Groundwater for Sustainable Development: Problems, Perspectives and Challenges

Editors

P. Bhattacharya
KTH-International Groundwater Arsenic Research Group,
Department of Land and Water Resources Engineering,
Royal Institute of Technology (KTH), Stockholm, Sweden

AL. Ramanathan
School of Environmental Sciences, Jawaharlal Nehru University,
New Delhi, India

A.B. Mukherjee
Department of Environmental Sciences, University of Helsinki,
Helsinki, Finland

J. Bundschuh
International Technical Cooperation Program, CIM (GTZ/BA),
Frankfurt, Germany—Instituto Costarricense de Electricidad (ICE), UEN, San José, Costa Rica

D. Chandrasekhar
Department of Earth Sciences, Indian Institute of Technology-
Bombay, Mumbai, India

A.K. Keshari
Department of Civil Engineering, Indian Institute of Technology-
Delhi, Hauz Khas, New Delhi, India

Table of Contents

Foreword XI
Preface XIII
List of Contributors XVII

Section I: Sustainable groundwater resources assessment and recharge processes

1 Assessment of groundwater resources by using a simple hydrogeochemical tool in coastal aquifers of Krishna delta, India
   V.K. Saxena, N.C. Mondal & V.S. Singh 3

2 Groundwater contribution to total runoff using baseflow separation: A case study in southwestern Iran
   M.R. Ghanbarpour, M. Teimouri & S.A. Gholami 13

3 Groundwater resources sustainability in Qatar: Problems and perspectives
   K.M. Amer 25

4 Application of resistivity imaging for delineation of aquifer configuration
   M. Israil, S. Shimeles, V.K. Sharma, P.K. Gupta & D.C. Singhal 39

5 Hydrogeologic analysis of Kathajodi river basin, Orissa, India

6 Mechanisms and rates of recharge at Timbuktu, Republic of Mali
   G. Jacks & M. Traoré 55

7 Evaluation of natural and artificial recharge using tracers in a semi-arid region of Kurnool district, Andhra Pradesh, India
   R. Rangarajan, D. Muralidharan, S.D. Deshmukh & G.B.K. Shankar 61

Section II: Water and environment

8 Hydrogeochemical studies around the Bhalswa landfill in Delhi, India
   S.K. Srivastava & AL. Ramanathan 69

9 Assessment of the potential hazards of nitrate contamination in surface and groundwater systems in Hooghly district of West Bengal, India
   M.C. Kundu & B. Mandal 87

10 Pesticides as water pollutants
    A. Hussain & M.R. Asi 95

11 Immobilization of coagulant proteins for drinking water treatment
    K.R. Gunaratna, C. Andersson, G. Dalhammar & K.A. Ghebremichael 103
12 Assessment of geochemical processes controlling groundwater chemistry in a river basin in Southern India
N. Rajmohan & L. Elango

Section III: Groundwater modeling and its application in aquifer systems

13 Numerical analysis of tide-aquifer interaction data for estimating aquifer parameters
M.K. Jha, D. Namgial, Y. Kamii & S. Peiffer

14 Stochastic modeling of groundwater discharge for hydrological drought forecasting
M.R. Ghanbarpour, K.W. Hipel, M. Amiri & M. Teimouri

15 Influence of hysteresis in modeling of LNAPL migration through non-homogeneous binary porous media
A. Taghavy & B. Ataie-Ashtiani

16 Modelling of density-dependent flow systems: Sensitivity to spatial and temporal discretizations and numerical schemes using SEAWAT 2000
A. Al-Maktoumi, D.A. Lockington & R.E. Volker

17 Large scale modeling of nitrogen transformation in the unsaturated zone—A case study of Tehran City, Iran
V. Joekar-Niasar, B. Ataie-Ashtiani & Z. Sattari

Section IV: Coastal groundwaters and impact of tsunami

18 Characterization of groundwaters in Tiruvanmiyur coastal aquifer, Tamil Nadu, India
K. Shivanna, K. Tirumalesh & S. Suresh

19 Evaluation of the coastal groundwater resources using limited hydrogeological data
P. Ranjan, S. Kazama & M. Sawamoto

20 Tsunami impacts on shallow groundwater and associated water supplies on the east coast of Sri Lanka
K.G. Villholth, P. Amerasinghe & P. Jeyakumar

21 Status of a tsunami affected coastal aquifer along the east coast of Sri Lanka
H.A. Dharmagunawardhane & M. Vithanage

22 Interactions between saline and fresh water in coastal region of northwestern Sri Lanka
R.U.K. Piyadasa

23 Groundwater flow model in a mangrove forest
A. Susilo
Section V: Arsenic and fluoride in groundwater

24 Groundwater arsenic contamination and its health effects in the Ganga-Meghna-Brahmaputra plain

25 Initial data on arsenic in groundwater and development of a state action plan, Uttar Pradesh, India

26 Arsenic mobilisation in the Holocene flood plains in South-central Bangladesh: Evidences from the hydrogeochemical trends and modeling results

27 High fluoride groundwater of Karbi-Anglong district, Assam, Northeastern India: Source characterization
S. Sahadevan & D. Chandrasekharam

28 Rural Latin America—A forgotten part of the global groundwater arsenic problem?
J. Bundschuh & M.E. Garcia

29 Global arsenic and antimony flow through coal and their cycling in groundwater environment
A.B. Mukherjee, P. Bhattacharya, K. Sajwan, R. Zevenhoven & J. Matschullat

30 Exploiting precipitation of naturally occurring iron against arsenicosis
A.K. Sharma, J.C. Tjell & H. Bregnhoj

31 Arsenic contaminated drinking water and nutrition status in Bagahi village, Terai region, Nepal
B.K. Pradhan

32 Ensuring arsenic-safe water supply in local communities: Emergent concerns in West Bengal, India
N. Singh, G. Jacks & P. Bhattacharya

33 Role of social factors as determinants for chronic arsenicosis in India
A. Sarkar

34 Low-energy reverse osmosis (RO) membranes for arsenic removal from groundwater
S.A. Deowan, J. Hoinkis & C. Pätzold

35 Bioremoval of arsenic by green alga
A. Bulbul, P. Bhattacharya, S.M.I. Huq & K.R. Gunaratna
Section VI: Groundwater management

36  The autonomy of local drinking water institutions in rural Bangladesh
    C. Rammelt & J. Boes

37  Management of the Salalah plain aquifer, Oman
    M.I. Shammas & G. Jacks

38  The hidden language of rural water supply programmes
    T.S. van der Voorn

39  “GROWNET” and its relevance to sustainable groundwater development
    in western India
    S.D. Limaye

40  Groundwater management in hard rock areas for sustainable agriculture
    in Indian subcontinent
    R.K. Sivanappan
