Introduction

Part I Geophysical methods

1 Electrical methods
   C. Kneisel and C. Hauck
   1.1 Introduction
   1.2 Measurement principles
   1.3 Data acquisition
   1.4 Data processing
   1.5 Periglacial applications and particularities
   1.6 Conclusions
   1.7 Checklist
   References

2 Electromagnetic methods
   A. Hördt and C. Hauck
   2.1 Introduction
   2.2 Background
   2.3 Periglacial applications and particularities
   2.4 Conclusions
   2.5 Checklist
   References

3 Refraction seismics
   L. Schrott and T. Hoffmann
   3.1 Introduction
   3.2 Measurement principles
   3.3 Limitations of seismic refraction based on measurement principles
   3.4 Data acquisition
