Contents

List of Contributors ix

Preface xiii

1 Technology for Intellectual Teamwork: Perspectives on Research and Design 1
Jolene Galegher and Robert E. Kraut

Part I
Basic Social Processes 21

2 Time Matters in Groups 23
Joseph E. McGrath

3 Work Group Structure and Information Technology: A Structural Contingency Approach 63
Barbara A. Gutek

4 The Development of Working Relationships 79
John J. Gabarro

5 Mutual Knowledge and Communicative Effectiveness 111
Robert M. Krauss and Susan R. Fussell
Part II
Field Studies of Collaborative Work

6 Patterns of Contact and Communication in Scientific Research Collaborations
Robert E. Kraut, Carmen Egido, and Jolene Galegher

7 Information Technology and Work Groups: The Case of New Product Teams
Deborah G. Ancona and David F. Caldwell

8 The Technology of Team Navigation
Edwin Hutchins

9 The Integration of Distributed Knowledge in Collaborative Medical Diagnosis
Aaron V. Cicourel

Part III
Experiences With Technology for Cooperative Work

10 The Interplay of Work Group Structures and Computer Support
Tora K. Bikson and J. D. Eveland

11 Communication and Performance in ad hoc Task Groups
Tom Finholt, Lee Sproull, and Sara Kiesler

12 Voice Messaging, Coordination, and Communication
Ronald E. Rice and Douglas E. Shook

13 Teleconferencing as a Technology to Support Cooperative Work: Its Possibilities and Limitations
Carmen Egido

14 Technology and Groups: Assessments of the Empirical Research
Kenneth L. Kraemer and Alain Pinsonneault
Part IV
Technology for Cooperative Work 405

15 Hypertext and Collaborative Work: The Example of Intermedia 407
   George P. Landow
