CONTENTS

Preface ........................................... 1

Lecture 1. Introduction .......................... 3

Lecture 2. Solutions of the d'Alembert Equation in $\mathbb{R}^n$ .............. 14

Lecture 3. Solutions of the d'Alembert Equation in Arbitrary Domains .... 39

Lecture 5. Time-Dependent Scattering Theory in Exterior Domains ......... 76

Lecture 7. Wave Operators and Asymptotic Solutions of the d'Alembert Equation in Exterior Domains .......... 124

Lecture 8. Asymptotic Wave Functions and Energy Distributions in Exterior Domains .......... 142

Appendix. An Existence Proof for the Wave Operators Based on the Abstract Theory of Scattering of M. S. Birman .......... 167

References ...................................... 180
