting in Cuba for hurricanes Charley and Iván using MM5V3 <i>Ida Mitrani Arenal, Israel Borrajero Montejo &amp; Arnaldo Bezanilla Morlot</i>	201
Índices y grados de riesgo de inundación comunales en sistemas de alerta: uso de lógica difusa / Indices and grades of regional flood risk in a flood alert system: use of fuzzy logic <i>Arnaldo Santander &amp; Ximena Vargas</i>	207
AIGA: un dispositif d'alerte des crues. Application à la région méditerranéenne française / AIGA: a flood forecasting tool. Application to the French Mediterranean region <i>Jacques Lavabre &amp; Yves Gregoris</i>	214
Impact of the Amazon tributaries on major floods at Óbidos <i>Josyane Ronchail, Jean-Loup Guyot, Jhan Carlo Espinoza Villar, Pascal Fraizy, Gérard Cochonneau, Eurides De Oliveira, Naziano Filizola &amp; Juan Julio Ordenez</i>	220
Bayesian priors based on regional information: application to regional flood frequency analysis <i>Mathieu Ribatet, Eric Sauquet, Jean-Michel Gresillon &amp; Taha B. M. J. Ouarda</i>	226
Flash floods in mountain areas <i>Manfred Spreafico</i>	232
<hr/>	
<b>Rainfall-runoff modelling</b>	
Rainfall-runoff modelling of Bua River basin, Malawi <i>S. H. Mkhandi &amp; P. G. Kumambala</i>	239
Modelación distribuida de la cobertura nival para el pronóstico de volúmenes de deshielo / Estimating snowmelt volume using snow cover distribution modelling <i>Patricio Valck C., Ximena Vargas M. &amp; Mauricio Cartes</i>	244
Essais de modélisation avec peu de données en Afrique de l'Ouest / Trying to model with little data in West Africa <i>Jean Emmanuel Paturel, Christophe Laroche, Lawani Mounirou, Lamine Mar, Sandra Ardoin-Bardin, Alain Dezetter, Gil Mahe &amp; Eric Servat</i>	250
Precipitation elasticity of streamflow in catchments across the world <i>Francis H. S. Chiew, Murray C. Peel, Thomas A. McMahon &amp; Lionel W. Siriwardena</i>	256

## 4 HYDRO-CLIMATOLOGY

### *Precipitation spatial and temporal variability and prediction*

An approach to the vulnerability analysis of intensive precipitation in Cuba <i>Eduardo O. Planos Gutiérrez &amp; Miriam E. Limia Martínez</i>	265
Influencia de los embalses y lagos en las intensidades máximas de precipitación / Influence of reservoirs and lakes on maximum rainfall intensities in Chile <i>Roberto Pizarro, Claudia Sangüesa &amp; Dayanna Aravena</i>	270
Application of a statistical method for medium-term rainfall prediction <i>Zhongmin Liang, Bo Lu &amp; Xiaofan Zeng</i>	275
Evaluación de la incertidumbre en la variabilidad espacial de la precipitación usando un modelamiento multiGaussiano / Evaluation of the uncertainty of spatial precipitation variability using a multiGaussian model <i>Solange Dussaubat, Ximena Vargas &amp; Julian Ortiz</i>	281
Deriving the highest persisting monthly 24-hour dew points in Malaysia for the estimation of PMP <i>M. N. Mohd Desa &amp; P. R. Rakhecha</i>	287
Multi-decadal variability of rainfall and water resources in Nigeria <i>Olusegun Adeaga</i>	294
Relación entre probabilidad de ocurrencia de días con lluvia y tormentas eléctricas en Casablanca y Camagüey / Relationship between the probability of occurrence of rainfall and thunderstorms at Casablanca and Camigüey, Cuba <i>Lourdes Álvarez Escudero, Israel Borrájero Montejano, Rosendo Álvarez Morales &amp; Laura Aenlle Ferro</i>	300
Causas de la reciente sequía acaecida en la región oriental de Cuba / Causes of the recent droughts in western Cuba <i>Braulio Lapinel, Abel Centella, Idelmis González, Cecilia Fonseca &amp; Virgen Cutie</i>	304
Comportamiento de los días con lluvias intensas en la provincia de Ciego de Ávila en el período lluvioso y su relación con los procesos sinópticos objetivos / Characterization of heavy rainfall days in Ciego de Avilo province (Cuba) and the relationship with objective synoptic processes <i>Armando Mursuli Hernández &amp; Orlando L. Córdova García</i>	310
A study of the spatial extension of agricultural drought in Cuba and its hyper-annual trends <i>Oscar Solano, Ransés Vázquez &amp; María E. Martín</i>	315
Critique statistique des séries des pluies annuelles dans le bassin amont du Fleuve Sénégal / Statistical analyses of the annual rainfall of the upper Senegal basin <i>Soussou Sambou &amp; Edmond Nicaise Malanda Nimy</i>	319
Impacts of regional land use and land cover on rainfall: an overview <i>R. A. Pielke Sr, A. Beltrán-Przekurat, C. A. Hiemstra, J. Lin, T. E. Nobis, J. Adegoke, U. S. Nair &amp; D. Nyogi</i>	325
Analysis of agricultural droughts in the Dominican Republic, 1971–2000 <i>Ransés Vázquez, Oscar Solano, Solangel Yokasta González, Leoncio Duarte &amp; Daniel Camacho</i>	332
<b><i>Large scale variability and teleconnections</i></b>	
Drought in Costa Rica: temporal and spatial behaviour, trends and the relationship to atmospheric circulation patterns <i>Christian Birkel &amp; Siegfried Demuth</i>	338
Associations between Western European air-masses and river flow regimes	344

<i>David M. Hannah, Donna Bower &amp; Glenn R. McGregor</i>	350
Interactions between large-scale climate and river flow across the northern North Atlantic margin <i>Daniel G. Kingston, David M. Hannah, Damian M. Lawler &amp; Glenn R. McGregor</i>	350
Identification of the distribution of hydroclimatic cycles of field observations in Southeast Asia <i>Maria A. Solera-Garcia, Nick A. Chappell &amp; Wlodek Tych</i>	356
Influences of ENSO and SST variations on the interannual variability of rainfall amounts in southern Africa <i>Patrick Valimba, Pierre Camberlin, Yves Richard, Eric Servat &amp; Denis Hughes</i>	362
Diagnóstico de probabilidades de lluvias asociados a eventos del ciclo ENOS en la costa de Ecuador / Assessing rainfall probabilities using ENSO cycle events on the coast of Ecuador	369
<i>Jonathan Cedeño, Telmo De La Cuadra, Karina Abata, Ma. Auxiliadora Merizalde &amp; M. Pilar Cornejo-Grunauer</i>	
<hr/>	
<b><i>Climate change and impacts of climate change</i></b>	
GCM and downscaling uncertainty in modelling of current river flow: why is it important for future impacts? <i>Christel Prudhomme</i>	375
The impacts of climate change on water resources in the Okavango basin <i>Sonja Folwell &amp; Frank Farquharson</i>	382
Exploring the impacts of climate change on water resources—regional impacts at a regional scale: Bangladesh <i>Chak Fai Fung, Francis Farquharson &amp; Jahir Chowdhury</i>	389
Possible impacts of climate variability/change and urbanization on water resources availability and quality in the Benin-Owena River basin <i>J. N. Okpara, L. E. Akeh &amp; A. C. Anuforom</i>	394
Uncertainty in climate change impacts on low flows <i>Martijn J. Booij, Martijn Huisjes &amp; Arjen Y. Hoekstra</i>	401
Climate change impact on reservoir water supply reliability <i>Dana Halmova &amp; Marian Melo</i>	407
Climate change impacts on water resources in Guyana <i>Kailas Narayan</i>	413
Climate change impacts and responses in the Czech Republic and Europe <i>Oldřich Novický, Ladislav Kašpárek &amp; Martina Peláková</i>	418
La variabilité des débits du Rio Amazonas au Pérou / Variability in discharge of the Peruvian Amazon <i>Jhan Carlo Espinoza Villar, Pascal Fraizy, Jean Loup Guyot, Juan Julio Ordoñez Galvez, Rodrigo Pombosa &amp; Josyane Ronchail</i>	424
Utilisation optimale de l'information pluviométrique des MCGA aux échelles hydrologiques au Sahel / Optimal use of GCM rainfall information at the hydrological scale in the Sahel <i>Abdou Ali, Abou Amani, Thierry Lebel &amp; Sidibé Ibrahima</i>	430
Application de scénarii climatiques en modélisation hydrologique: utilisation des sorties GCM / Application of climatic scenarios in hydrological modelling: using GCM outputs <i>Sandra Ardoin-Bardin, Alain Dezetter, Eric Servat, Claudine Dieulin, Laurence Casenave, Hélène Niel, Jean-Emmanuel Paturel &amp; Gil Mahé</i>	436

Quel scénario de changement climatique retenir pour une analyse d'impacts? / Which climate change scenario to keep for analysing impacts? <i>Claude Bocquillon, Wajdi Najem &amp; Antoine Hreiche</i>	442
Relation entre hydrologie et climat dans le bassin versant de l'Oued Inaouène (pré-Rif marocain) / Relationship between hydrology and climate in the Inaouene River basin, pre-Rifian Morocco <i>Abdelkader El Garouani &amp; Abdellatif Tribak</i>	447
Regionalization of a distributed catchment model for highly glacierized Nepalese headwater catchments <i>Markus Konz, Ludwig N. Braun, Stefan Uhlenbrook, Siegfried Demuth &amp; Arun Shrestha</i>	454
Climate change impacts on glacial lakes and glacierized basins in Nepal and implications for water resources <i>Suresh Raj Chalise, Madan Lall Shrestha, Om Ratna Bajracharya &amp; Arun Bhakta Shrestha</i>	460
Variability of runoff from Alpine basins <i>David N. Collins</i>	466
An assessment of the potential impacts of climatic warming on glacier-fed river flow in the Himalaya <i>H. Gwyn Rees &amp; David N. Collins</i>	473
El glaciar 15 del Antisana investigaciones glaciológicas y su relación con el recurso hídrico / Glacier 15, Antisana, Ecuador: its glaciology and relations to water resources <i>Bolívar Cáceres, Bernard Francou, Vincent Favier, Guillaume Bontron, Pierre Tachker, Rodolphe Bucher, Jean Denis Taupin, Mathias Vuille, Luis Maisincho, Fanny Delachaux, Jean Philippe Chazarin, Eric Cadier &amp; Marcos Villacis</i>	479
<hr/>	
<b>Trends</b>	
An historical analysis of drought in England and Wales <i>Gwyneth A. Cole &amp; Terry J. Marsh</i>	483
The effect of record length on the analysis of river flow trends in Wales and central England <i>Harry Dixon, Damian M. Lawler, Asaad Y. Shamseldin &amp; Paul Webster</i>	490
High and low flow trends in a national network of undisturbed indicator catchments in the UK <i>Jamie Hannaford &amp; Terry J Marsh</i>	496
Past and future changes in flood and drought in the Nordic countries <i>Hege Hisdal, Lars A. Roald &amp; Stein Beldring</i>	502
Changes in runoff regimes in small catchments in Central Europe: Are there any? <i>Ladislav Holko, Andreas Herrmann &amp; Alena Kulasová</i>	508
A national study on trends and variations of French floods and droughts <i>M. Lang, B. Renard, E. Sauquet, P. Bois, A. Dupeyrat, C. Laurent, O. Mestre, H. Niel, L. Neppel &amp; J. Gailhard</i>	514
Long-term trends and runoff fluctuations of European rivers <i>Pavla Pekarova, Pavol Miklanek &amp; Jan Pekar</i>	520
Influence of the North Atlantic Oscillation on spatial and temporal patterns in Eurasian river flows <i>Raimund Rödel</i>	526
Ánalisis del Comportamiento Hídrico en El Salvador: posibles causas e implicaciones / Analysis of river flow trends in El Salvador: possible causes and consequences <i>Adriana María Erazo Chica, Tomás Rivas Pacheco &amp; Oscar Hernández</i>	533
Methodologies for trend detection <i>Zbigniew W. Kundzewicz &amp; Maciej Radziejewski</i>	538

## 5 ECOSYSTEMS

---

### *In stream ecology*

- Water demand in the Zhalong Wetland ecosystem *Wang Jian-qun, Han Li & Ma Tie-min* 553

- Estimation of minimum acceptable (compensatory) flow for the rivers of Costa Rica *Sadil Laporte, Alexia Pacheco & Carlos R. Rodriguez* 558

- Hidrología de laguna albúfera Reserva El Yali, humedal RAMSAR, Chile / Hydrology of the El Yali coastal marsh reserve, a RAMSAR site in Chile  
*Pablo Galdames, Chi Sun & Alejandro Dussaillant J.* 563

- Environmental demands for sustainable regulation schemes in the humid tropics *Anny Chaves, Irina Krasovskaya & Lars Gottschalk* 569

### *Flood plains*

- Interaction between surface and groundwater in the flooding of riparian wetlands: Biebrza wetlands case study *Tomasz Okruszko, Jarosław Chormański & Dorota Świątek* 573

- Modelling of inundation patterns on the Pilica River flood plain, Poland *Mustafa Altinakar, Edyta Kiedrzyńska & Artur Magnuszewski* 579

### *Water quality*

- A global assessment of chemical effluent dilution capacities from a macro-scale hydrological model *Virginie D. J. Keller, Mick J. Whelan & H. Gwyn Rees* 586

- Wet and dry deposition of atmospheric nitrogen in three hydrographic basins in Cuba *Osvaldo Cuesta-Santos, Arnaldo Collazo, María Gonzalez & Antonio Wallo* 591

- Application of hydrogeochemical modelling to the characterization and water quality control of coastal karst aquifers *J. R. Fagundo Castillo, P. González Hernández, J. Fagundo Sierra, M. Suárez Muñoz, C. Melián Rodríguez & E. Alvarez Varela* 596

- Studying waste load dispersion in Songkhla Lake using a simulation model *Winai Sae-Chew* 601

- Risques d'eutrophisation et de comblement des retenues d'eau au Burkina Faso / Risk of eutrophication and filling-up of small reservoirs in Burkina Faso  
*Amadou Hama Maiga, Yacouba Konate, Kokou Denyigba, Harouna Karambiri & Joseph Wethe* 606

### *Sediments*

- Characteristics of sediment and nutrient flows in the lower reach of the Yellow River *Jianyao Chen, Dong Ke, Xinfeng Zhao, Yoshihiro Fukushima & Makoto Taniguchi* 612

### *Groundwater*

- Factors affecting the groundwater regime in the High Tatra Mountains *Miriam Fendekova & Marian Fendek* 617

- A new, physically-based, numerical runoff generation model system for study of surface–shallow groundwater relationships and system reactions to environmental changes *Andreas Herrmann, Matthias Schöniger & Sybille Schumann* 623

---

Isotopic evidence of the overexploitation of karst aquifers <i>L. F. Molerio León</i>	629
Contaminación del acuífero yucateco por lixiviado de residuos municipales / Contamination of the Yucatan aquifer by leachate from municipal waste <i>Roger González Herrera &amp; Ramiro Rodríguez Castillo</i>	635
<b>Water balance, soils, land cover</b>	
Interpolation of water balance components for Costa Rica <i>Federico Gómez, Irina Krasovskaya, Lars Gottschalk &amp; Etienne Leblois</i>	641
Physical insights into soil water storage in the soil–plant–atmosphere system <i>Urszula Somorowska</i>	646
Determination of the soil hydrophysical characteristics and vegetation parameters of a river basin in a permafrost region <i>Yeugeniy Gusev &amp; Olga Nasonova</i>	651
Minor changes of water conservation capacity in 50 years of forest growth: analysis with data from the Ananomiya Experimental Forest, Japan <i>Michio Hashino &amp; Huaxia Yao</i>	656
Respuesta de los caudales máximos al manejo de bosques de plantaciones en cuencas experimentales en el sur de Chile / Peak flow changes in a managed-forest experimental basin in southern Chile <i>Andrés Iroumé, Claudia Castillo, Helen Primrose, Anton Huber &amp; James Bathurst</i>	662
UNESCO Working Group on the impacts of climate variability and land cover change on flooding and low flows as a function of scale <i>Günter Blöschl, Sandra Ardoin-Bardin, Mike Bonell, Manfred Dorninger, David Goodrich, Dieter Gutknecht, David Matamoros, Bruno Merz, Paul Shand &amp; Jan Szolgay</i>	667
Overview of land cover change in tropical regions <i>Rudi Drigo</i>	672
The impacts of land use/land cover change and climate variability on the hydrology of the Sahel <i>Gil Mahe</i>	679
<b>Human influences</b>	
Impact des modifications d'habitats (déforestation, aménagements hydro-agricoles, extension des cultures) sur la santé des populations rurales: cas de l'ulcère de Buruli en Côte d'Ivoire / Environment change (deforestation, agricultural-water management, increased cultivation) impact on rural population health: Buruli ulcer prevalence in Ivory Coast <i>Telesphore Brou, Hélène Broutin, Mireille Dosso &amp; Jean-François Guegan</i>	685
Methodologie et application d'une démarche de modélisation hydrologique prenant en compte l'évolution des états de surface en milieu sahélien d'Afrique de l'ouest / A hydrological modelling approach that allows for evolution of the land surface in African Sahel basins <i>Pierre Diello, Jean-Emmanuel Paturel, Gil Mahe, Bruno Barbier, Harouna Karambiri &amp; Eric Servat</i>	691
Efecto de las plantaciones de <i>Pinus radiata</i> sobre el recurso agua en Chile / The effect of <i>Pinus radiata</i> plantations on water resources in Chile <i>Anton Huber &amp; Andrés Iroumé</i>	698
<b>Key word index</b>	
	703
