<i>List of Figures</i>	vii
<i>List of Tables</i>	viii
<i>List of Contributors</i>	ix
<i>Series Editor's Preface</i>	xii
1 European integration and the information and communications technologies: the double transformation <i>Gareth Locksley</i>	1
<b>Part I: Perspectives on European integration</b>	<b>15</b>
2 Telecommunications in the great game of integration <i>Peter Holmes</i>	17
3 The communications complex <i>Gareth Locksley</i>	29
4 Non-tariff barriers: identity, diversity and difference <i>David Morley and Kevin Robins</i>	44
<b>Part II: Telecommunications and broadcasting policy</b>	<b>57</b>
5 The Janus character of television broadcasting <i>Vincent Porter</i>	59
6 Telecommunications tariff policies: an uncertain consensus <i>Robin E. Mansell</i>	73
7 Open network provision and the future of regulation in Europe <i>Geoff Mulgan</i>	89
<b>Part III: The framework of competition</b>	<b>99</b>
8 Standards in ICTs: consensus, institutions and markets <i>Peter Swann</i>	101
9 Technical harmonisation as a political project <i>Andrew Barry</i>	111

<b>Part IV: The process of competition and restructuring</b>	<b>121</b>
10 Intelligent buildings and smart homes <i>David Gann</i>	123
11 Defence electronics before and after 1992 <i>Bernard Harbor</i>	135
12 The changing structure of the subscriber equipment industry <i>David R. Charles</i>	147
13 Prospects for competition in a pan-European cellular telecommunications system <i>Dale Littler and Brian Sharp</i>	162
14 The uncommon market in life insurance: technology and integration <i>Fergus Murray and David Knights</i>	174
15 The challenges and opportunities facing the European electronic information industry <i>Sandra Vogel and Ian Rowlands</i>	187
16 Market integration, economic location and the development of European information services <i>Jeremy Howells</i>	202
<b>Part V: Collaboration: technical, social and economic</b>	<b>215</b>
17 Technology transfer and collaboration in the smaller firm: promise and problems <i>Wendy Faulkner and Joyce O'Connor</i>	217
18 Technology collaboration: 1992 and beyond <i>Alfonso H. Molina</i>	230
19 European integration and the question of social harmonisation <i>Peter Cressey</i>	246
20 The Single European Market: industrial collaboration and the single European market <i>Neil Kay</i>	261
Appendix: Basic facts about the European Community and related bodies <i>Peter Holmes</i>	270
<i>Bibliography</i>	274
<i>Index</i>	287

# List of Figures

---

6.1	Extent of 'tariff zone effect'	83
9.1	European supplier industry structure and its relationship to bodies which generate standards	114
12.1	Survey of European terminal equipment regulatory supply conditions (April 1987)	148
12.2	The extent of private competition introduced into the supply of TSE	150
18.1	Worldwide market of information technology: percentage share by region	231
18.2	Share of worldwide production of electronic equipment and average annual growth rate by main regions (1983 and 1988)	232
18.3	Penetration of the home market for information technology, office automation and control systems products in 1982	233
18.4	European data-processing market shares (top 25 companies)	243

# List of Tables

---

3.1	Changing roles of telecommunications administrations as presented in the Green Paper	36
6.1	Country profiles — tariff restructuring trends (telephone services, percentage changes 1980–87: current prices)	85
6.2	Country profiles — tariff restructuring trends (telephone services, percentage changes 1980–87: constant 1980 prices)	86
15.1	Host services and databases by country	190
15.2	Comparative revenues from online information	191
15.3	Membership of CEC Information Market Observatory	192
15.4	Language access to CEC-produced databases	198
15.5	Foreign languages acceptable to European users of electronic information services	198
16.1	Financial and business information services: links with information technology goods corporations	207
16.2	US corporate links with European information service providers and distributors	208
16.3	Regional distribution of VANS under general licence in the UK	212
17.1	A phased model of the technology-transfer process	222
18.1	Project Supernode: give-and-take underlying the convergence of interests between the different institutions in the project	239
18.2	Work packages of Supernode Project and participation of different members	240
