

## **PART 1**

### **The Nature of Human Language**

---

#### **CHAPTER 1 What Is Language?**

Linguistic Knowledge	4
Knowledge of the Sound System	4
Knowledge of the Meaning of Words	5
The Creativity of Linguistic Knowledge	8
Knowledge of Sentences and Nonsentences	10
Linguistic Knowledge and Performance	11
What Is Grammar?	13
Descriptive Grammars	13
Prescriptive Grammars	14
Teaching Grammars	16
Language Universals	17
Animal “Languages”	18
“Talking” Parrots	19
The Birds and the Bees	20
In the Beginning: The Origin of Language	22
God’s Gift to Mankind?	23
The First Language	23
Human Invention or the Cries of Nature	24
What We Know About Language	25
Summary	26
References for Further Reading	28
Exercises	29

## **PART 2**

### **Grammatical Aspects of Language**

---

#### **CHAPTER 2 Morphology: The Words of Language**

Dictionaries	36
--------------	----

## Contents

Classes of Words	38
Lexical Content Words	38
Function Words	39
Word Sets	39
Morphemes: The Minimal Units of Meaning	41
Bound and Free Morphemes	42
Prefixes and Suffixes	43
Infixes	44
Circumfixes	45
Huckles and Ceives	45
Rules of Word Formation	47
Lexical Gaps	48
Derivational Morphology	48
"Pullet Surprises"	51
Word Coinage	53
Compounds	53
Meaning of Compounds	54
Universality of Compounding	55
Acronyms	56
Blends	56
Back-Formations	57
Abbreviations	57
Words from Names	57
Grammatical Morphemes	59
Inflectional Morphemes	60
Exceptions and Suppletions	62
Morphology and Syntax	63
Summary	64
References for Further Reading	65
Exercises	66

## CHAPTER 3

### Syntax: The Sentence Patterns of Language

Grammatical or Ungrammatical	73
What Grammaticality Is Based On	73
What Grammaticality Is Not Based On	75
What Else Do You Know About Syntax?	76
Sentence Structure	78
Syntactic Categories	79
Phrase Structure Trees	81
More Phrase Structure Trees	83
The Infinitude of Language	85

Phrase Structure Rules	87
Growing Trees	89
Trees That Won't Grow	92
More Phrase Structure Rules	95
Heads of Phrases	96
The Lexicon	97
Subcategorization	98
More Lexical Differences	99
Transformational Rules	100
Long Distance Relationships	103
“Wh-” Sentences	104
Recursion Revisited	105
More About Sentence Structure	108
Types of Language	110
Summary	112
References for Further Reading	113
Exercises	115

## **CHAPTER 4**

### **Semantics: The Meanings of Language**

Word Meaning	124
Semantic Properties	124
Evidence for Semantic Properties	126
Semantic Properties and the Lexicon	127
More Semantic Relationships	128
Homonyms and Ambiguity	128
Synonyms and Paraphrases	131
Antonyms	132
Formation of Antonyms	134
Names	134
Phrase and Sentence Meaning	137
Combining Words into Sentences	137
Thematic Roles	139
Semantics and Syntax	142
The “Truth” of Sentences	145
Sense and Reference	147
When Rules Are Broken	148
Anomaly: No Sense and Nonsense	148
Metaphor	150
Idioms	152
Discourse Meaning	154

## Contents

Pronouns	154
Missing Parts	156
The Articles “ <i>the</i> ” and “ <i>a</i> ”	156
Maxims of Conversation	157
Pragmatics	158
Speech Acts	159
Presuppositions	160
Deixis	162
Summary	164
References for Further Reading	166
Exercises	167

## **CHAPTER 5** Phonetics: The Sounds of Language

Sound Segments	176
Identity of Speech Sounds	178
Spelling and Speech	180
The Phonetic Alphabet	181
Articulatory Phonetics	186
Airstream Mechanisms	186
Voiced and Voiceless Sounds	187
Nasal and Oral Sounds	189
Places of Articulation	191
Labials	191
Interdentals	192
Alveolars	192
Velars	192
Palatals	192
Coronals	192
Manners of Articulation	193
Stops and Continuants	193
Aspirated and Unaspirated Sounds	194
Fricatives	195
Affricates	196
Liquids	197
Glides	197
Syllabic Sounds	198
Vowels	199
Tongue Position	200
Lip Rounding	200
Diphthongs	202
Nasalization of Vowels	202
Prosodic Supra-segmental Features	203

Long and Short (Tense and Lax Vowels)	203
Tone and Intonation	204
Diacritics	206
Phonetic Symbols for American English Consonants	207
Summary	210
References for Further Reading	211
Exercises	212

**CHAPTER 6****Phonology: The Sound Patterns of Language**

Phonemes: The Phonological Units of Language	217
Minimal Pairs	218
Free Variation	220
Distinctive Features	221
Binary Valued Features	221
Sounds That Are Not Phonemes	222
Phonemes, Phones, and Allophones	223
Complementary Distribution	224
Predictability of Redundant Features	225
Unpredictability of Phonemic Features	227
More on Redundancies	228
Sequential Constraints	230
Syllable Structure	231
Natural Classes	232
Major Class Features	233
Obstruents and Sonorants	233
[ + consonantal] Sounds	234
[ + syllabic] Sounds	234
Sibilants	235
Feature Specifications for American English Consonants and Vowels	235
More on Prosodic Phonology	237
Intonation	237
Word Stress	238
Sentence and Phrase Stress	239
The Rules of Phonology	241
The Formalization of Phonological Rules	241
Assimilation Rules	244
Dissimilation Rules	246
Feature Addition Rules	247
Segment Deletion and Addition Rules	248
Movement (Metathesis) Rules	249

From One to Many and from Many to One	250
The Function of Phonological Rules	253
Slips of the Tongue: Evidence for Phonological Rules	254
The Pronunciation of Morphemes	255
Morphophonemics	257
More Sequential Constraints	259
Summary	261
References for Further Reading	263
Exercises	265

### **PART 3**

## **Social Aspects of Language**

---

### **CHAPTER 7 Language in Society**

Dialects	275
Regional Dialects	276
Accents	277
Dialects of English	278
Phonological Differences	279
Lexical Differences	280
Dialect Atlases	280
Syntactic Differences	281
The “Standard”	283
Language Purists	283
Banned Languages	284
Black English	287
Phonology of Black English	288
Syntactic Differences between BE and SAE	289
Double Negative	289
Deletion of the Verb “Be”	289
Habitual “Be”	290
History of Black English	290
Hispanic English	292
Lingua Francas	294
Pidgins and Creoles	295
Pidgins	295
Creoles	298
Styles, Slang, and Jargon	299
Styles	299

Slang	300
Jargon and Argot	301
Taboo or Not Taboo	302
Euphemisms	304
Racial and National Epithets	306
Language and Sexism	306
Marked and Unmarked Forms	307
The Generic “ <i>He</i> ”	309
More Asymmetries	310
Female Language	310
Summary	312
References for Further Reading	313
Exercises	315

## **CHAPTER 8** Language Change: The Syllables of Time

The Regularity of Sound Change	322
Phonological Change	324
Phonological Rules	325
The Great Vowel Shift	326
Morphological Change	327
Syntactic Change	330
Lexical Change	332
New Words	332
Borrowings	332
Loss of Words	336
Semantic Change	336
Broadening	336
Narrowing	337
Meaning Shifts	337
Reconstructing “Dead” Languages	337
The Comparative Method	341
Historical Evidence	342
The Genetic Classification of Languages	344
Why Do Languages Change?	348
Languages of the World	350
Summary	355
References for Further Reading	355
Exercises	357

**CHAPTER 9 Writing: The ABCs of Language**

The History of Writing	364
Pictograms and Ideograms	364
Cuneiform Writing	366
The Rebus Principle	368
From Hieroglyphs to the Alphabet	369
Modern Writing Systems	370
Word Writing	371
Syllabic Writing	373
Alphabetic Writing	374
Writing and Speech	377
Spelling	379
Spelling Pronunciations	383
Summary	384
References for Further Reading	385
Exercises	386

**PART 4**

**Biological Aspects of Language**

---

**CHAPTER 10 Language Acquisition**

Stages in Language Acquisition	394
The First Sounds	395
Babbling	396
First Words	397
The Two-Word Stage	399
From Telegraph to Infinity	400
Theories of Child Language Acquisition	402
Do Children Learn by Imitation?	402
Do Children Learn by Reinforcement?	403
Children Form Rules and Construct a Grammar	404
Errors or Rules?	406
Inflectional Errors	407
Phonological and Morphological Rule Acquisition	407
The Acquisition of Syntax	408
Learning the Meaning of Words	410
The Biological Foundations of Language Acquisition	411
The "Innateness Hypothesis"	411
The "Critical Age Hypothesis"	413

The Acquisition of Bird Songs	414
Sign Languages: Evidence for the Biology of Language	415
American Sign Language (ASL)	416
The Acquisition of ASL	420
Learning a Second (or Third or . . .) Language	421
Theories of Second Language Acquisition	423
Can Chimps Learn Human Language?	424
Gua	426
Viki	426
Washoe	426
Sarah	427
Learning Yerkish	427
Koko	427
Nim Chimpsky	427
Clever Hans	428
Kanzi	429
Summary	430
References for Further Reading	432
Exercises	433

## **CHAPTER 11** Human Processing: Brain, Mind, and Language

The Human Brain	437
The Two Sides of the Brain	437
Evidence for Brain Lateralization	441
Aphasia Studies	442
Split Brains	446
More Lateralization Evidence	449
The Evolution of Language	450
The Autonomy of Language	451
The Linguistic Mind at Work: Human Language Processing	453
Comprehension	454
Comprehension Models and Experimental Studies	455
Speech Production	458
Planning Units	459
Lexical Selection	460
Application and Misapplication of Rules	461
Nonlinguistic Influences	462
Summary	462

References for Further Reading	464
Exercises	465

## **PART 5**

### **Language in the Computer Age**

---

#### **CHAPTER 12 Computer Processing of Human Language**

Machine Translation	472
Text Processing	473
Computers That Talk and Listen	474
The Speech Signal	475
Talking Machines (Speech Synthesis)	477
Knowing What to Say	479
Machines for Understanding Speech	481
Speech Recognition	482
Speech Understanding	483
Parsing	483
Semantic Processing	486
Pragmatics	487
Computer Models of Grammars	488
Language and Artificial Intelligence	489
Summary	491
References for Further Reading	492
Exercises	494

#### **APPENDIX Glossary 499**
