The Book of Universes

EXPLORING THE LIMITS OF THE COSMOS

John D. Barrow

W. W. Norton & Company
New York • London
Contents

Preface xiii

1: Being in the Right Place at the Right Time 1
   Two men walking 1
   Funny things, universes 2
   The importance of place 4
   Aristotle's spherical universe 12
   Ptolemy's 'Heath Robinson' universe 14
   Copernican revolutions 16

2: The Earnestness of Being Important 22
   Special times and special places 22
   Democratic laws 24
   The changing universe 26
   The nebular hypothesis 32
   Life in an Edwardian universe 33
   The decaying universe 37
   Karl Schwarzschild: the man who knew too much 41

3: Einstein's Universes 47
   Completing a Copernican vision 47
   Einstein's insight 49
   A digression 52
   The creation of Einstein's universe of motionless matter 54
The Book of Universes

The second universe: de Sitter's universe of matterless motion 57
Friedmann's universes of matter in motion 60
Lemaître's universes 65
The universe of Einstein and de Sitter 74
Tolman's oscillating universe 76
Lemaître and Tolman's kinky universe 80
Milne's universe (and Newton's universes) 82

4: Unexpected Universes: the Rococo Period 86

Fractal universes 86
Dr Kasner's universe 91
Dirac's universe – where gravity decays 95
Einstein and Rosen's undulating universe 100

5: Something Completely Different 105

A Swiss-cheese universe 105
Perturbed universes 108
Schrödinger's universe 112
Gödel's spinning universe 115

6: The Steady Statesmen Come and Go with a Bang 123

A universe that always was, is and is to come 123
A table-top universe 133
The electric universe 137
Hot universes 139

7: Universes, Warts and All 148

Turbulent universes 148
Distorted universes: from one to nine 153
Smooth universes and a new observational window 160
Chaotic universes 161
Mixmaster universes 165
Magnetic universes 168
Contents

The universes of Brans and Dicke 170
Matter–antimatter universes 172

8: The Beginning for Beginners 175
Singular universes 175
Which universes are singular? 180
Cold and tepid universes 188
An unexpectedly simpler universe 189
And a unified way of thinking 191

9: Brave New Worlds 194
Asymmetric universes 194
Problem universes 197
Inflationary universes 198
Chaotic inflationary universes 204
Eternal inflationary universes 208
Suddenly, the universe seems simpler again 212
The many universes run out of control 213

10: Post-Modern Universes 218
Random universes 218
Probable universes 220
Anthropic universes 221
Possible universes 229
Home-made universes 231
Naturally selected universes 234
Fake universes 237
Universes where nothing is original 244
Boltzmann's universe 248

11: Fringe Universes 253
Wrap-around universes 253
Quantum universes 260
A self-creating universe 267
Colliding universes 269
The Book of Universes

12: The Runaway Universe  277

The best-buy universe  277
The preposterous universe  284
The puzzling universe  290
