Acknowledgments xi

1 An introduction to linguistics and language studies 1

1.1 Ferdinand de Saussure 5

1.2 Noam Chomsky 8

1.3 M. A. K. Halliday 9

1.4 Conclusion 12

1.5 References and further readings 14

1.6 Some answers to the exercises 14

2 A focus on spoken interaction 16

2.1 Speech act theory: Doing things with words 17

2.2 Grice's conversational maxims 21

2.3 Politeness 24

2.4 The lexicogrammar of casual speech 26

2.4.1 Discourse markers 26

2.4.2 Vague language 31

2.4.3 Ellipsis 31

2.4.4 Intonation 31

2.4.5 Intonation patterns 35

2.5 The analysis of talk in interaction (conversation analysis) 36

2.5.1 Background 36
2.7 Phonology: Meaningful sounds across languages
2.7.1 From speech sounds to meaningful sounds
2.7.2 Phonemes and allophones
2.7.3 Phonemic tone and length
2.8 Further exercises
2.9 Chapter outcomes
2.10 References and further reading
2.11 Some answers to the exercises

3 Analyzing written language
3.1 Genre and text analysis
3.1.1 Genre
3.1.2 Textual patterns
3.1.2.1 Narrative
3.1.2.2 Problem-solution
3.1.2.3 Related patterns
3.1.2.4 Lexical signaling
3.2 Systemic Functional Linguistics
3.2.1 Groups
3.2.1.1 Nominal group
3.2.1.2 Verbal group
3.2.1.3 Other groups
3.2.2 Clause metafunctions
3.2.2.1 Clause as exchange
3.2.2.2 Clause as representation
3.2.3 Clause complexes and simplexes
3.2.3.1 Parataxis and hypotaxis
3.2.3.2 Embedded clauses
3.2.4 Clause as message
3.2.4.1 Theme-Rheme: structure and realization
3.2.4.2 Thematic patterning
3.3 Written and spoken language
3.3.1 Generic structure
3.3.2 Clause complexes and groups
3.3.2.1 Clause as exchange, representation and message
3.4 Chapter outcomes
7.2.1 Child language development 320
7.2.2 Critical period hypothesis 324
7.2.3 Theoretical perspective on child language development 325
7.2.4 Bilingual language development 330
7.3 Second language development 331
7.4 Animals and language 333
7.4.1 Bees and dialects 334
7.4.2 Starlings and recursion 334
7.4.3 Apes and human language 336
7.5 Chapter outcomes 339
7.6 References and further reading 340

8 Fields of linguistics 344
8.1 Clinical linguistics, David Crystal 344
8.2 Cognitive linguistics, Dirk Geeraerts 346
8.3 Computational linguistics, Mick O'Donnell 348
8.4 Contrastive linguistics, Jorge Arús Hita 349
8.5 Corpus linguistics, Michaela Mahlburg 351
8.6 Critical discourse analysis, Thomas Bloor 355
8.7 Educational linguistics, Frances Christie 358
8.8 Forensic linguistics, Malcom Coulthard 359
8.9 Formal linguistics, Amaya Mendikoetxea 362
8.10 Functional linguistics, Chris Butler 365
8.11 Historical linguistics, Michael Cummings 368
8.12 Psycholinguistics, Amanda Miller 370
8.13 Sociolinguistics, Jeffrey Reaser 372
