

CONTENTS

Abstract	iv
0. Introduction	1
1. Statements of results	4
2. Preliminaries	10
3. The trace ring	17
4. Affine fixed rings	23
5. Borho theory	33
6. The correspondence $\Phi: \text{Spec } R \dashrightarrow \text{Spec } R^G$	45
7. Lying over	58
8. Characterizations of linearly reductive groups through actions on affine PI-algebras	67
9. Actions by inner automorphisms	80
9.1. Spec-inner automorphisms	81
9.2. A Bergman-Isaacs theorem, chain conditions, and integrality	86
9.3. Prime ideals in the ring extension $R^G \subseteq R$	91
9.4. Connections with actions of finite groups	98
