EXECUTIVE SUMMARY	15
<i>Chapter I. THE PLACE OF AGRICULTURE IN THE OVERALL ECONOMY</i>	19
<i>Chapter II. ECONOMIC AND POLICY REVIEW</i>	23
A. Recession and faltering reform	23
B. Major policy measures and debates	24
1. Gosagroprom	24
2. The 27th Party Congress and the Decree of March 1986	25
3. From March 1986 to March 1989	26
4. Legislation and debates in 1989/90	27
5. Sub-contracting and internal lease within kolkhozes and sovkhoses	29
6. Economic reform today — What sort?	31
C. Land reform developments since 1989	32
1. New land law	32
2. Presidential decree of land reform	33
3. Republican land reform proposals	34
D. A changing role for the private sector	35
1. The place of new private peasant farms	36
2. The “classic” plot production	37
3. Limitations to growth	40
4. “Integration” of the private sector	41
5. Summing up: little contribution to overall growth	42
Notes and References	44
<i>Chapter III. THE FINANCIAL CRISIS IN SOVIET AGRICULTURE</i>	47
A. Farms and the state budget	47
B. The role of government policy	51
C. Policy changes since 1990	54
1. Credit policies	54
2. Procurement prices	55
3. Retail prices	55
Notes and References	57
<i>Chapter IV. THE MAIN PRODUCTIVE FACTORS</i>	59
A. Land and its declining fertility	59
1. Land use patterns	59

2. Soil fertility problems	61
3. Summarising discussion	71
B. Investment and current capital inputs	72
1. Investment policy	72
2. Investment in livestock production	75
3. Investment in rural infrastructure	76
4. Mechanisation and machinery supply	77
5. Fertilisers	82
6. Plant protection products	86
7. Outlook	88
8. Irrigation and drainage	89
C. Labour	92
Notes and References	98
Chapter V. AGRICULTURAL PRODUCTION	99
A. The major crops	99
1. Grain	99
2. Oil crops	107
3. Sugarbeet	110
4. Potatoes	112
5. Fibre crops	115
B. Animal production	117
1. Stocks and output	117
2. Animal breeding	122
3. The feed base	123
4. Outlook	135
Notes and References	138
Chapter VI. THE DOWNSTREAM LINKS	139
A. The meaning of "downstream" in the Soviet context	139
B. Transport	140
1. Road transport	140
2. Railway and inland waterway transport	143
C. Storage	145
1. Grain storage	145
2. Storage facilities for potatoes, vegetables, melons and fruit	147
3. Storage facilities for animal feed.....	148
D. The Food Industry	148
1. Introduction: Problems with the quality and variety of processed foods	148
2. Importance to the economy as a whole and position in the agro-industrial complex	149
3. The "weakest link" in the Soviet food chain	151
4. Four of the main branch industries	154
5. Eight-year plan for the modernisation of the food industry	157
6. Some specifics of the Soviet food industry	160
Notes and References	164
Appendix: The extent of losses in the Soviet agro-food sector: an overview	165

<i>Chapter VII. FOOD CONSUMPTION</i>	167
A. All-Union and regional consumption patterns	167
1. Structures and trends of actual food intake	167
2. Potential future consumption	169
B. A decade of changes in food consumption	174
1. Situation and policy	174
2. Changes in consumption patterns	175
3. Outlook	178
Notes and References	180
<i>Chapter VIII. SOVIET AGRICULTURAL TRADE</i>	181
A. Trade in agricultural and food commodities	181
1. Agricultural policies and food self-sufficiency	181
2. A start on trade reform	182
3. Ability to finance agricultural imports	185
4. The import commodity mix	191
5. Recent trade patterns in selected commodities	191
B. The potential impact of market reform on agricultural trade	198
1. Modelling the estimated impact	198
2. Foreign trade prospects during the early phases of reform	204
3. Agricultural imports from the West	205
4. Conclusions	207
C. East/West trade in agricultural inputs, machinery and equipment for agriculture and the food processing industry	208
1. Introduction	208
2. Statistical basis	210
3. Systemic restrictions to trade	219
4. Summarising remarks on trade in agricultural inputs	220
Notes and References	222

List of Tables

1. The importance of agro-food trade in overall Soviet foreign trade, 1984-1989	20
2. The Soviet "Agro-industrial complex" (APK) and its constituent parts in 1988 (excluding forestry)	21
3. Value of private plot output 1975-88	38
4. Main products of the private plot sector	39
5. Debt outstanding: Total including farm and interfarm enterprises and collective farms, end of year	48
6. Gross payments to the agro-industrial complex from the state budget	49
7. Payments to State and Collective farms for agricultural sales	49
8. Farm profits	50
9. Payments to the State budget from the agro-industrial complex	50
10. Net payments from the state budget to the agro-industrial complex	51
11. Gross farm income and labour remuneration fund per worker by farm profitability - Collective farms, 1984	52
12. The share of gross income allocated to investment funds, and gross income and wage payments per labour day: collective farms 1984	52

13.	Fixed assets, investment, and gross output in agriculture in the Ukraine and the Non-Black Soil zone of the RSFSR, 1985-87	53
13a.	Maximum retail prices for Soviet food products before and after price reform	56
14.	Agricultural land use in the USSR	59
15.	Humus content and arable soils (per cent) in Kazahstan	63
16.	Breakdown of Soviet agricultural land according to phosphorus and potassium content (percentage of total area, 1986)	64
17.	Weight data for tractors and tracked vehicles and the pressure exerted on the soil ..	67
18.	Crop yields (q/ha) after differing degrees of soil compaction (average for the years 1979-1981)	67
19.	Humus loss and yield reduction according to the degree of soil erosion (per cent) ..	70
20.	Capital investment in Soviet agriculture, comparable prices	74
21.	Breakdown of agricultural investment of state and collective farms	74
22.	Capital investment of state and collective farms in animal husbandry	75
23.	Degree of mechanisation of major operations in livestock farming (percentage of livestock stands), excluding private farming	76
24.	Seasonal performance of harvesting machines (ha/machine) and degree of mechanisation (percentage of harvested area) excluding private farming	79
25.	Tractor deliveries and stocks	80
26.	Production, deliveries and stocks of important agricultural machines	81
27.	Trucks and truck capacities on farms	81
28.	Mineral fertilizer production and deliveries to agriculture	83
29.	Mineral fertilizer application in Soviet agriculture	84
30.	Fertilizer applications for non-grain crops	84
31.	Production, import and use of plant protection products in the Soviet Union	87
32.	Irrigated areas and planned irrigation measures in the Soviet Union and in the individual republics	90
33.	Drained areas and planned drainage measures in the Soviet Union and in the individual republics	91
34.	Labour in Soviet agriculture, 1970-1988	95
35.	Increases in labour productivity in the social sector of agriculture	96
36.	Soviet grain production: plan targets and actual results	100
37.	Grain: area, production and yield	100
38.	Grain harvests, gross and net	101
39.	Average yields of selected grain crops	103
40.	Oil crops: area, production and yield	108
41.	Sugar content of beet	110
42.	Sugarbeet area, production and yield, beet sugar production	111
43.	Potatoes: area, yield, production and consumption	113
44.	Cotton: area, production and yield	116
45.	Flax: area, production and yield	116
46.	Hemp: area, production and yield	117
47.	Annual changes in livestock inventories and production	119
48.	Trends in animal stocks (all classes of farms)	120
49.	Livestock performance and liveweight of slaughter animals	124
50.	Trends in feeding efficiency	125
51.	Trends in feed supplies, animal production, and animal performance	126
52.	Concentrate and protein feed consumption	127
53.	Yields of main feed crops	129

54. Development of area under main feed crops	131
55. Production of main crops relevant for animal feed	132
56. Plan fulfilment in feed consumption and animal production to 1990, and estimates for 1995 and 2000	136
57. Transport of selected agricultural products	142
58. Structure of the Soviet food industry (1988)	150
59. Direct consumption and industrial processing of agricultural products (percentage of gross agricultural production)	151
60. Production of industrially processed basic foodstuffs in the Soviet Union	152
61. Trend in meat industry production	154
62. Trend in dairy industry production	155
63. Potato products	156
64. Planned capacity extension in selected branches of the Soviet food industry (1988-95)	159
65. Overview of the losses of agricultural products according to Soviet statements	165
66. Per capita consumption of selected foodstuffs	168
67. Estimated trend in the consumption of selected foodstuffs to 2000	170
68. Per capita food consumption in selected republics	171
69. Average food prices in state, cooperative and kolkhoz free market retail trade outlets	173
70. Recommended per capita food consumption in selected republics	173
71. USSR food consumption patterns	176
72. USSR per capita consumption of major food items (FAO balance sheets)	178
73. Food consumption patterns in the USSR and developed market economies (1986-88) (FAO balance sheets)	179
74. USSR foreign trade by country group and Soviet ruble/dollar exchange rate	183
75. USSR agricultural imports by value, calendar years	187
76. Principal USSR agricultural imports, by volume, calendar years	189
77. USSR grain imports and exports	192
78. USSR meat imports, exports and consumption	193
79. USSR foreign trade in dairy products	194
80. USSR edible fats and oils and oilmeal proteins imports	195
81. USSR sugar imports and exports, 1985-87, 1988 and 1990	197
82. USSR - cotton trade	198
83. Calculated Producer and Consumer Subsidy Equivalents for the USSR, 1986	200
84. Soviet purchases, from all sources, of agricultural inputs, 1980-1989, total and sub-groups	212
85. Soviet exports of agricultural inputs, 1980-1989, total and sub-groups 0	213
86. Soviet purchases of agricultural inputs, 1989, by country groups and sub-groups ...	214
87. Soviet imports of agricultural inputs from the CMEA Six, by countries and sub-groups, 1989	214
88. Soviet exports of agricultural inputs, 1989, by country groups and sub-groups	215
89. Soviet exports of agricultural inputs to the CMEA Six; breakdown by countries and commodity sub-groups, 1989	215
90. OECD exports to the USSR and the CMEA Six of agricultural inputs, 1980 and 1987-1989, total and sub-groups	216
91. OECD imports from the USSR and the CMEA Six of agricultural inputs, 1980 and 1987-1989, total and sub-groups	217
92. OECD exports to the USSR and the CMEA Six of agricultural inputs, 1989, US\$m, by countries and sub-groups	218

93. OECD imports from the USSR and the CMEA Six of agricultural inputs, 1989, US\$mn, by countries and sub-groups	218
--	-----

List of Figures

1. Pre-reform situation	201
2. Post-reform situation (without foreign trade)	202
3. Post-reform situation (with foreign trade)	203
