# CONTENTS

1. Women's Experience in the American Economy 3

2. The Evolution of the Female Labor Force 10
   The Measure of Market Work 13
   Labor Force Participation of Married Women Since 1890 16
   Cohorts of White Married Women 17
   Cohorts Versus Cross Sections 21
   Implications of Cohort Change 23
   Cohorts of Nonwhite Married Women 27
   Life-Cycle Labor Force Participation and Work Experience 28
   Direct Measures of Life-Cycle Work 30
   Work Experience, 1930 to 1950 37
   Economic Development and the Life Cycle of Work 42
   Corrections to the c. 1890 Data 43
   Participation Rates Before 1890: Married and Adult Women 46
   Participation Rates Before 1890: Single Women 50
   Single Women in the Labor Force, 1890 to 1930 54
   *Summary*: The Work of Women, 1790 to 1988 55

3. The Gender Gap in Earnings and Occupations 58
   The Gender Gap in Earnings over the Long Run, 1815 to 1987 59
   The Ratio of Female to Male Full-time Earnings 59
   Manufacturing and Agriculture, 1815 to 1970 63
   All Workers, 1890 to 1987 68
   Occupational Segregation and the Male–Female Wage Gap 71
   Sources of Change in the Ratio of Male to Female Earnings 73
   The Gender Gap in Occupations 74
   Occupational Distributions Among White and Black Women 74
   Occupational Segregation by Sex, 1900 to 1980 75
   Occupational Segregation in Manufacturing, 1900 77
   Implications of Occupational Segregation 81
   *Summary*: Earnings and Occupations 82

4. The Emergence of "Wage Discrimination" 83
   A Measure of "Wage Discrimination" 84
   "Wage Discrimination" in Recent Studies 87
   Discrimination and "Wage Discrimination" 88
Explaining Differences Between Male and Female Earnings
Manufacturing, 1888 to 1907
Female Manufacturing Workers
Earnings of Manufacturing Workers
“Wage Discrimination” in Manufacturing
Clerical Sector, 1940
Clerical Work and Clerical Workers
Earnings of Clerical Workers
“Wage Discrimination” in Clerical Work
The Origins of “Wage Discrimination”
Summary: “Wage Discrimination”

5. The Changing Economic Role of Married Women
Explaining Long-term Trends in Married Women’s Labor Force Participation
Supply Versus Demand
Labor Supply: Income, Wage, and Substitution Effects
A General Model of the Labor Market for Married Women
Estimates of Income, Wage, and Substitution Effects
Applying the General Model, 1890 to 1980
A Cohort Approach to Change in Married Women’s Labor Force Participation
Cohort Differences in Fertility
Cohort Differences in Education
Occupational and Educational Change
A Cross-Section, Time-Series Model
Expectations and Cohort Labor Force Participation
Summary: Married Women in the Labor Force

6. Why Did Change Take So Long?
Marriage Bars
Extent of the Marriage Bar
Firm-Level Evidence, 1931 and 1940
Evidence from Local School Districts
Explaining the Marriage Bar
The Decline of the Marriage Bar in the 1950’s
The Long-Run Impact of the Marriage Bar
Hours of Work and Part-time Employment
Hours of Work
Part-time Employment
Summary: Easing the Constraints

7. The Political Economy of Gender
Historical Dimensions of Public Policy
Origins and Impact of Protective Legislation
Hours and Employment Effects of Maximum Hours Legislation
Protective Legislation Versus Equality
