Contents

1 Evaluation of Seismic Effects Generated by Mining Induced Seismic Events in Stonava Area ........................................... 1
Zdeněk Kaláb and Jaromír Knejzlík

2 Moment Tensor Solution and Physical Parameters of Selected Recent Seismic Events at Rudna Copper Mine ...................... 11
Grzegorz Lizurek and Paweł Wiejacz

3 Seismic Loading of Medieval Jeroným Mine During West Bohemia Swarm in 2008 ....................................................... 21
Zdeněk Kaláb and Markéta Lednická

4 Spin and Twist Wave Groups in the Seismic Field: A Case of Mining Event ................................................................. 31
Krzysztof P. Teisseyre

5 An Analysis of Amplification Effects at Selected Polish Seismic Stations ................................................................. 49
Monika Dec

6 Investigation of the Medieval Jeroným Mine Stability: Present Results from a Distributed Measurement Network .......... 59
Jaromír Knejzlík, Zdeněk Kaláb, Markéta Lednická, and Lubomír Staš

7 Seismic and Geodetic Observations of Subsidence Trough Development Over a Longwall Face in a Coal Bed Under Extraction ...................................................... 71
Michał Bogusz and Maciej Mendecki
8 Suggestion of Complex Monitoring of Undermined Territory 81
   Hana Doležalová

9 Identification of Geotechnical Conditions in Areas of Former
   Shallow Mining Activity Using Geoelectrical Methods 91
   Jolanta Pierwoła, Jarosław Badera, and Zbigniew Mirkowski

10 The Use of Seismic Methods to Determine Potential Directions
    of Underground Water Flow in a Fractured Rock Mass 101
   Adam Idziak and Iwona Stan-Kleczek

11 Assessment of Fracture Properties from P-Wave Velocity
    Distribution 109
   Jan Vilhelm, Vladimír Rudajev, and Roman Živor

12 Electrical Resistivity Imaging Method in Investigating
    Post-Glacial Geomorphological Forms 117
   Anna Wysowska and Jolanta Pierwoła

13 Frictional Metamorphism of Coal in the Upper Silesia
    Coal Basin, Southern Poland 127
   Stanisław Roman Ćmiel and Maria Dziurowicz
